REVIEWERS OF MANUSCRIPTS FOR
THE OHIO JOURNAL OF SCIENCE DURING 2005

The efforts of each and every reviewer are greatly appreciated by the Editor. The following individuals donated their time and expertise to review articles during 2005:

Barry Allred, USDA ARS, Columbus, OH
Mike Angle, ODNR, Columbus, OH
Scott Brockman, ODNR, Delaware, OH
Xiao-wen Chang, Miami University, Oxford, OH
Kerry Cheesman, Capital University, Columbus, OH
Ann Christy, The Ohio State University, Columbus, OH
Yildirim Dilek, Miami University, Oxford, OH
Carlo DiLorenzo, Children’s Hospital, Columbus, OH
Annabelle Foos, University of Akron, Akron, OH
Robert Gates, The Ohio State University, Columbus, OH
Ralph Haefner, USGS, Columbus, OH
Tom Henry, ODNR, Akron, OH
Douglas Kane, The Ohio State University, Columbus, OH
Alan Kehew, Western Michigan University, Kalamazoo, MI
Tarun Mal, Cleveland State University, Cleveland, OH
Robert Mertens, Capital University, Columbus, OH
Karl Romstedt, Capital University, Columbus, OH
Nora Schaefer, Sinclair Community College, Miamisburg, OH
Gregory Schumacher, ODNR, Delaware, OH
Shahid Sheikh, Children’s Hospital, Columbus, OH
John Szabo, University of Akron, Akron, OH
Mesfin Tadesse, The Ohio State University, Columbus, OH
Julie Weatherington-Rice, Bennett & Williams Environmental Consultants, Columbus, OH
John Wenzel, The Ohio State University, Columbus, OH
Philip Whitford, Capital University, Columbus, OH
Frederick Woodley, Children’s Hospital, Columbus, OH

CALL FOR REVIEWERS

The Ohio Journal of Science maintains its high quality and standards through the use of expert reviewers who critique submitted articles in their areas of expertise and provide valuable feedback to the authors. At the present time the Journal is in need of additional reviewers, especially in the areas of field biology, ecology, botany, microbiology, aquatic biology, geology, and soil science (although volunteers in any field would be appreciated). If available and interested, please send your name and contact information, along with an indication of fields of expertise, to the Editor, The Ohio Journal of Science at OJSEditor@capital.edu.
The Ohio Journal of Science
Author’s Instructions for Preparation of Manuscripts

The Ohio Journal of Science considers for publication solicited Book Reviews and Research Reviews, and unsolicited Brief Notes and Research Reports. Solicited submissions will be requested by the editor or member of the editorial board. Book reviews will be requested of experts in the subject matter of the book to be reviewed. Research Reviews will be requested to serve as extensive surveys of the literature of an area of science in which Academy members have an interest.

Unsolicited submissions, in the form of presentations of quantitative or qualitative data pertinent to any of the divisions of the Academy listed inside the front cover, will be considered for peer review. Brief notes are manuscripts that are less than 2 printed pages (approximately 6 typed pages) and contain no more than one table, figure or other type of illustration. The editor will identify papers which meet these criteria as Brief Notes if not already categorized as such by the author. Research Reports are those papers which are longer than 2 pages or contain more than one illustration.

All manuscripts will be organized as follows:
Page 1 – Title, Author(s), Running Head, Abstract
Page 2 and remainder – Introduction, Materials and Methods, Results, Discussion, Acknowledgments, Literature Cited, Tables, Figure Legends, Figures.

STYLE. The CBE Manual for Authors, Editors, and Publishers, 6th Ed. is used for editorial decisions with regard to style. Manuscripts should be typewritten using 1 inch margins on 8.5 x 11 inch paper. Text should be left-justified using elite print (twelve characters per inch). Three copies should be submitted. Manuscript should be double-spaced throughout, including the title and abstract. Arabic numerals should be used in preference to words when the number designates anything that can be counted or measured (7 samples, 43 species). One exception to this use is that numerals are not used to begin a sentence (Twenty-one species were found in . . .). The 2nd exception is when 2 numeric expressions are adjacent in a sentence. The number easiest to express in words should be spelled out and the other left in numeric form (The sections were divided into eight 4-acre plots.).

TITLE, AUTHOR(S), AFFILIATION(S). The first page of the manuscript should contain the title, author(s) name(s), the affiliation of the author(s) at the time the research was carried out, a shortened title (running head), and the abstract. The title must be typed in upper and lower case letters and should be no more than 250 words or fewer.

INTRODUCTION. The introduction should describe the knowledge that gave rise to the question examined by, or the hypothesis posed for the research.

MATERIALS AND METHODS. This section should describe the research design, the methods and materials used in the research (subjects, their selection, equipment, laboratory or field procedures), and how the findings were analyzed.

RESULTS. The text of the results should be a descriptive narrative of the main findings, of the reported study. This section should not list tabulated data in text form. Reference to tables and figures included in this section should be made parenthetically in the text.

DISCUSSION. This section should compare and contrast the data collected in the presented study with that previously reported in the literature. Unless there are specific reasons to combine the two, as explained by the author in the letter of transmittal, Results and Discussion should be two separate sections.

ACKNOWLEDGMENTS. Colleagues and/or sources of financial support to whom thanks are due for assistance rendered in completion of the research or preparation of the manuscript should be recognized in this section rather than in the body of the text.

LITERATURE CITED. References to scientific literature should be arranged alphabetically by first author’s last name using the Name/Year (N-Y) method as described in the CBE Manual.

Form of citation: (Thomison 1988)

Books: Author(s). Year. Title. Place of publication: publisher name. Number of pages.

Form of citation: (Voet and Voet 1990)

Multiple author citation: (Steiner and others 1992)

TABLES. Tables must be typed double-spaced, one table to a page, numbered consecutively, and placed in the manuscript after Literature Cited. Since tables must be individually typeset, consolidation of data into the smallest number of tables is encouraged. A horizontal double underline should be made beneath the title of the table, and single underlines should be made the width of the table below the column headings and at the bottom of the table. Do not use vertical lines, and do not place horizontal lines in the interior of the table. Footnotes should be used to clarify possible questions within the table, and should be noted by asterisks, daggers, or other symbols to avoid confusion with numerical data.

FIGURES. All illustrations are referred to as “Figures” and must be numbered consecutively. Figures may be photographs, hand-drawn or computer generated drawings in black ink. Each figure should be identified along the top edge with the name of the author(s) and figure number, and on the back with name of author(s) and manuscript title. Illustrations other than those generated by the author(s) must bear permission for use and credit to the originator. ORIGINAL ARTWORK WILL NOT BE RETURNED UNLESS SPECIFICALLY REQUESTED AT TIME OF SUBMISSION. Each figure must have a complete legend. The legend should not be placed on the figure, but should be typed in order, double-spaced on a separate sheet which precedes the figures in the manuscript. Figures should be referred to parenthetically in the text, for example (Fig 1). The size and proportion of each illustration should be suitable for reduction. Excessive white space should be avoided. Illustrations will be reduced to one column width (3 and 5/8 inches) or two column width (7 inches) at the discretion of the editor. Lettering should be done of a size to ensure that it can be read after reduction. On maps and other illustrations where original size is a concern, a graphic scale should be incorporated into the figure.

FOOTNOTES. Text footnotes should not be used with the following exceptions. A footnote to the title will be added editorially to state the dates of manuscript submission and revision. A footnote to name(s) of author(s) may be used to indicate present address different from that at which the research was done, or to indicate the author to whom inquiries should be directed. All other material or comments must be incorporated into the text. Literature Cited should not be inserted as footnotes. Footnotes to tables are permissible, and are encouraged to promote clarity.

After consulting the manuscript preparation guidelines at http://www.ohiosci.org/ojsinstr.htm, please submit all materials to:

Manuscript Processing
The Ohio Journal of Science
1500 W. Third Ave Ste 228
Columbus OH 43212-2817

CALL FOR PAPERS

116th Annual Meeting
The Ohio Academy of Science
April 21, 2007

Hosted by
Cuyahoga Community College
Eastern Campus

for details see http://www.ohiosci.org
or email oas@iwaynet.net

Abstract Deadline:
Postmarked by November 5, 2006

About the Annual Meeting
The Ohio Academy of Science's Annual Meeting is for academic,
governmental, and industry scientists and engineers, university and pre-college
educators, and pre-college, undergraduate, and graduate students, and interested
lay citizens in the Ohio region. Annually the several hundred scientific
presentations are complemented by workshops, symposia, an All- Academy
Lecture, and field trips on local geology and plant sciences.
New Guidelines
for Submission of Manuscripts
for consideration by
The Ohio Journal of Science
AN INTERNATIONAL MULTIDISCIPLINARY JOURNAL

Please submit single copies of manuscripts and illustrations accompanied by a CD-ROM with a text file in MSWord™ and separate files of each illustration in tiff format. Digital photographs should be recorded on at least a three megapixel camera. Original photographic prints or color transparencies and high resolution line art prints of maps or graphs are also acceptable. Additionally, as accessible at http://www.ohiosci.org/ojsinstr.htm, the following forms must be submitted with the manuscript: (1) affirmation of originality, (2) copyright transfer and (3) page charge acceptance. Prior to preparation please consult recent issues of The Ohio Journal of Science and follow the manuscript preparation guidelines at http://www.ohiosci.org/ojsinstr.htm.

Please submit all materials to:
Manuscript Processing
The Ohio Journal of Science
1500 W Third Ave Ste 228
Columbus OH 43212-2817

For technical questions on electronic formats or other details for submission, contact:
Phone: 614-488-2228; Fax: 614-488-7629
Email: oasresponse@iwaynet.net

Please contact the Editor directly for general questions regarding manuscript content or appropriateness of submission to The Ohio Journal of Science:
Dr. Kerry L. Cheesman, Editor
Biological Sciences Department
Battelle Hall, Capital University
1 College and Main
Columbus, OH 43209-2394 USA
