The theme chosen by the ASO for the November 2011 meeting was birdstones, and it turned out to be one of the best meetings to date. Despite a short notice, the final count of birdstones on display, and brought in by attendees, was 225; many of which have never before been on public display. The attendees were given a rare opportunity to see some of the finest birdstones in private collections, including the outstanding collection of Kenny Simper, of Hamilton, Indiana.
