ISSN 0030-0950

Editorial Policy:

General:

THE OHIO JOURNAL OF SCIENCE considers original contributions from members and non-members of the Academy in all fields of science. While special consideration will be given to manuscripts concerned with Ohio subject matter, other reports with scientific merit will be reviewed for publication. Submission of a manuscript is understood to mean that the work is original and unpublished, and is not being considered for publication elsewhere. All manuscripts considered for publication will be peer-reviewed. The opinions expressed by reviewers are their own, and do not represent the views of the Ohio Academy of Science or *THE OHIO JOURNAL OF SCIENCE*. Manuscripts and illustrations should be prepared in **triplicate** in accordance with current guidelines published in *THE JOURNAL* at least once a year, and submitted to:

Dr. Kerry L. Cheesman, Editor
The Ohio Journal of Science
Biological Sciences Department
Battelle Hall, Capital University
1 College and Main
Columbus, OH 43209-2394

Page Charges:

Publication of *THE OHIO JOURNAL OF SCIENCE* requires that authors assist in meeting publication expenses. These costs will be assessed at \$85 per page for members of the Academy and \$120 per page for non-members. In multi-authored papers, **each author must be a member of the Academy** at the time of publication to be eligible for the reduced member rate. Papers which exceed 12 printed pages may be charged full production costs. A bill for page charges will be sent to the communicating author by the Ohio Academy of Science at the time of publication.

Failure to Receive *THE JOURNAL*:

Any claim of failure to receive subscription issues of *THE JOURNAL* must be submitted to the Ohio Academy of Science within six months of date of issue of the missing number, to be recognized.

INSTRUCTIONS TO AUTHORS — inside back cover

COVER PHOTO: White-tailed deer were extirpated from Ohio by 1904 due to unregulated shooting and extensive deforestation that occurred during settlement. The Ohio Division of Conservation re-established deer during the 1920s and 1930s in southern Ohio. Deer populations have increased dramatically in recent decades as farms abandoned during the depression era have reverted to brush and forests. The accompanying article (pp 112-122) documents how reproductive rates and body condition parameters of white-tailed deer have changed during this period of population growth.
