ENGINEERS IN FOOTBALL

By C. A. SMITH

Chairman Athletic Committee, Engineers Council

YOUNG

TEE YOUNG—*Civil 3*

Tee hails from Toledo, Ohio, where he starred for Waite High. While he held down the job of center last year, left tackle is his strong point, and the vacancy in the left flank has been hard to fill. Young first won a reputation in his Sophomore year as having the best physique of any man on the campus. Altho he has been ineligible during the past season, he played a stellar brand of ball last year, and great things may be expected of him in 1923. Tee is also good at basketball, having won a letter last year at guard.

MICHAELS

A. C. MICHAELS—*Chem. 4*

This Tiffin boy thought enough of Ohio State to give up the captaincy at Heidelberg after playing there two years. He has an uncanny habit of doping out his opponent's plays and is full of fight. He is good at punting and passing, and plays fullback much like a half, when it comes to picking holes. Michaels showed well in the Minnesota game, even tho he was out of his head most of the time, due to an injury.

SCHWEINSBERGER

H. SCHWEINSBERGER—*Electrical 2*

Schweinsberger was an all-high tackle and four sport man at South High, Columbus. He is a good drop kicker, but has trouble catching passes in the position of end, which he has been playing, due to having double vision. With this year's experience behind him, he can be expected to hold down a regular berth next year.

E. J. KAPLOW—*Mining 4*

As an example of persistence and fight, we hand it to Kaplow. This Lorain boy has been on the squad three years, but due to his light weight (168 lbs.) he had very few chances at his position of center. In the Minnesota game, Kaplow gave all he had and tore thru Aas, Minnesota's big center, time and again. This is his last year and we are glad he got his chance and filled the bill in high class shape. Kaplow recently demonstrated his ability as a student, when he was elected to Pi Mu Epsilon honorary mathematical fraternity.

KAPLOW

H. WASSON—*Electrical 3*

This is the first year Wasson has had a chance to play, as he was a substitute for Huffman at tackle last year and Huffman was only out of play about four minutes. Wasson showed lots of fight in the Minnesota game at tackle. Wasson should be a valuable man at tackle next year.

In addition to these first string men, the following Sophomores on the squad are promising material and will probably be heard from next year: A. V. McNamer, K. S. Lindauer, Electricals; L. A. Murphy, Eugene Van Scoyk, Mechanicals; P. A. Lemley, Miner; G. S. Kyle, Chemical; G. W. Studebaker, Civil; E. C. Milliken, Ceramic; B. W. Williston, Arch., and Bradley Skeele.
