ALUMNI NEWS

CIVIL ENGINEERING

1892

Peter Platter Evans, '92, is the newly elected president of the Osborn Engineering Company, Cleveland, where he has been a member of the Board of Directors and vice president since 1920.

According to the January report of the Osborn Engineers, this company, in addition to its business in industrial plant design, has done to date thirteen and one half million dollars worth of stadium and grandstand designing for the universities and colleges of the country in sixteen eastern and middle western states.

"Tex Rickard happened to say one day," says Mr. Evans, "that an eight-inch board is more comfortable to sit on than a twelve-inch board."

"That remark started a discussion which has resulted in modern trends of stadium design."

1902

John M. Hammond is on engineering work in Honolulu, Hawaii Territory, according to a post-card received from him by his classmate, John K. Sherman.

1907

P. E. Borchers is county sanitary engineer of Montgomery County and lives at 412 West Hillcrest Avenue, Dayton, Ohio. He has just changed to full membership in the A.S.C.E.

1931

John J. Konopka is deputy county surveyor at Mt. Gilead, Ohio.
