NEW AND RARE PLANTS ADDED TO THE OHIO LIST IN 1914.

JOHN H. SCHAFFNER.

The following records of new and rare plants have been made for the year and are to be added to the new "Catalog of Ohio Vascular Plants." Additions are inserted with decimal fractions; records of new distribution with the appropriate numbers from the list as published.

Three species were added while the catalog was going thru the press and therefore have fractional numbers. These are the following:

563.1. Dioscorea bulbifera L. Air Potato (Yam).

1053.1. Sorbus aucuparia L. European Mountain-ash.

1273.1. Quercus triloba Mx. Spanish Oak.

As is usual with linotype printing, a number of errors appear in the catalog. Mistakes can readily be corrected by reference to Britton & Brown's "Illustrated Flora," Second Edition. The first line numbered 1043 should be erased. The following species were lost out bodily in the final forms:

1045. Rosa setigera Mx. Prairie Rose. General, but no specimens from the Northeastern Counties.

1520. Scrophularia marylandica L. Maryland Figwort. General.
