THE OHIO JOURNAL OF SCIENCE
ISSN 0030-0950

Editorial Policy:

General:
THE OHIO JOURNAL OF SCIENCE considers original contributions from members and non-members of the Academy in all fields of science. While special consideration will be given to manuscripts concerned with Ohio subject matter, other manuscripts with scientific merit will be reviewed for publication. Submission of a manuscript is understood to mean that the work is original and unpublished, and is not being considered for publication elsewhere. All manuscripts considered for publication will be reviewed by the editors. The opinions expressed by reviewers are their own, and do not represent the views of the Ohio Academy of Science or THE OHIO JOURNAL OF SCIENCE. Manuscripts and illustrations should be prepared in triplicate in accordance with current guidelines published in THE JOURNAL at least once a year, and submitted to:

Dr. Kerry L. Cheesman, Editor
The Ohio Journal of Science
Biological Sciences Department
Battelle Hall, Capital University
1 College and Main
Columbus, OH 43209-2394

Page Charges:
Publication of THE OHIO JOURNAL OF SCIENCE requires that authors assist in meeting publication expenses. These costs will be assessed at $85 per page for members of the Academy and $120 per page for non-members. In multi-authored papers, each author must be a member of the Academy at the time of publication to be eligible for the reduced member rate. Papers which exceed 12 printed pages may be charged full production costs. A bill for page charges will be sent to the communicating author by the Ohio Academy of Science at the time of publication.

Failure to Receive THE JOURNAL:
Any claim of failure to receive subscription issues of THE JOURNAL must be submitted to the Ohio Academy of Science within six months of date of issue of the missing number, to be recognized.

Listing Services:
THE OHIO JOURNAL OF SCIENCE is listed or abstracted in several sources including:

- AcadSci Abstracts
- Bibliography of Agriculture
- Biological Abstracts
- Chemical Abstracts
- Current Advances in Ecological Sciences
- Current Contents (Agriculture, Biology & Environmental Sciences)
- Deep Sea Research and Oceanography Abstracts
- Environment Abstracts
- Environmental Information Center
- Forest Products Abstracts
- Forestry Abstracts
- Geo Abstracts
- GEOBASE
- Geology Abstracts
- GeoRef
- Helminthological Abstracts
- Horticulture Abstracts
- Nuclear Science Abstracts
- Review of Plant Pathology
- Selected Water Resources Abstracts
- World Agricultural Economics and Rural Sociology Abstracts

DIVISION EDITORIAL BOARD
THE OHIO JOURNAL OF SCIENCE

Biological Sciences
- Chester Ray Cooper, Youngstown State University
- Daniel Ely, The University of Akron
- Robert P. Rakowski, Ohio University

Chemical Sciences
- George R. Newkome, The University of Akron

Earth & Space Sciences
- Yildirim Dilek, Miami University of Ohio
- Gregory Schumacher, Ohio Department of Natural Resources

Ecological & Environmental Sciences
- Lauchlan Fraser, The University of Akron

Education
- Charles L. Salzberg, Utah State University
- Beth Stroble, The University of Akron

Information Technology, Computing & Communications
- Al Herbert, The University of Akron

Mathematical Sciences
- Arjun Gupta, Bowling Green State University

Medical Sciences & Health Technology
- Mitchell Harmon, M.D., Ph.D., Kronos Longevity Institute, Phoenix, AZ
- Richard Josephson, M.S., M.D., Summa Health Systems, Akron, OH

Methodology
- Keith McNeil, New Mexico State University
- John Pohlmann, Southern Illinois University

Nanotechnology
- Lloyd Goettler, The University of Akron
- Steven Chuang, The University of Akron

Physical Sciences & Polymer Sciences
- Ernst Von Meerwall, The University of Akron

Social & Behavioral Sciences
- Dick Genardi, The Union Institute
- Andrea Karkowski, Capital University

Division Editors are needed in the following areas:

- Biotechnology
- Engineering & Technology
- Molecular Genetics, Genomics, & Cell Biology

Send a letter of interest outlining publication experience and a full curriculum vitae to the editor at the address above.
ARTICLES

66 Cardiac Rehabilitation Intervention and Quality of Life Indicators: A Validation Estimate of Ware's Model by J. M. Laux, I. Newman, J. Queener, J. Rosneck, and R. Josephson

74 Administration of a Glycoprotein IIb/IIIa Receptor Blocker with a Thienopyridine Derivative Does Not Increase the Risk of Thrombocytopenia by K. H. Silver, I. Newman, S. M. Rohr, J. Johnson, and R. A. Josephson

79 Steel Industry Slags Compared with Calcium Carbonate in Neutralizing Acid Mine Soil by D. A. Munn

97 Failure of a Free-living Northern Mockingbird (Mimus polyglottos) to Discriminate Food Rewards on the Basis of Number by G. L. Farnsworth

BOOK REVIEW

100 Teaching Tips: Innovations in Undergraduate Science Instruction edited by M. Druger, E. Seibert, and L. Crow

INSTRUCTIONS TO AUTHORS — inside back cover

COVER PHOTO: The American Goldfinch, Carduelis tristis, sometimes referred to as a “wild canary,” is a beautiful and common bird throughout Ohio and most of the continental 48 states. They are both summer and winter residents throughout much of Ohio. A breeding male, such as is pictured here, is easily identified by the bright yellow body, white rump, and black forehead. Like many species, there is sexual dimorphism between the males and the females, with females and winter males being duller and gray to greenish-brown in color. American Goldfinches fly with an undulating pattern, and their bright vocalizations coincide with these undulations. This picture was taken in Blendon Woods Metro Park, Franklin County, at the wetland bird viewing area. (Photo courtesy of Ian Cheesman, Capital University, Columbus, OH.)
