## CAMPUS NOTES

## CERAMIC ENGINEERING

Enrollment in the department of ceramic engineering:

Second year.....	37
Third year.....	32
Fourth year.....	30
Post-graduate students.....	4
Registered for master's degree.....	1
Registered for doctor's degree.....	3

The department has been assigned one new lecture and seminar room and has equipped three rooms for graduate research. A new laboratory for testing fired products has also been added to our equipment.

New courses to be given this year: Lecture course on Theory of Drying, lecture course on Ceramic Plant Engineering, laboratory course on Refractories, laboratory course on Heavy Clay Products, and lecture and laboratory course on Glass Technology.

## CHEMICAL ENGINEERING

R. H. Stevens, chief chemist of the Bogalusa Paper Company, Bogalusa, La., in taking a trip through the north, visiting paper plants, visited the department of chemical engineering, spending an afternoon and evening in conference with Dr. James R. Withrow. The department of chemical engineering is cooperating with the Bogalusa Paper Company in an investigation of sulphate process for paper manufacture in the south.

## ELECTRICAL ENGINEERING

In connection with the Guggenheim grant, with which most of us are more or less familiar, we learn that Russell C. Newhouse has been appointed Guggenheim fellow. Mr. Newhouse is a graduate student majoring in electrical engineering. Edgar R. Robinson has been named Robinson Fellow.

Elwood D. Shipley and Eugene Ashmead, both of whom are taking graduate work, are acting as assistants in the electrical engineering department. Mr. Shipley was appointed last spring.

The department of electrical engineering calls attention to the fact that they are publishing a department directory, which lists both names and addresses as well as telephone numbers of all members of the faculty, junior and senior classes and those taking graduate work in the department.

"So Minerva was the goddess of wisdom, eh?"  
 "Yes, she never married."

—*Wampus.*

## O, FOR A STENOGR!

Blustering Business Man (to stenographer as phone rings): "Take the message and I'll get it from you later."

Stenographer (demurely): "Your little girl sends you a kiss over the phone."

—*The Purdue Engineer.*
