The Ohio State . . . Lima Branch

Vol. 2, No. 1 — December 10, 1962 — O.S.U.—Lima Branch

Faculty Personnel Reaches 41

The Ohio State Lima Branch faculty is composed of thirty-seven instructors and a librarian, in addition to the director and office executive secretaries.

About half of the instructors are regular instructors on the Columbus Campus. The remaining personnel are faculty members of Lima Senior High School and nearby colleges.

Teaching agricultural economics is William Eickhoff; anthropology, Carl B. Morrison; botany, James B. Wells, with John Kohn, assistant; chemistry, James Bright and Richard Kaiser; economics, Jason J. Kaiser.

Education, George Lewis, and Jack Frymier; engineering drawing, John J. Connelly; English, Mrs. Jean Barbarash, Miss Mabel Crawford, Mrs. Gladys Bernaken, Mrs. Jean Rhead, John R. Wilce.

French, Miss Mary Beery; history, Miss Mary Tudor, Hanton Steiner; math, Mrs. Connie Niemeyer, Mrs. Emily J. Schudel, Eugene Weber, Richard Roeder, Mrs. Janice M. Green, Luther Shetler, Warner Boyer.

Music, C. Thomas Barr; philosophy, Paul Olscamp; physics, Rong Sheng Jin, John Kohn; political science, Anthony Mijar; psychology, William DeStephens, Alfred Cohoe.

Sociology, Michael Cutsumbis; speech, B. Bruce Wagner; zoology, Roger Barnard with James Dudley, assistant.

Librarian is Mrs. Lucile Ritter.

The Lima Branch faculty is well qualified and equipped, thereby guaranteeing a good climate for learning.

Each instructor is a counselor in his own right, concerned with the progress and achievements of each of his students.

Guidance and counseling are essential services and occupy an important part of the time of the teacher as well as the Director of the Branch.

Fear not that your life shall come to an end, but rather that it shall have no beginning.
—Cardinal Newman

J. McLEAN REED

Reed Serves OSU Branch

J. McLean Reed assumed directorship of Lima Campus in mid-summer.

Mr. Reed graduated from Ohio Northern and has attained B.S. and B.A. degrees and honorary Doctor of Pedagogy degree along with a Master of Arts degree from Ohio State.

He is an experienced administrator from Danville, Illinois, where, for the past 15 years he served as superintendent of public schools and director of Danville Junior College.

Prior to that the new director served 16 years as superintendent of the Lima Public School System and eight years as superintendent of the Fostoria schools.

"The esteem in which he was held at that time" said a member of the faculty, "made his appointment to the present directorship particularly newsworthy. He has a reputation for being sincere, capable, and fair-minded. His professional attitude sets the pace for a new era at Lima Campus, and as Lima Campus — its students and faculty — say, 'Welcome, Mr. Reed! May your stay be long and happy!' "

One person with a belief is a force equal to ninety-nine who have no interests.
—John Stuart Mill

Branch Owes Debt To Area Civic Leaders

The Lima Branch, like most organizations, has a group of individuals who do much, but about whom little is said. This group of business and civic leaders who unselfishly give a great deal of time and money to promote the OSU Branch is the Advisory Board Committee. Each individual serving on the committee deserves thanks.

Members of this committee are as follows:

Executive committee: chairman, Charles Cook, National Finance; John Walters, member of education committee, Association of Commerce; Clyd Clarke and Horace Shock, members of the Allen County Board of Education; J. J. Wendorf, Jr., president of Lima Library Board of Trustees; Virgil Brugel, Allen County superintendent of schools; Mrs. Sheldon Ackerman, chairman of scholarship drive; Harold Kenezig; and Harry Martin.

Education committee: chairman, Otis Smart, education committee, Association of Commerce; John Stirling, industrial relations, Ford Motor Company; Miss Lora Nolcier, librarian, Lima Public Library; Farl Williams, labor leader; Mrs. H. C. Wissenberger, president of Lima Chapter AAUW; Mrs. Cary B. May; Merle Harrod, Wapakoneta Machine Company; Paul Kerr; and Frank Zeigler.

Publicity committee: chairman, Harold Kenepp, member of education committee, Association of Commerce; Henry C. Hollinger, director of public works; William Young, member of education committee, Association of Commerce; and Miss Easter Straker.

Scholarship committee: chairman, Mrs. Sheldon Ackerman, chairman of scholarship drive; Harry Martin, superintendent of Lima Public Schools; H. W. Schneerman, principal of Lima Senior High School; Rev. Father E. C. Herr, principal of Lima Central Catholic High School; Virgil Brugel, Allen County Superintendent of Schools; Mrs. Edgar Riker, president of Lima Parent Teachers Association; Julius F. Solomon, president of First National Bank of Lima; and Wendell Stewart, vice - president of Superior Coach.

Local campus director is J. McLean Reed; office secretaries are Bonnie Shook and Mary Clarie Bechtold.

Local Senate To Sponsor Annual Ball

A semi-formal dance will highlight the Christmas season for Branch students and faculty and their wives, husbands, or dates.

The Christmas Ball will be held in the Frenchmen Room of the Bart Hotel, where those attending will dance to the music of Lee Blanchard and his band.

Admission is two dollars per couple.

This dance is one of the activities sponsored by the Student Senate in their purposive attempt to simulate campus life.

Exams End Term; Students Register

A lush and — will hover over the halls of the Lima Branch, Dec. 10, 11, and 12, as 433 students labor to put onto paper material covered this quarter.

Instructors from Columbus and Lima will be in attendance on these momentous days to supervise the testing, which will be held each day in two-hour sequences: 4-6, 6-8, 8-10.

Students will register and pay fees for the winter quarter from 9 a.m. to 12 noon in the cafeteria.

Those desiring may purchase books and supplies at the same time.

You can sit on the top of a mountain, but you can't sit on a task.

CIRCULAR No. 148

SPRAYING FARM ORCHARDS BY THE CLUB PLAN

INTRODUCTION

Early in the Spring of the year 1913, while the county agent work was being tried out experimentally in Beavercreek township, Greene county, Ohio, attention was called to the scarcity of apples grown in the farm orchards. Upon investigation of the statistics of the county it was found that the acreage and production of apples had decreased to about one-third what it was twenty-five years ago. Few orchards in the township were bearing as they should and believing this to be due to the fact that they were not receiving the care necessary in order to grow marketable fruit, the assistance of the Experiment Station was secured.

A half dozen trees in each of three orchards were carefully pruned and sprayed and in two of these orchards a quantity of good fruit was grown. While the value of spraying has been demonstrated time and again by the Experiment Station and in private orchards as well, it was again locally emphasized by the work done here at that time.

The sprayed trees were more healthy and their foliage kept greener than that on the other trees during the dry weather in the latter part of the summer. The fruit hung on and matured better than that on the unsprayed trees. Besides this the flavor of the fine, perfect fruit was pronounced in comparison with that of the knotty and wormy apples on the other trees. In fact, the sprayed fruit was so much better than the unsprayed in the same orchard that a buyer paid $1.25 per bushel for the good apples while he would not take the unsprayed fruit at any price.

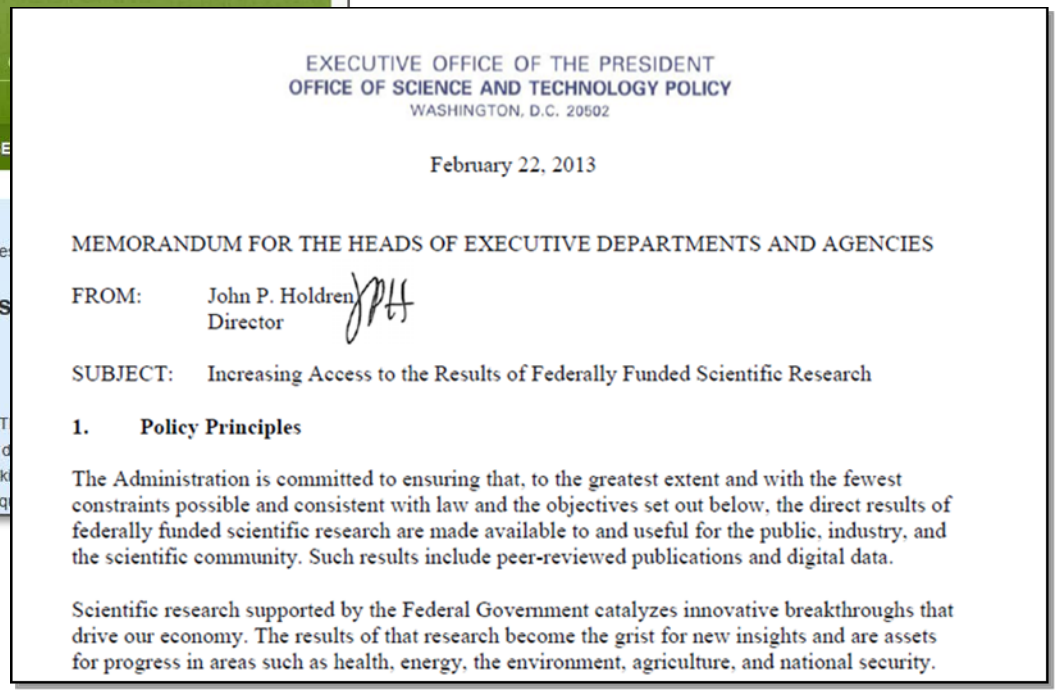
Executive Directive on Public Access

February 22, 2013…



EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF SCIENCE AND TECHNOLOGY POLICY
WASHINGTON, D.C. 20502

February 22, 2013

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

FROM: John P. Holdren
Director

SUBJECT: Increasing Access to the Results of Federally Funded Scientific Research

1. Policy Principles

The Administration is committed to ensuring that, to the greatest extent and with the fewest constraints possible and consistent with law and the objectives set out below, the direct results of federally funded scientific research are made available to and useful for the public, industry, and the scientific community. Such results include peer-reviewed publications and digital data.

Scientific research supported by the Federal Government catalyzes innovative breakthroughs that drive our economy. The results of that research become the grist for new insights and are assets for progress in areas such as health, energy, the environment, agriculture, and national security.

Executive Directive on Public Access

February 22, 2013…

Expanding Public Access to the Results of Federally Funded Research

Directs US Federal agencies with more than $100M in R&D expenditures to develop plans to make the published results of federally funded research freely available to the public within one year of publication and requiring researchers to better account for and manage the digital data resulting from federally funded scientific research

Fair Access to Science and Technology (FASTR) Act

- Now before both the House of Representatives and the Senate, FASTR would require those agencies with annual extramural research budgets of $100 million or more to provide the public with online access to research manuscripts stemming from such funding no later than six months after publication in a peer-reviewed journal
