The Manufacture of Dynamite and Gelatin—E. M. Symmes 17
Arts and the Engineer—J. M. Weed 20
Big Telescope Discs Made Here 21
Campus Notes 22
Alumni Notes 24
THE EIFFEL TOWER

Most of the famous buildings in the world are equipped with Otis Elevators.

THE EIFFEL TOWER lifts its head nearly one thousand feet above the city of Paris. Countless people have made the trip to the top to see the glory that was, and is and always shall be—Paris.

Millions have seen the Eiffel Tower! Many more millions have read of it, yet comparatively few know that this—the tallest structure in the world—is served by Otis Elevators.

It could hardly be otherwise. The name "Otis" epitomizes the very beginnings and also the latest, greatest achievements in vertical transportation.

JEFFREY

COAL CRUSHING AND
HANDLING MACHINERY

Plays an essential part in efficient Boiler Plant Equipment. Production depends on power just as long as it has proper fuel and an adequate conveying system for bringing it from the cars to the Stoker.

Catalogs on Jeffrey Elevating, Conveying, Crushing, Pulverizing, and Coal Mining Machinery will be gladly sent to Ohio State Students and Alumni upon request.
