BEGINNING in alphabetical order we find ROBERT EDWIN ANDERSON, a Columbus boy. He is known as Bob by his friends. In addition to scholastic achievements, Bob has taken part in various outside activities. He is active in Keramos and A. C. S. and has played in intramural athletics.

The next graduating ceramic engineer is SIDNEY JOSEPH BROOKS. Sid came to us from Cleveland, Ohio. Keramos and A. C. S. as well as intramurals are listed as part of Sid’s activities. In addition to these he has shown promise as a student and in recognition has been made a member of Tau Beta Pi. Sidney expects to do graduate work here at Ohio State.

THOMAS JAMES BUTLER, JR., is one of the two graduating ceramists who hail from out of state. Bot, as he is called, comes from Austin, Texas. After graduation, he is going to be a ceramic engineer back in his home town. Bot is a member of Sigma Chi fraternity as well as A. C. S. He also has been active in intramural athletics.

Another Columbus resident who is graduating in ceramics is JOHN FRANKLIN DAY. His nickname is Jack. Jack is also a member of Keramos and A. C. S. He is a member of Sigma Gamma Epsilon social fraternity and is on the Engineers’ Council. Jack expects to do graduate work here at Ohio State.

The fourth Columbus boy on our list of graduates is MORTIMER WILLIAM EBRIGHT. Mort’s activities list A. C. S. and intramural athletics. In addition to these, he has done glee club work. Mort is still undecided as to what course he will follow after he gets his diploma.

The fifth and last Columbus resident is NORMAN LOUIS HALDY, better known as “Goon.” “Goon” thinks that he will possibly enter graduate work. He is a member of A. C. S. and is interested in intramurals. He also claims to be an expert on casting clay ware.

ROBERT RALPH HENDREN may also do graduate work. Bob is a member of A. C. S. and has been active as a manager of all kinds of intramural teams. At present his teams have won twenty-three medals and four trophies and have a record of never
being late, forfeiting, or playing an athletic engagement with ineligible players.

The second out-of-state senior ceramist is ARTHUR WILLIAM JACKSON of Paragould, Arkansas. Bill is a member of A. C. S., Keramos, Sigma Chi social fraternity, and Tau Beta Pi which is quite a list of activities. Bill doesn't think he will do graduate work but thinks he will go directly into industry.

The last of the list of ceramists is ERNEST BRADFORD SNYDER (better known as "E. B.") from Freeman, Ohio. "E. B." is a member of Keramos and A. C. S. Incidentally, it can be seen that the seniors are A. C. S. members 100 per cent. Ernest is also the third Tau Beta Pi man of the nine ceramic grads. He may go into graduate work.
