THE OHIO JOURNAL OF SCIENCE
ISSN 0030-0950

Editorial Policy:

General:
THE OHIO JOURNAL OF SCIENCE considers original contributions from members and non-members of the Academy in all fields of science. While special consideration will be given to manuscripts concerned with Ohio subject matter, other reports with scientific merit will be reviewed for publication. Submission of a manuscript is understood to mean that the work is original and unpublished, and is not being considered for publication elsewhere. All manuscripts considered for publication will be peer-reviewed. The opinions expressed by reviewers are their own, and do not represent the views of the Ohio Academy of Science or THE OHIO JOURNAL OF SCIENCE. Manuscripts and illustrations should be prepared in triplicate in accordance with current guidelines published in THE JOURNAL at least once a year, and submitted to:

Dr. Lee A. Meserve, Editor
THE OHIO JOURNAL OF SCIENCE
Department of Biological Sciences
Bowling Green State University
Bowling Green, OH 43403-0212

Page Charges:
Publication of THE OHIO JOURNAL OF SCIENCE requires that authors assist in meeting publication expenses. These costs will be assessed at $70 per page for members of the Academy and $105 per page for non-members. Papers which exceed 12 printed pages may be charged full production costs. A bill for page charges will be sent to the communicating author by the Ohio Academy of Science at the time of publication.

Failure to Receive THE JOURNAL:
Any claim of failure to receive subscription issues of THE JOURNAL must be submitted to the Ohio Academy of Science within six months of date of issue of the missing number, to be recognized.

Listing Services:
THE OHIO JOURNAL OF SCIENCE is listed or abstracted in several sources including:
- Bibliography of Agriculture
- Biological Abstracts
- Chemical Abstracts
- Current Advances in Ecological Sciences
- Current Contents (Agriculture, Biology & Environmental Sciences)
- Deep Sea Research and Oceanography Abstracts
- Environment Abstracts
- Environmental Information Center
- Forest Products Abstracts
- Forestry Abstracts
- Geo Abstracts
- GEOBASE
- Geology Abstracts
- GeoRef
- Helminthological Abstracts
- Horticulture Abstracts
- Nuclear Science Abstracts
- Review of Plant Pathology
- Selected Water Resources Abstracts
- World Agricultural Economics and Rural Sociology Abstracts

INSTRUCTIONS TO AUTHORS — inside back cover
STONE LABORATORY
1895 ~ Ohio's Lake Erie Laboratory for 100 Years ~ 1995

STONE LABORATORY is Ohio's freshwater field station on Lake Erie. It is located across the harbor from Put-in-Bay on Gibraltar Island.

Stone Laboratory offers intensive, hands-on courses in biology, geology, education, and natural resources for college students, teachers, and high school students. Students learn in the classroom, laboratory, and field.

Courses provide comprehensive studies of freshwater systems and specific information on the unique environmental attributes of Lake Erie. Students enrolled at state-assisted colleges and universities can enroll for Stone Laboratory courses through their home institutions. Financial assistance is available. Meals and housing are provided on the island.

Courses Offered
- Field Entomology
- Aquatic Entomology
- Ichthyology
- Field Zoology
- Higher Aquatic Plants
- Marine Biology & Ecology
- Limnology
- Fish Ecology
- Individual Studies
- Great Lakes Education Workshop
- Geologic Setting of Lake Erie
- Principals of Oceanography for Science Teachers
- Introductory Insect Biology
- Introductory Aquatic Biology
- Introduction to the Study of Birds
- Field-Based Introduction to Oceanography

Introductory and educator's classes meet six days for one week. All other classes meet three days a week for five weeks.

Teaching Opportunities
Much of the success of Stone Laboratory is due to the hands-on approach to learning, the small class size, and the selection of superior instructors. Anyone with an interest in teaching one of the courses should contact the Director, Jeffrey M. Reutter.

CUSTOM-PLANNED AQUATIC SCIENCE WORKSHOPS & GROUP FIELD STUDIES are offered from mid-April through October. Science teachers at middle schools, high schools, and colleges are encouraged to bring their students to Stone Lab for one to three days of field study. Stone Laboratory can provide laboratories, research boats, field equipment, and experienced field ecologists for such groups.

CONFERENCE & RETREAT facilities are available from mid-April through October. The isolated, informal atmosphere on the island makes it ideal for these programs.

RESEARCH facilities at Stone Laboratory are available year round.
