INSTRUCTIONS TO AUTHORS — inside back cover

COVER PHOTO: Chlaenius emarginatus Say (Coleoptera: Carabidae) is one of 49 species of ground beetles recorded from oak, mesophytic, and lowland forests at Beaver Creek State Park, Columbiana County, OH. Six species, including C. emarginatus are known to feed on gypsy moth larvae which pose a serious threat to ridge top oak forests of southeastern Ohio. MacLean and Usis (p. 46-50) describe the potential importance of these beetles in controlling the threat.
