### H. K. N.

By W. S. FRANKLIN, E.E. 4, AND  
F. W. GILCHRIST, E.E. 4

Under the title of H. K. N. we hope to publish in the future issues of *The Ohio State Engineer* a series of articles written by members of Gamma Chapter of Eta Kappa Nu. As far as possible, these contributions will be written about original work or experience of the authors which will be of interest to engineering students.

Eta Kappa Nu is a national honorary electrical engineering fraternity, founded at the University of Illinois, October 28, 1904. Its purposes are the closer co-operation among, and mutual benefit to, students and other persons in the profession who by their attainments in college or in practice manifest exceptional interest and marked ability in electrical engineering. The organization has twenty-two active chapters and ten alumni chapters scattered over the country. Election to it is based not only upon high scholarship, but also upon personality, leadership, and the ability to work with other men.

Gamma Chapter is the second oldest chapter, being founded in 1907. The faculty members are Professors F. C. Caldwell, A. F. Puchstein, K. Y. Tang, who is at present the faculty adviser, W. L. Everitt, P. Morrison, A. W. Smith, E. D. Shipley and H. E. Ashmead. The active members are C. A. Cook, J. D. Corley, W. S. Franklin, F. W. Gilchrist, H. R. Jagusch, F. M. Kinney, R. C. Moser, G. E. Randall, M. Rosenfeld, E. M. Stanbery, and C. R. Wagner.

---

Professor F. C. Caldwell delivered the Edison golden jubilee address before the student body of about eighteen hundred, at chapel exercises of Ohio Wesleyan University Monday, October 21.

Professor Ivor S. Campbell of the electrical engineering department, Ohio Northern University, is among the graduate students majoring in electrical engineering here this fall. He expects to receive his degree in December.

---

### IF AND WHEN

An author says some people keep on predicting the end of the world in spite of the fact that they are always wrong. But he must admit that they get a little nearer every time.—*Passing Show*.
