**ISSN 0030-0950**

**Editorial Policy:**

**General:**

THE OHIO JOURNAL OF SCIENCE considers original contributions from members and non-members of the Academy in all fields of science. While special consideration will be given to manuscripts concerned with Ohio subject matter, other reports with scientific merit will be reviewed for publication. Submission of a manuscript is understood to mean that the work is original and unpublished, and is not being considered for publication elsewhere. All manuscripts considered for publication will be peer-reviewed. The opinions expressed by reviewers are their own, and do not represent the views of the Ohio Academy of Science or THE OHIO JOURNAL OF SCIENCE. Manuscripts and illustrations should be prepared in triplicate in accordance with current guidelines published in THE JOURNAL at least once a year, and submitted to:

**Dr. Kerry L. Cheesman, Editor**

**Page Charges:**

Publication of THE OHIO JOURNAL OF SCIENCE requires that authors assist in meeting publication expenses. These costs will be assessed at $85 per page for members of the Academy and $120 per page for non-members. In multi-authored papers, each author must be a member of the Academy at the time of publication to be eligible for the reduced member rate. Papers which exceed 12 printed pages may be charged full production costs. A bill for page charges will be sent to the communicating author by the Ohio Academy of Science at the time of publication.

**Failure to Receive THE JOURNAL:**

Any claim of failure to receive subscription issues of THE JOURNAL must be submitted to the Ohio Academy of Science within six months of date of issue of the missing number, to be recognized.

INSTRUCTIONS TO AUTHORS — inside back cover

COVER PHOTO: The Large-Flowered/Large White Trillium, Trillium grandiflorum, is the State Wildflower of Ohio. Adopted as a state symbol in 1987, the Trillium is found in most counties of the state from April through June, and is a well-known symbol of Ohio’s natural places. The Trillium grows in wooded areas and thickets containing basic to neutral soil. The flower consists of three large white petals with six yellow anthers, atop a whorl of three narrow sepals and three broad leaves. This photo was taken in Delaware County in April 2004.
