June 5, 1998 meeting, Board of Trustees

The Chairman, Mr. Celeste, called the meeting of the Board of Trustees to order on June 5, 1998, at 11:05 a.m. He requested the Secretary to call the roll.

Present: Theodore S. Celeste, Chairman, Michael F. Colley, George A. Skestos, James F. Patterson, Zuheir Sofia, Tamala Longaberger, Daniel M. Slane, Robert M. Duncan, Soraya Rofagha, and Allyson Lowe. Fred L. Dailey, Director of the Ohio Department of Agriculture, was also in attendance.

INTRODUCTION OF NEW TRUSTEES

Mr. Celeste:

It gives me a great deal of pleasure to officially welcome our new Trustees to their first meeting today. Allyson M. Lowe, a graduate student, is replacing Mark Berkman on the Board, and has been appointed by the Governor to serve a two-year term. Allyson received her undergraduate degree from Miami University, where she also served as a student trustee. She is a Columbus native, currently working on her Ph.D. in political science, with a major emphasis in comparative politics and a minor in women's studies.

Robert M. Duncan, is no stranger to the University, the city, or the State. Bob has spent his career in service to the citizens of Ohio. Bob is a native of Urbana, Ohio, and is a former judge of the Franklin County Municipal Court, justice of the Supreme Court of Ohio, judge of the United States Court of Appeals for the Armed Forces, and judge of the United States District Court for the Southern District of Ohio. He is a retired partner of the law firm Jones, Day, Reavis and Pogue.

Bob earned both his Bachelor of Science and Juris Doctor degrees from The Ohio State University. And, as most of you know, he also served as Vice President, General Counsel and Secretary of the Board of Trustees here at the University. Governor Voinovich appointed Bob to replace Alex Shumate on this Board and he will serve a nine-year term -- ending May 13, 2007.

We are delighted to welcome you both and look forward to working closely with you.

PRESIDENT'S REPORT

Mr. Celeste:

Before I call on Dick for his report, I would like to express the Board's heartfelt gratitude to him for the superb leadership that he has provided during this time of transition. You have steered a true course and maintained the momentum for this University, and for that we are very grateful.

On a personal note, Dick, you have been most helpful to me as I prepared for the role of chairing this Board. One of my very special, personal joys has been having the opportunity to work with you during this transition period. I thank you and appreciate it.

Dr. Richard Sisson:

Thank you very much, all of you, and thank you, Mr. Chairman.

PRESIDENT'S REPORT (contd)

Dr. Sisson: (contd)

We are only one week away from spring commencement. None of us who were there will ever forget last year's downpour! This year, we expect a beautiful day. We also expect 40,000 proud family and friends to join the graduates in the stadium. To better communicate with the students and their guests, we have established a Commencement website. It advises bringing a poncho, seat cushion, and a good attitude!

While you are on the web, you might take a look at The Science Coalition homepage. The Science Coalition is an alliance of 416 organizations and institutions whose mission is to sustain the federal government's historic commitment to university-based science research. Each week the coalition features a university and this week it highlights Ohio State. This site gives excellent visibility to our research activities.

We used the Internet to broadcast the University Distinguished Lecture by Richard Steckel. We know that viewers logged-on from places as far flung as Germany, Canada, Sweden, and Argentina, just to mention a few. Clearly, new technology is changing the way education is available to people.

The effective use of technology is one of three challenges we face in broadening access to higher education, according to the most recent report of the Kellogg Commission on the Future of State and Land-Grant Universities. Maintaining affordability and achieving diversity are two other challenges.

Both Brit Kirwan and I are members of the Commission, and we had a hand in fashioning, and were privileged to sign, the recent report on Student Access. Among its recommendations to improve access and diversity is a call to build new partnerships with kindergarten through grade 12 -- something Ohio State is heavily engaged in already. It recommends better articulation agreements to ease transfers, particularly with community colleges, and it suggests that we be consumer-friendly and more efficient in moving students toward their academic goals.

We heard a report on that with respect to Ohio State earlier today. It is apparent to me that our leadership agenda and institutional priorities are consistent with, and, in many ways, even well ahead of, many of the suggestions of this report and also of the Report of the Carnegie Foundation on Teaching.

This Board has before it today a number of important personnel actions. I am delighted that Professor David Andrews will assume the deanship of the College of Human Ecology. He is beginning his fourth year at Ohio State, and has given significant, outstanding leadership to the 4-H program. David, will you stand and be recognized?

Professor Carroll Glynn will direct the School of Journalism and Communication. Her credentials are strong in both areas and include a stint as a working journalist. She is coming to us from Cornell University where she chaired the communication department. Exceptional people want to be part of Ohio State!

Later in this meeting we will introduce and honor two Distinguished University Professors. Dear friends and colleagues of mine, Professor Jessie Au, in Pharmacy and other places, and Professor Rich Petty, in Psychology and the new chair of that department, will be honored.

PRESIDENT'S REPORT (contd)

Dr. Sisson: (contd)

This month, we were delighted with the *Columbus Dispatch* story about our British history faculty. I will remind you that the lead line of Scott Powers' story read: "If history programs were football teams, the latest recruiting season would have Ohio State University talking about a national championship."

The Department of History recruited Geoffrey Parker from an endowed chair at Yale -- and he also had an appointment at the University of Oxford in England -- and Barbara Hanawalt, an outstanding, distinguished historian from the University of Minnesota. They join a group of British historians that has a most distinguished international reputation. They, indeed, may be the best in the world.

The College of Mathematical and Physical Sciences has been similarly successful. We just recruited the Director of Penn State's Center for Environmental Chemistry and Geochemistry to a senior faculty position in our Department of Chemistry. Patrick Hatcher is a world-renowned geochemist and will be very important in a larger initiative in this area of Ohio State.

Noel Cressie will join our Department of Statistics in a broader program in digital and mathematical imaging. He is a Fellow of the American Statistical Association and currently holds a Distinguished Professorship in Liberal Arts and Sciences at Iowa State.

That we are able to attract and retain such exceptional teachers and senior scholars is evidence of our growing reputation. I have only given you one slice of what has been going on at Ohio State this last year.

At the same time, others look to Ohio State for leadership. We will miss the contributions and great spirit of Dean Nancy Zimpher. We wish her well in the chancellorship of the University of Wisconsin at Milwaukee. Her appointment is a tribute not only to her own substantial skills, but also to her colleagues and this institution. And can you believe that Nancy and I graduated from the same high school!

Joe Alutto of the Fisher College will provide strong direction as Executive Dean for the professional colleges, a position that Nancy also leaves. And I am especially pleased that Professor William Baeslack will serve as Interim Vice President for Research. Bud is an exceptional scholar and administrator who has worked closely with the leadership in this area for some time. I know that he will keep the momentum moving forward as interim vice president.

Of course, one of the most important personnel decisions reached this month was the selection of Scott Sommer of Avon Lake, Ohio, as Ohio State's 49th Drum Major. Scott has been assistant for two years, and this fall will lead The Best Damn Band in the Land down the field.

I am pleased to recognize the accomplishments of Ohio State's Speech and Debate team. At the National Forensics Tournament, we were the only school to achieve excellence in both speech and debate, besting everyone in the Ivy League, the Big Ten, and elsewhere in the country for comprehensive strength!

Ohio State finished eighth in the nation in speech and was runner-up in debate. This is our best finish since 1984. Two members of this strong team finished among the top 15 overall speakers in the country, and I have asked them to join us here today.

PRESIDENT'S REPORT (contd)

Dr. Sisson: (contd)

Theresa Jascob of Stony Ridge, Ohio, is a graduating senior majoring in Agricultural Communication. At the national competition, she finished eleventh in pentathlon, was a semifinalist in impromptu, took fourth place in rhetorical criticism, and third place in persuasion. She is now trying to persuade someone to hire her after graduation! Theresa, thank you so much.

Colin O'Brien from Massilon, Ohio, placed third in pentathlon, was a quarterfinalist in rhetorical criticism, a semifinalist in the Lincoln/Douglas debate, finished sixth in impromptu, and is the National Champion in Extemporaneous Speaking! Colin is one of our 1998 Outstanding Seniors and is off to Yale University's law school in the fall. I must say, I am very proud of him also as an outstanding political scientist. Colin, our congratulations and kudos to you.

With Theresa and Colin is Ryan Hershberger, program coordinator for the Forensics Program, and one of the team coaches. Please join me in congratulating the whole team and Ryan.

Mr. Chairman, much of this good news could not be possible without the inspired leadership and committed support of our friends. This university and all of higher education lost a great friend this month with the passing of John Berry. John chaired this Board and, most recently, co-chaired our Affirm Thy Friendship Campaign. We presented John with the university's Everett Reese Medal last month to honor his exceptional philanthropy. He leaves a legacy of citizenship and service.

We also remember today Terel Tinsley, a freshman from Decatur, Georgia, who died last Sunday. I want to salute the staffs of our residence halls and the health center for their response to this tragic death. Our thoughts are with Terel's friends and family at this difficult time.

Mr. Chairman, that concludes my report.

Mr. Celeste:

Thank you, Mr. President. Before we begin, let's take a moment to think about that.

CONSENT AGENDA

Mr. Celeste:

The Consent Agenda is now before the Trustees and we will pull out resolutions #9 and #12 for separate votes. Unless there are any objections, I would like to ask for a motion to approve the remaining fourteen resolutions.

APPOINTMENT/REAPPOINTMENTS TO THE MARION CAMPUS BOARD

Resolution No. 98-146

Synopsis: Approval of nominees to The Ohio State University-Marion Campus Board is proposed.

WHEREAS the Board of Trustees on July 8, 1994, approved the establishment of The Ohio State University-Marion Board; and

APPOINTMENT/REAPPOINTMENTS TO THE MARION CAMPUS BOARD (contd)

WHEREAS it has been previously stipulated that "the board shall be composed of eleven members appointed by The Ohio State University Board of Trustees in consultation with the president of the university" (one member of the board shall be a member of the university board of trustees; nine members shall be private citizens; and one member shall be a student); and

WHEREAS the following named persons have been nominated and selected for appointment and reappointment to the Marion Campus Board for the term as specified, effective July 1, 1998:

Appointment of Private Citizen

Deb Martin, 3-year term

Appointment of Student Member

Alisha Spaid, 1-year term

Reappointments

John Mizick, 3-year term

Fred White, 3-year term

RENAMING OF DEPARTMENT

Resolution No. 98-147

WHEREAS the Department of Zoology recognizes the need to rename itself in order to more accurately reflect its research and teaching mission; and

WHEREAS "Zoology" is no longer the standard name for similar departments in major universities across the nation; and

WHEREAS "Zoology" is a narrow field of inquiry that doesn't encompass the Department's mission; and

WHEREAS the expertise of the Department lies within three overlapping areas of study: evolution, ecology, and organismal biology; and

WHEREAS the Department established priorities and followed a pattern of agreed upon procedures to identify a new name, resulting in the proposed "Department of Evolution, Ecology, and Organismal Biology;" and

WHEREAS the proposed name is similar to other major programs across the country and reflects the current names of the relevant scientific society and national ranking category; and

WHEREAS the Department's process for choosing a new name has been properly consultative both within and beyond the unit; and

WHEREAS the proposed change has the approval of the Council on Academic Affairs, and was approved by the University Senate at its May 2, 1998 meeting:

NOW THEREFORE

BE IT RESOLVED, That the above mentioned departmental name change is hereby approved, effective immediately.

**APPOINTMENTS TO THE ENGINEERING EXPERIMENT STATION
ADVISORY COUNCIL**

Resolution No. 98-148

WHEREAS the Engineering Experiment Station is under the control of the Board of Trustees of The Ohio State University; and

WHEREAS according to statute 3335.27 of the Ohio Revised Code, there shall be an advisory council made up of the director of the Engineering Experiment Station and six members appointed by the Board, chosen from the faculty of the College of Engineering; and

WHEREAS this Engineering Experiment Station Advisory Council "shall select suitable subjects for investigation, apportion the available funds, and with the consent of the Board may provide for the dissemination of the results to the people of the state;"

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of Interim President Richard Sisson, pursuant to the request of David B. Ashley, Dean and Director, College of Engineering, Engineering Experiment Station, The Ohio State University Board of Trustees, acting in accordance with the requirements of the Ohio Revised Code Section 3335.27, hereby appoint the following individuals to serve on the Engineering Experiment Station Advisory Council:

<u>Name</u>	<u>Title</u>	<u>Proposed Term</u>
Glenn S. Daehn	Professor of Materials Science and Engineering	3 years (6/1/98 - 5/31/2001)
William E. Wolfe	Professor of Civil and Environmental Engineering and Geodetic Science	3 years (6/1/98 - 5/31/2001)

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 98-149

Synopsis: Approval of the following amendments to the Rules of the University Faculty are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on May 2, 1998:

Amended Rules

3335-47-03 Probationary service, duration of appointments for regular faculty.

(A) through (B) unchanged.

(C) (1) unchanged.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

Amended Rules (contd)

(2) During a probationary period a faculty member shall be reviewed annually in accordance with this rule and with policies of the tenure initiating unit, college and university. The annual review should encompass the faculty member's performance in teaching, in scholarship, and in service; as well as evidence of continuing development. The involvement of tenure initiating unit faculty in annual reviews is strongly encouraged. External evaluations of the faculty member's work, required for tenure and promotion reviews, may be obtained for any annual review if judged appropriate by the faculty review body or tenure initiating unit chair. The tenure initiating unit chair shall inform probationary faculty members at the time of initial appointment, and in a timely fashion each year thereafter, when the annual review will take place and provide a copy of the office of academic affairs dossier outline to be completed by the faculty member in reporting accomplishments to date. At the completion of the review the tenure initiating unit chair shall provide the faculty member and the dean of the college with a written assessment of the faculty member's performance and professional development ~~and an indication as to whether the faculty member will be reappointed for an additional year.~~ The assessment should include both strengths and weaknesses, as appropriate. ~~IF THE CHAIR'S RECOMMENDATION IS TO REAPPOINT THE FACULTY MEMBER TO ANOTHER PROBATIONARY YEAR OF SERVICE, THAT RECOMMENDATION SHALL BE FINAL. A RECOMMENDATION FROM THE CHAIR TO NOT REAPPOINT THE FACULTY MEMBER TO ANOTHER PROBATIONARY YEAR REQUIRES A REVIEW THAT FOLLOWS FOURTH YEAR REVIEW PROCEDURES (SEE PARAGRAPH (G) OF THIS RULE) AND THE DEAN SHALL MAKE THE FINAL DECISION IN THE MATTER.~~ All annual review letters to date shall become a part of a faculty member's dossier for subsequent annual reviews during the probationary period, including the review for promotion and tenure.

(3) and (4) unchanged.

(D) through (F) unchanged.

(G) Probationary appointments may be terminated DURING ANY PROBATIONARY YEAR BECAUSE OF ~~for~~ inadequate performance or INADEQUATE professional development. ~~When~~ AT ANY TIME OTHER THAN THE FOURTH YEAR REVIEW OR MANDATORY REVIEW FOR TENURE,
A nonrenewal DECISION ~~is based on the faculty member's performance or professional development, it~~ must be based on the results of a ~~regular annual review or mandatory review for tenure~~ FORMAL PERFORMANCE REVIEW CONDUCTED IN ACCORD WITH FOURTH YEAR REVIEW PROCEDURES AS SET FORTH IN PARAGRAPH (C)(3) OF THIS RULE. NOTIFICATION OF NONRENEWAL MUST BE CONSISTENT WITH THE STANDARDS OF NOTICE SET FORTH IN RULE 3335-47-08 OF THE ADMINISTRATIVE CODE.

3335-47-04 Promotion and tenure review procedures.

(A) and (B) unchanged.

(C) (1) Unchanged.

(2) The dean of a college shall have a standing faculty promotion and tenure committee which is advisory to the dean. Members shall not participate in the review of cases from their own ~~department~~ DEPARTMENT(S). The college promotion and tenure committee shall prepare a written report of its assessment and vote for inclusion in the dossier. The dean shall prepare a separate written assessment of the case and recommendation for the provost for inclusion in the dossier. As soon as the college promotion and tenure committee report and dean's letter have been completed, the candidate should be notified in writing of the completion of the college level review and of the availability of these reports. The candidate may request a copy of these reports. The candidate may provide the dean with written comments on the college review for inclusion in the dossier within ten calendar days of notification of the

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

Amended Rules (contd)

completion of the review. The college promotion and tenure committee and/or dean may provide written responses to the candidate's comments for inclusion in the dossier. Only one iteration of comments on the college level review is permitted. The dean shall forward the dossier, along with all evaluations and reports, to the provost.

- (3) The senior vice president and provost shall have a standing faculty promotion and tenure committee which is advisory to the provost. Members shall not participate in the review of cases from their own college DEPARTMENT(S). Normally, the provost shall refer cases to this committee for advice only when there is concern regarding the appropriateness of lower level recommendations, when there are unclear or inconsistent recommendations from previous levels of review, or when all previous recommendations are negative. The university promotion and tenure committee shall prepare a written report of its assessment and vote for inclusion in the dossier.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Rules of the University Faculty be adopted as recommended by the University Senate.

HONORARY DEGREES

Resolution No. 98-150

Synopsis: The awarding of honorary degrees to William Lumb and Donald Shackelford is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees awarding of an honorary degree as listed below:

William V. Lumb

Doctor of Science

and

WHEREAS pursuant to paragraph (C) of rule 3335-3-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommended to the Board of Trustees awarding of an honorary degree as listed below:

Donald B. Shackelford

Doctor of Business
Administration

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipients.

RESOLUTIONS IN MEMORIAM

Resolution No. 98-152

Synopsis: Approval of four Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the family of the deceased.

Jack L. Beal

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 24, 1998, of Jack L. Beal, Professor Emeritus in the College of Pharmacy.

Dr. Beal was born on a farm near Harper, Kansas, July 7, 1923. He entered the University of Kansas School of Pharmacy in 1941, but like many pharmacy students of his era, Dr. Beal's education was

interrupted by World War II. He served as a medical laboratory technician in the U.S. Army Medical Corps from 1943-46, returning to the University of Kansas where he received his B.S. and M.S. degrees in pharmacy in 1948 and 1950.

That same year, Jack Beal sought opportunity for advanced study at the nascent graduate program at The Ohio State University College of Pharmacy, working under Dean Bernard V. Christensen, who served as his major advisor. His doctoral dissertation (1952), "The Effect of Selected Hormones on the Alkaloidal Yield of Datura tatula (Linne')," initiated a lifelong passion for exploring the connections between classical pharmacognosy, natural products chemistry, and biochemistry. Hired as an assistant professor at Ohio State that same year, he gradually transformed the traditional instruction in pharmacognosy to a modern series of courses. Dr. Beal embarked upon an intensive period of research, which resulted in over 120 scientific publications, directed 28 graduate students at both the master's and doctoral level, and supervised 17 postdoctoral researchers drawn to his laboratories from every corner of the globe. During his more than thirty years of active research, he isolated 175 different alkaloids in crystalline form, 80 of which were isolated for the first time.

Promoted to Associate Professor in 1958 and Professor in 1963, Dr. Beal took on administrative responsibilities as Assistant Dean under Dean Albert H. Soloway in 1978, reluctantly abandoning his beloved elective course in microscopy. He became Associate Dean for Graduate Studies and Research three years later, retiring in 1986.

Over his long career, Jack Beal served as President (1962-63) of the American Society of Pharmacognosy and a member of its Executive Committee (1972-75); Chairman of AACP's Conference of Teachers of Graduate Instruction (1967); Secretary (1965-70), Vice Chairman, Chairman-elect, and Chairman (1970-73) of the Academy of Pharmaceutical Sciences' Section of Pharmacognosy and Natural Products, and a member of the Editorial Board of the Journal of Natural Products Chemistry (Lloydia) from 1966 to 1975, serving as Editor of the Journal from 1977 to 1984. He was also honored as a National Science Foundation Faculty Fellow (1958-59); a Visiting Scientist at the University of Baghdad (Fulbright Fellow, 1961); a Fellow of the Academy of Pharmaceutical Research and Sciences (1971); an Honorary Member of the American Society of Pharmacognosy (1984); and held memberships in Rho Chi, Sigma Xi, Phi Lambda Upsilon, Kappa Psi, and Rho Pi Phi (honorary member). Until 1992, he maintained an active license as a registered pharmacist in Kansas.

In 1981, Dr. Beal organized an Alumni Society for the College's 4,000 alumni, and became a lifetime member of its Governing Board in 1987. His interest in the College of Pharmacy, its programs, and alumni earned him the College's Distinguished Alumni Award (1987) and its Vision Award (1995), the University's Centennial Service Award (1970), and Distinguished Service Award (1990), and the Alumni Association's Josephine Sitterle Failer Award (1996). In 1994, the College established the Jack L. Beal Chair in Pharmacognosy and Natural Products Chemistry in his honor.

On behalf of the University, the Board of Trustees expresses to the family of Dr. Beal its deep sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

John W. Berry

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 20, 1998, of John W. Berry, former chairperson and member of the Board of Trustees of The Ohio State University (1981-90).

John W. Berry was born in on July 8, 1922, in Dayton, Ohio. He graduated from Dartmouth College with a bachelor of arts degree in 1944, and while serving in the U.S. Army, he also attended the Louisiana State University, School of Engineering. In 1940, he began his career with Loren M. Berry

and Co., which pioneered the use of "yellow pages" for telephone directory advertising, becoming president in 1963 and chair and CEO in 1973. By 1986, when the firm was sold to BellSouth, it had grown to be the second-largest telephone directory advertising sales firm in the United States. Since 1983 he had been chairman of Berry Investments, Inc., Dayton, OH, a privately-held company that sells wholesale sporting goods and manufactures microwave motion detection devices. Mr. Berry was also chairman of a subsidiary company, AcuSport Corporation of Bellefontaine, OH.

Mr. Berry served on The Ohio State University Board of Trustees from 1981-90, and during his tenure he saw the University through its first \$1 billion budget and the 1985-90 Capital Campaign, which raised \$460 million in private gifts for University projects and programs. John Berry's support and involvement with The Ohio State University extended well beyond his appointment as a Trustee. He served as honorary co-chair of the 1995-2000 University Campaign and was a member of the National Campaign Executive Committee.

In addition to his service, John Berry was a generous benefactor to Ohio State, and in 1985 he established the Berry Chair of New Technologies in Marketing. In recognition of his support, an auditorium and an atrium in the new Fisher College of Business complex have been named for Mr. Berry.

Mr. Berry's community involvement included service on the boards of the University of Dayton, the Air Force Museum Foundation, the U.S. Business and Industrial Council, the Dayton Chamber of Commerce, United Way of Dayton, the Dayton Urban League, Society Bank of Cleveland, ITT World Directories, New York, and the Dayton Foundation. He was also past director of the Republican Finance Committee, Montgomery County, OH, and the Republican National Finance Committee, Washington, DC.

The Ohio State University presented Mr. Berry with a Distinguished Service Award in 1995, the Everett D. Reese Medal, and an honorary Doctor of Business Administration degree in 1997. He also held honorary degrees from the University of Rio Grande, the University of Dayton, and Dartmouth College.

On behalf of the University community, the Board of Trustees expresses to the family of John Berry its deepest sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Paul C. Bowers

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 31, 1998, of Paul C. Bowers, Assistant Professor Emeritus in the Department of History.

Professor Bowers was born on August 22, 1934, in Charlotte, North Carolina. He received a B.A. from Duke University in 1956, a master's degree in theology from Union Theological Seminary in 1959, and a Ph.D. from Duke University in 1965. He joined the Department of History at The Ohio State University in 1963, and retired as Assistant Professor Emeritus in 1991.

Among his students, both graduate and undergraduate, Paul Bowers was known for his polished, informative, and stimulating teaching. He also endeared himself to generations of students for his wise and gentle counseling. He left a powerful impression upon the University community, the Central Ohio community, and the teaching profession.

Professor Bowers was an American historian expert in the American Revolution and the early republic. At the time of his death, he had just finished the last of a number of publications on founding figures in Ohio, the Midwest, and the Old Northwest.

Paul C. Bowers (contd)

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to his family and friends. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees as an expression of the Board's heartfelt sympathy.

Robert Lang

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 27, 1998, of Robert Lang, Instructor Emeritus in the Ohio State University Extension.

Mr. Lang was born February 9, 1899, in Woodsfield, Ohio. He completed his B.S. in 1924 in Agriculture at The Ohio State University.

Bob Lang began his Extension career in Ohio on July 15, 1924 as the County Extension Agent, Agriculture in Hocking County. On January 1, 1930, he became the County Extension Agent, Agriculture in Belmont County. He held this position until his retirement on July 31, 1962.

His contributions in providing excellent Extension educational programs during his career earned him the respect and admiration of his co-workers and associates throughout the state and nation.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to his family and friends. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees as an expression of the Board's heartfelt sympathy.

ESTABLISHMENT OF NAMED ENDOWED FUND

Frank L. Tosi Memorial Scholarship Fund

The Frank L. Tosi Memorial Scholarship Fund was established June 5, 1998, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the Frank L. Tosi Trust. Dr. Tosi was a 1948 graduate of the College of Dentistry and practiced in Steubenville, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarships for students with need who may or may not be at the top of their class academically, but show great promise with the physical/technical side of dentistry, that is one who is artistic and/or creative with their hands, i.e. good crown and bridge work. Scholarship recipients will be selected in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson or program administrative officer in order to carry out the desire of the donor.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

CHANGE IN NAME AND DESCRIPTION OF NAMED ENDOWED FUND

Richard L. and Altony A. Delaney Athletic Scholarship Fund

The Richard Delaney Athletic Scholarship Fund was established September 5, 1986, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund by family and friends in honor and in memory of Richard L. Delaney, Ohio State Associate Athletic Director, 1970-1985, and his wife Altony A. Delaney. The name and description were changed June 5, 1998.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarships for undergraduates in good standing who are participating in a varsity sports program. Selection of the recipient(s) is to be made by the Director of Athletics in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations from the appropriate administrative official of the University who is then directly responsible for the athletic program at The Ohio State University in order to carry out the desire of the donor.

CHANGE IN DESCRIPTION OF NAMED ENDOWED FUNDS

Lois M. Jones Fellowship Fund in Geological Sciences

The Lois M. Jones Fellowship Fund in Geological Sciences was established March 7, 1986, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Lois M. Jones (B.S. Arts & Sciences 1955; M.S. Chemistry 1959; Ph.D. Geology 1969) of Westerville, Ohio. The fund was revised June 5, 1998.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more one-year doctoral student fellowship(s) in the Department of Geological Sciences (the Department) with equal consideration given to all eligible candidates including women, and students in the Byrd Polar Research Center. Selection of fellowship award recipients shall be based on proven academic ability and anticipated potential in the field of geological sciences, and shall be made by the Chairperson of the Department in consultation with the Chairperson of Graduate Studies Committee in the Department.

Any unused income shall be used to (1) support the summer employment of graduate students within the Department; (2) support graduate student fees and travel expenses associated with attending scientific conferences related to his/her respective research; (3) support visiting lecturer(s), as selected by the graduate students in the Department, to present program(s) of interest to the student community; or (4) returned to the principal of this fund.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then the principal and accumulated income from this fund shall be transferred to the Lois M. Jones Endowment for Cancer

If the need for this latter fund has ceased to exist or so diminished as to provide unused income, then another use for the former fund shall be designated by the Board of Trustees in consultation with the Chairperson of the Department, the Chairperson of Graduate Studies Committee in the Department, and the Dean of Mathematical & Physical Sciences in order to carry out the desire of the donor.

The Fred R. Taylor Scholarship Fund

The Fred R. Taylor Scholarship Fund was established May 7, 1976, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from friends and associates in honor of Fred R. Taylor (B.S.Ed. '50) who distinguished himself as an outstanding teacher and coach for eighteen years. In April 1996, a major gift was added to the fund which represents proceeds from the banquet honoring the 1960 National Championship Basketball Team. The fund was revised June 5, 1998.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to supplement the student-athlete grant-in-aid scholarship cost of student athletes who are members of the men's varsity basketball team. Recipients will be selected by the Director of Athletics in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official who is then directly responsible for scholarships in order to carry out the desire of the donors.

ADOPTION OF THE UNIVERSITY TRANSPORTATION AND PARKING PLAN

Resolution No. 98-156

Synopsis: Adoption of the proposed University Transportation and Parking Plan is proposed.

WHEREAS the Board of Trustees recognizes that the University's transportation and parking operations and facilities are of critical importance in providing the physical environment for accomplishing the University's mission and enhancing the quality of life for students, faculty, staff, and visitors; and

WHEREAS The University's Division of Transportation and Parking Services is and should remain a self-supporting auxiliary unit charged with responsibility for fostering effective and efficient transportation on campus and the provision of parking as one key element of a balanced and multi-modal approach to campus transportation; and

WHEREAS especially over the last decade demands on transportation and parking services have greatly increased, with major new capital projects, growth in the number and types of educational and related services, and increasing needs to ensure appropriate and adequate transportation, transit, and parking services; and

WHEREAS to ensure the ability to meet these needs, the University undertook, in 1997, a comprehensive transportation and parking study, through formation of a University-wide parking advisory team, with assistance from Sasaki Associates, Inc.; and

ADOPTION OF THE UNIVERSITY TRANSPORTATION AND PARKING PLAN (contd)

WHEREAS as a result of this study various alternative recommendations were developed and reviewed through an extensive and participatory process involving faculty, staff, and student organizations and constituencies as well as through open forums; and

WHEREAS the recommended alternative developed through this University-wide consultation provides for increased transit to the University community, improved maintenance for transit and parking operations, improved safety for parking facilities, and plans for 3,000 additional structured parking spaces:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the proposed Phase 1 of the University Transportation and Parking Plan as presented, including the parking rates for 1998-99 as submitted, and directs the Office of Business and Administration and the Division of Transportation and Parking Services to proceed, consistent with established University decision-making procedures, with implementation of Phase 1 and additional planning activities provided for in the Plan; and

BE IT FURTHER RESOLVED, That, during 1998-99, the Office of Business and Administration review, through the Coordinating Council, progress in implementing Phase 1 and actions as necessary for approval of Phases 2 and 3.

Upon motion of Mr. Skestos, seconded by Ms. Longaberger, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Messrs. Celeste, Colley, Skestos, Patterson, Sofia, and Slane, and Judge Duncan, and Ms. Longaberger.

**OSU STUDENT HEALTH INSURANCE
PLAN YEAR 1998-99**

Resolution No. 98-160

WHEREAS this Board awarded the insurance contract to Central Benefits Mutual Insurance Company following a competitive bid process, effective Autumn Quarter 1989 for an initial two (2) year term, subject to renewal thereafter; and

WHEREAS the Student Health Insurance Committee obtained the assistance and expertise of University & Professional Resources, Inc., a local insurance consulting firm; and

WHEREAS after consideration of the expressed needs and concerns of the students who purchase the insurance, the Student Health Insurance Committee of the Council on Student Affairs has recommended -- and the Council has ratified that recommendation -- that the current contract be renewed for one year at the specific rates to provide the existing benefits plus major benefit improvements to include:

- (1) Improving the prescription drug benefit under the indemnified portion of the plan to reflect no deductible or co-insurance, no pre-existing condition exclusion, addition of oral contraceptives, using a \$10 co-pay per prescription;
- (2) Expanding the prescription drug benefit at Student Health Services by covering all claims over the current \$300 maximum benefit using a \$5 co-pay per prescription and extending the oral contraceptives benefit to spouses using a \$5 co-pay per prescription;
- (3) Adding a vision care benefit that provides a comprehensive eye examination every 12 months through VSP's national network of member doctors using a \$15 co-pay and discounts on eye ware;
- (4) Reducing premium rates for all enrollment categories;

WHEREAS this plan is fully funded by student premiums and will be available on an optional basis to all registered students for the following proposed Quarterly Premium Rates:

<u>Classification</u>	<u>Current Quarterly Rates 1997-98</u>	<u>Proposed Quarterly Rates 1998-99</u>
Student	\$191	\$187 (2.09%_)
Student & Spouse	\$504	\$479 (4.96%_)
Student & Children	\$509	\$484 (4.91%_)
Student, Spouse, & Children	\$686	\$650 (5.25%_)

Appropriate rates have also been derived from the quarterly rate for students on a semester system, and for periods of continuing coverage while not registered as a student; and

WHEREAS after review of the past three years of premium distribution to Central Benefits compared to incurred claims, the Student Health Insurance Committee has recommended use of a contingent premium arrangement to help manage larger than projected Central Benefits gains:

NOW THEREFORE

BE IT RESOLVED, That Central Benefits Mutual Insurance Company be approved for renewal of the Student Health Insurance Contract effective Autumn Term 1998, for a period of one (1) academic year. The contract will provide the benefits now available under the terms of the 1997-98 contract together with the aforementioned benefit improvements; and

BE IT FURTHER RESOLVED, That since the plan has not been out to bid since 1988 that the Student Health Insurance Committee be authorized to request plan bids for the 1999-2000 plan year in accordance with established University procedures. Bidding the plan will ensure that plan rates are competitive in the insurance market and appropriate to our history of claims experience.

FOUNDATION BOARD REPORT

Ms. Longaberger:

On behalf of my colleagues, Mr. Brennan and Mr. Sofia, who serve with me on the Foundation Board, I would like to briefly report on the May meeting of The Ohio State University Foundation Board of Directors. We have three items of significance to report today.

First, we have established an Advisory Council -- and a description of the Council is in your notebooks immediately preceding Tab 1 -- to recognize the contributions of former directors and also provide them with the opportunity for their continued involvement in an advisory capacity. They will be invited back to the campus once a year. Our two newly approved emeritus board members are Mr. Richard Leet and Mr. Edwin Dodd. They are the first two members of the Advisory Council.

The second item is the committee structure. The list of members of the various committees of the Foundation Board is in your notebook, once again, immediately preceding Tab 1. We are very fortunate to have the continuing involvement of John G. McCoy, Frank Wobst, and Dave Sharrock, on the Investments Committee for the Board of Trustees.

And finally, we have some new board members. The most recent addition to the Board of Directors of the Foundation are: Vincent T. Aveni, of Cleveland, Ohio, James D. Klingbeil, of San Francisco, California, Thomas A. Mann, of Chagrin Falls, Ohio, Patricia Duke Robinson, of Troy, Ohio, and John M. Shepherd, of Cincinnati, Ohio. Please note that there are biographical sketches of each of these new members, once again, immediately preceding Tab 1 in your notebook.

That concludes my report, Mr. Chairman.

STUDENT GOVERNMENT REPORTS

Mr. Josh Mandel:

I have already had the opportunity to talk with many of you, so I look forward to expanding our interactions in the coming year. This past month within USG has been one of transition. As the officials took the oath of office on May 20, we have been working steadfast to appoint people to our cabinet and also to University committees.

STUDENT GOVERNMENT REPORTS (contd)

Mr. Mandel: (contd)

USG coordinated a racial issues program in the Hale Black Cultural Center in cooperation with the Office of Human Resources. This program brought students, faculty, staff, and administrators together to discuss the pressing diversity issues of the University and what direction Ohio State should be heading.

Also, members of USG participated in the Mortar Board Senior Honors Society's Community Roots Project by revitalizing a plot of land in the University district at the corner of Sixteenth Avenue and Waldeck.

USG is now working with representatives from the Office of Business Management and Transportation and Parking Services, regarding the fate of bus services considering the potential new parking plan. Among our recommendations were that buses run counter circular routes and that Transportation and Parking be more active in transporting students to University, athletic, and entertainment events.

Members of USG teamed up with staff at the Student Wellness Center to conduct a faculty-student relations program, at which participants discussed alcohol consumption on Ohio State's campus and what role faculty and staff should play in this regard.

The annual African-American Heritage Festival was held on May 16, at which USG members were marshals. Throughout the year, USG members have been meeting with representatives from the Ohio State Police, Columbus Police, and the NAACP in order to open communications and better plan for such large events.

USG members have also been meeting with Ms. Rofagha, to help coordinate a Council of Student Organization Presidents. This Council will be chaired by Vice President Williams, with contributions from Don Stenta, the director of Student Organization Services. The Council hopefully will be convened near the beginning of Autumn Quarter.

We also have begun an initiative to establish food services on campus west of the Olentangy River. With approximately 3,200 students and 870 faculty and staff on the agricultural campus every day, USG feels that there should be food services available to members of the University community working and studying there. Therefore, we have begun talking with Vice President Moser and Tim Keegstra, who coordinates food services within the dining commons, on this matter.

We have also been working to expand our relationship with the Office of University Development and will be working with John Iverson, from Student Affairs Development, to help develop the USG alumni and also develop initiatives within Student Affairs.

The Undergraduate Student Government is dedicated to increasing its contribution to the momentum of the University and we look forward to working with the Board of Trustees and the entire community in the coming year. We would also like to thank those people in the past year who have supported us.

The Council of Graduate Students is organizing a trip to Washington, DC, in just a few weeks. Graduate, professional, and undergraduate students will travel to Capitol Hill to meet with Ohio legislators. Their discussions will surround the reauthorization of the Higher Education Act, as a part of the National Association of Graduate and Professional Students Lobby Day. We are delighted that new Student Trustee Allyson Lowe is joining us in this effort.

STUDENT GOVERNMENT REPORTS (contd)

Mr. Mandel: (contd)

On June 30, CSG will say goodbye to their staff assistant of 21 years, Patricia Nichols, who is retiring. They would like to thank Pat for her many years of hard work and dedication. Plans are underway for her retirement party.

The Interprofessional Council is planning its summer conference for its officers, members of its senate, and the judiciary committee. The conference will be held on August 15.

They are also pleased to announce that they will be joining the National Association of Graduate and Professional Students in sending representatives to Washington with CGS. And, finally, they are hoping to be moving to a new office sometime soon.

Thank you very much. Are there any questions?

Mr. Celeste:

Josh, thank you very much. We look forward to working with you this next year and can see that the transition hasn't slipped a beat. We appreciate the work.

UPDATE ON THE ENROLLMENT MANAGEMENT REPORT

Ms. Longaberger:

Earlier this morning, the Student Affairs Committee heard a report on the enrollment management issues presented jointly by the Offices of Academic Affairs and Student Affairs. Ohio State has, in recent years, made a vigorous commitment to attracting students who are well able to take advantage of all of the strengths of this comprehensive and excellent research University, and systematic recruitment efforts have been bringing in an even stronger freshman class. At this time, all indications are that next year's class will, once again, be the strongest ever entering Ohio State.

In order to serve all of our students well, it is important that we continue to enhance our academic programs, as well as our support services, so that we maintain an appropriate and ever-improving balance between the quality of our student body and the quality of the experience that they receive. The University does keep careful track of student persistence and graduation rates, and has been developing programs to enhance and improve both of those.

For the next year, some of those important initiatives include: completing the computer wiring of all of the residence halls, the establishment of a collection of living-learning communities here on campus, the development of an inter-connected series of programs around the theme of student leadership, and continued enhancement of academic advising. The Committee on Student Affairs will be in a position to report more fully on these projects at a meeting of the full Board, probably in the fall.

I would also like to take time to acknowledge Kermit Hall, David Williams, and Martha Garland, for their leadership in working on this mission-critical project, we appreciate it greatly.

That concludes my report, Mr. Chairman.

**PRESENTATION OF THE DISTINGUISHED UNIVERSITY
PROFESSORS AWARDS**

Mr. Celeste:

We now have the pleasure of bestowing our University's highest honor, the 1998 Distinguished University Professor Award to two of our outstanding faculty members.

Dr. Ray will introduce our honorees in just a minute, but first, let me ask the families of Professors Au and Petty to stand and be recognized. We know that your support helped make this award possible and we want to thank you for all that you did.

And now, Dr. Ray, will you please introduce the 1998 Distinguished University Professors.

Dr. Edward Ray: [video presentation]

Thank you, Mr. Chairman. Before we begin, I would like to mention the names of the selection committee members and acknowledge their fine efforts: Deborah Merritt, professor in the College of Law; Larry Brown, a 1996 Distinguished University Professor and the chair of the Department of Geography; Bruce Bursten, a 1997 Distinguished University Professor in the Department of Chemistry; L.S. Fann, a 1996 Distinguished University Professor and chair of the Department of Chemical Engineering; and Brian Joseph, professor in the Department of Linguistics.

Now for this year's recipients -- Professor Jessie Lai-Sim Au is a professor of pharmacy, medicine, and biomedical engineering. She holds two doctorates, one in pharmaceuticals and one in clinical pharmacy, and is internationally recognized for her exceptional accomplishments in pharmaceutical and cancer research. Her extraordinary breadth of interest in training in both clinical and basic sciences have allowed Professor Au to excel in the difficult task of transforming her laboratory discoveries into clinical applications.

She has published more than 200 papers and abstracts that span a wide range of problems in cancer therapy and her work has provided a breakthrough in understanding the principles that govern regional cancer therapy. Professor Au's research has been recognized with a Research Career Development Award and a Merit Award from the National Institutes of Health, The Ohio State University's Distinguished Scholar Award, and appointment to the Dorothy M. Davis Chair in Cancer Research.

Professor Au is a dedicated and inspiring teacher both in the classroom and in the laboratory. Students have said that her guidance and encouragement have helped them accomplish more than they thought they could possibly achieve.

Professor Au also has a distinguished record of service to The Ohio State University and to her profession. She has been a major service contributor to Ohio State's Comprehensive Cancer Center since her arrival at the University in 1983, and served as the Center's deputy director from 1994 to 1997. She has served on numerous University committees, including the Provost's Advisory Committee, and has served on several National Institutes of Health advisory committees and study sections, as well as on many national advisory councils on cancer research.

Professor Au it is with great pride that we name you an Ohio State University Distinguished University Professor.

Our second recipient is Professor Richard E. Petty, chair of the Department of Psychology. He is a leader in the field of social psychology and perhaps best known for having developed the most widely accepted theory of how processes of

**PRESENTATION OF THE DISTINGUISHED UNIVERSITY
PROFESSORS AWARDS (contd)**

Dr. Ray: (contd)

persuasion succeed in shaping and changing attitudes. The Elaboration Likelihood Model of Persuasion has set the pace for research in this area for the past decade.

Professor Petty has been a principle investigator for grants from the National Science Foundation and the National Institute of Mental Health. He has authored, co-authored or edited seven books, and published more than 150 articles and book chapters. Professor Petty has proven himself to be a dedicated teacher and mentor, and his graduate students have excelled professionally under his tutelage.

Professor Petty is a fellow in four American Psychological Association Divisions: personality and social psychology, consumer psychology, health psychology, and general psychology; and is a fellow of the American Association for the Advancement of Science. He is also a recipient of The Ohio State University Distinguished Scholar Award.

Professor Petty has served the discipline in several leadership roles, including the editorship or editorial board membership of the four top journals in social and general psychology. He also has been an advisor to the National Academy of Sciences, the National Science Foundation, the National Institutes of Health and other federal agencies on matters of national public policy.

Rich, it is with great pride that we name you an Ohio State Distinguished University Professor.

[Video Presentation.]

Mr. Chairman, before we proceed, I would like to thank David Hoover, from University Communications, and Kirsten Brackney, from the Office of Academic Affairs, for their help in putting the video together.

I would now like to invite each of the honorees to share with you their experiences as faculty here at Ohio State, particularly about institutional support for faculty excellence. We will hear from both of our honorees first and then perhaps the Board will have some questions or comments. Jessie, would you like to start us off?

Dr. Jessie Au:

First, thank you for giving us this opportunity to talk to you. We were asked to look at two questions: 1) What is the one thing that Ohio State is doing right to promote excellence at the University? and 2) What is the one thing that can be improved on? So I will start with the first question.

I have been here 15 years, so I basically have spent my entire academic career here. I came in as an assistant professor and, of course, being here today I think that I can provide some historical perspective as to where things are. Prior to coming to Ohio State, I spent seven years at the University of California at San Francisco, where I obtained both of my doctorates. UCSF is one of the most renowned universities in the world. So I think that is a good way to compare and to see what are truly excellent and outstanding universities.

When I first came here -- and I do notice a difference, so I'm telling you the good news already -- there was really a major difference in culture. Coming from UCSF, where excellence is really expected, celebrated, and recognized -- in fact, I think the faculty all recognize that -- if you do not achieve excellence, you will not get respect

**PRESENTATION OF THE DISTINGUISHED UNIVERSITY
PROFESSORS AWARDS (contd)**

Dr. Au: (contd)

from your peers. When I came here 15 years ago, the culture was very different at OSU. It was noticeable to me because I came from a different environment and that is that OSU is a land-grant university. We have a mission for teaching and educating the Ohio public and so forth.

I have noticed much change in the last 5-7 years. I am sure that the seed had been planted earlier, and I attribute this change to the visionary and daring leadership that dared to say we believe in excellence, we promote excellence, and we put resources into promoting excellence. It is so natural to expect that. But, again, seeing the two different cultures, I now understand that it takes a lot of courage to change culture, and I see that happening now.

I do see that OSU is more and more on the map. We hear people talking about OSU. I believe that we will move to being a first tier school and that is my wish. I hope that I can see that in my professional career at OSU.

Having said that, how does one get there? In my opinion -- of course, money doesn't solve all problems -- there are opportunities at OSU that can benefit from having more resources. Here, again, we need leadership that is there to make those decisions for selective investment. We cannot be excellent in all of the programs that we have because it is not possible. However, we can choose programs that are either eminent now or preeminent and invest in those and bring them to national prominence, and I hope that the rest will follow.

Again, this is a cultural issue. It is not so much a dollar issue. If you put money in all of the programs that we have, then you again have this land-grant mentality. But if you select and say, "This is what we expect," and "This is what we celebrate," as you are doing today by recognizing us as Distinguished Professors, you are basically making a statement that excellence is expected and celebrated. I keep jawing on this because I think that it is not a small matter and I borrow that from my own personal experience.

It is not always easy for a leadership to come out and say, "We do promote that." I think Dean John Cassady has done an outstanding job in providing me with the resources that I need so that I can do my work and be here today. So that is the message that I hope to get across. There is one thing that I think the University has done right in the last so many years and that is starting to change the culture and putting us on the map.

In terms of what I think we can improve upon, there is one thing that troubles me and that is for a number of years now there has been this sentiment about pitting teaching against research. To me it's a real myth because I don't understand why the issue even comes up. Discovering new knowledge and disseminating new knowledge to me is a process in one. I don't see them as being separated.

On top of that, I had the opportunity to work with my teenage daughter in looking for a college for her. At first, she wanted to leave home and go somewhere else, so Ohio State is not in her thinking right now. But I know all of the rankings of the schools at this moment, and that is what I am saying. When I look at the top 25 schools in the country -- this is in the *USA News Report* that we all read -- all of those are major research universities. They are not known for their teaching. But if you look at all of the names on there, they are all high-powered research universities that have done well and have discovered a lot of new knowledge that has helped society to move forward.

**PRESENTATION OF THE DISTINGUISHED UNIVERSITY
PROFESSORS AWARDS (contd)**

Dr. Au: (contd)

In my opinion, a good researcher is always a good teacher as well. What you have is basically selecting out people who are logical thinkers and also the personal trait of people who want to excel, and in that regard, they will do well regardless of whether it is research or teaching. So I really think that is an aspect.

I understand that as a public university we have a constituency that we need to answer to. However, if we wish to move to the first tier, we need to look at the ingredient for success and in my opinion it is all research-related. Discovery of new knowledge is considered a lot more important for the rankings and so forth. So, I would just like to point out that I hope the excellence in research doesn't mean that we have to feel guilty about not doing as much teaching as some of the other community colleges.

Thank you for your attention.

Dr. Richard Petty:

I am also delighted to be here this morning to be able to say a few words to the Board. As Jessie said, we were asked to talk a few minutes about the things that Ohio State is doing right in terms of its pursuit of excellence and things that it might be doing to hinder excellence.

First, what are we doing to facilitate excellence? I think one of the most important things that we do is that we continue to talk about excellence and we keep excellence on the front page -- so to speak. The fact that the Trustees clearly care about excellence and they care about hiring people -- even at the very highest levels, such as the next University president who cares about excellence -- is extremely important to the morale of the faculty and the students. So I think that talk and news stories about Ohio State pursuing excellence are really important. But, of course, if all there was was talk, we really wouldn't get very far.

The second thing that I like that the University does is that, at least on some occasions, it puts its money right where its mouth is, in terms of its pursuit of excellence. The Selective Investment Program -- that Jessie has already mentioned -- is a good example of this. As you know, Dick Sisson is a champion of this program.

There are a number of features of this program, but the hallmark is that it is an open University competition for resources to allow different units to pursue excellence. It is the kind of program that can really make a difference by encouraging units to think about excellence, how to achieve excellence, and then rewarding those units that have good plans for doing so.

There are other excellent University programs that help pursue excellence. Many of them relate to the recruitment and retention of both undergraduate and graduate students such as the University Fellowship Program, a very important program.

What are some of the frustrations in achieving excellence? My own personal frustration has to do with the fact that many in the public, and perhaps some within the University itself, fail to appreciate the linkage between the quality of our graduate programs and the quality of our undergraduate programs, or the quality of our research programs and the quality of our instructional programs.

For example, the benefits of attracting the very best graduate students are many.

**PRESENTATION OF THE DISTINGUISHED UNIVERSITY
PROFESSORS AWARDS (contd)**

Dr. Petty: (contd)

They range from well-appreciated ones, such as assisting faculty and conducting the highest quality research, to the less-appreciated one of enhancing the quality of the undergraduate experience. It seems that often in the media it is portrayed that when graduate students are engaged in instruction or interaction with undergraduates, quality suffers. But this depends, of course, in part at least, on the quality of the graduate programs and the quality of the graduate students who are in them.

Let me give you an example from the Social Psychology Program at Ohio State. This program is a fantastic graduate program. Every year the top graduating Ph.D. students in our program go on to become professors at some of the nation's best institutions. This year, for example, our top student was hired by Princeton to join their faculty, last year it was Northwestern, the year before this it was Yale, and so forth. This means, that in one academic year, these graduate students at Ohio State are teaching undergraduates at Ohio State and a few months later they are faculty members at Yale, Princeton, Northwestern, and places like that teaching undergraduates. They, are who are paying far more for their education, than is the case here.

I picked these institutions as examples because they are famous for selecting faculty who are not only top researchers, but also who are dedicated to the undergraduate teaching mission. So these examples imply that the quality of our graduate programs have direct implications for the quality of our undergraduate programs as well.

As a second frustration, let me say something briefly about our current budget process. As you know, budgets for units are set largely based on precedent with some increment or decrease over time. This means that if my department does a great job of attracting majors or doing some innovative instruction, there are really no direct or immediate implications for our budget. So over time, things can get out of balance. In general, I favor the current attempt on the part of Ed Ray and Bill Shkurti to rebase budgets at the University for units based on the quantity of what they do and the centrality of what they do to the University mission. I think all three of these criteria can be built into the budgeting system.

This suggests that just as there are selective investments, a very important program at the University, there is also a need for selective deinvestment. Right now, selective investment is paid for with a tax that is applied equally to all units on the campus. The tax should be selective so that the University can downsize in areas that do not meet the criteria of doing things that are important to the University. We have to make choices, as Jessie has already said. These choices are difficult, but if we are going to move to the next level, we need to make them.

Let me close by saying that I have 2 two-year old daughters. In sixteen years, if we are lucky, they will be ready for college -- at least I hope that they will be ready for college. When they are, it will be great if Ohio State has moved into the top echelon of public universities in the country. I think it's quite possible that if the correct choices are made, we can do this. Thank you.

Mr. Celeste:

Drs. Au and Petty, we thank you both for sharing your thoughts with us. We applaud you for your achievement and we find your examples to be another shining star in the constellation of excellence here at The Ohio State University. We appreciate it.

**PRESENTATION OF THE DISTINGUISHED UNIVERSITY

Mr. Celeste: (contd)

Do any other members of the Board have questions? Thank you very much. I would remind the members of the Board that there will be a luncheon in honor of Drs. Au and Petty after the Board meeting.

PRESENTATION ON TUITION INCREASE

Mr. William Shkurti:

This issue has had quite a bit of extensive discussion on the campus, as a whole, and also in the Fiscal Affairs Committee this morning, so I will briefly summarize the reasons behind the resolution in five points.

Point one -- we have had testimony to that this morning -- is that OSU is an excellent value to Ohio's taxpayers, but it is not as well funded as its competitors. For example, if you would compare us with similar institutions nationally, our in-state undergraduate tuition averages less than \$364 per FTE student. If you compare us with public institutions, the difference is \$283 per student. That may not sound like a lot, but if you multiply it times 50,000 students, even in an institution of this size, that gets into a lot of money.

Let me also compare us with some other fine institutions in Ohio. For example, our annual resident undergraduate tuition is \$600 less than Ohio University, \$700 less than the University of Cincinnati, \$800 less than Kent State University, and \$1,800 less than Miami.

We are not proposing to raise tuition to the levels of Miami or any of these other institutions, but -- and this is my second point -- our students expect and deserve the same or better level of service as students in those institutions and elsewhere. We have heard from our students, and I think justifiably so, that we need to provide opportunities for them to interact with more of our finest faculty of the caliber of the people that we saw this morning, that we need to do more on academic advising, that we need to provide them with more opportunities to park their cars, and so forth.

Which leads to the third point that the combination of increased student fees, proposed this morning, and state support that has been given to us by the State legislature, will allow OSU to continue to make significant improvements in the quality of services to our students in Fiscal Year 1999. This would include such things as: bringing more faculty to the campus for both research and teaching; increasing scholarships, so that students who are on scholarships will be held harmless from the fee increases that we are proposing; to raise wages of student workers, so that those students who are working will have an opportunity to receive increased income for their work; to extend wiring to all of the residence halls where 85 percent of our freshmen live, so that they will have the opportunity to have access to the University's computer network; and to increase academic advising, so that our students can graduate more quickly and have some assistance in working through courses, and so forth.

That leads to the fourth point that the money has to come from somewhere. So the increased cost of all tuition and fees, to a resident undergraduate on the main campus for next year, will be \$401 if the proposal before you today is approved. That is about \$2 per day for a 10-week quarter. That is not an insignificant amount of money, but I think that it is an amount of money that will reap rewards for our

PRESENTATION ON TUITION INCREASE (contd)

Mr. Shkurti: (contd)

students over and over again -- not only while they are here, but in terms of the value of the degree they take with them from Ohio State University. That will be with them for the rest of their working lives.

And that leads to the fifth point, that although we are focusing on one year, in this particular case, in terms of what tuition and fees will be for the fall, that OSU's commitment to better serve its students and the people of Ohio is a long-term commitment that we will follow through for a number of years to continue to make this the excellent institution that we all know it can be and has already started to be.

So, Mr. Chairman, we recommend then the tuition and fees package included in the Board resolution for approval today and under State law, it will take a second vote at the July meeting. It will hopefully then be in effect for the 1998-1999 school year.

Mr. Celeste:

Thank you very much. Are there any questions?

1998-99 TUITION INCREASE

Resolution No. 98-162

Synopsis: The first phase of FY 1998-99 Tuition increases is being submitted for adoption.

WHEREAS it is the University's intent to ultimately increase the combined FY 1998-99 General and Instructional Fees for in-state undergraduates by 6.0 percent; and

WHEREAS current legislation requires a second separate vote for any tuition increases above 4 percent for the combined General and Instructional Fees for in-state undergraduates; and

WHEREAS a separate resolution will be presented at the July meeting to achieve the full 6.0 percent increase in General and Instructional Fees for in-state undergraduates:

NOW THEREFORE

BE IT RESOLVED, That General and Instructional Fees be increased by 4 percent for in-state undergraduates for FY 1998-99 pending a second vote at the July meeting to increase these fees by 6.0 percent.

Upon motion of Mr. Skestos, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Messrs. Celeste, Colley, Skestos, Sofia, and Slane, and Judge Duncan, and Ms. Longaberger.
