

## TWELVE ADDITIONS TO THE OHIO PLANT LIST.

W. A. KELLERMAN.

The species named below have not been reported in the Fourth State Catalogue of Ohio Plants, in the First Annual Supplement, nor in "Additions to the Ohio Flora," O. S. U. NATURALIST, 1:15. The serial number prefixed to each name indicates where in the Fourth State Catalogue the species should be inserted. The first collector and locality are given for each of the listed specimens.

There were 2025 species reported in the Fourth State Catalogue (1899) for the State of Ohio. This number was supposed to be approximately correct, since those of previous lists were discarded which are known to have been erroneously identified or were unquestionably beyond our range. In the First Annual Supplement sixty-nine additions were made, and in Additions to the Ohio Flora, (O. S. U. NATURALIST, 1:15) twenty-two more were recorded. Therefore those enumerated above bring our grand total to 2128 species of Pteridophytes and Spermatophytes.
