

INDEX TO BIOGRAPHICAL SKETCHES AND OBITUARIES IN PUBLICATIONS OF THE OHIO ACADEMY OF SCIENCE, 1900-1970¹

RONALD L. STUCKEY

*Historian-Archivist, The Ohio Academy of Science, Columbus 43201 and
College of Biological Sciences, The Ohio State University, Columbus 43210*

ABSTRACT

Four-hundred and eighty biographical sketches and obituaries of Academy members and other noted scientists are indexed from *The Ohio Naturalist*, *The Ohio Journal of Science*, *The Proceedings* and *Annual Reports* of the Academy, and *The Ohio Academy of Science News*, as a service to Academy members, Ohio scientists, historians, and others interested in locating information about scientists, living and dead, recorded in Academy publications.

The history of any organization is partially derived from the contributions and achievements of its individual members. The Ohio Academy of Science through the past 75+ years has progressed because of the efforts of many of its members. Over the years both biographical sketches and obituaries of Academy members and occasionally of other noted scientists have appeared in *The Ohio Naturalist* (1900-1915), *The Ohio Journal of Science* (1915-1970), *The Annual Reports* (1892-1930), *The Proceedings* (1892-1930), and *The Ohio Academy of Science News* (1948-1970). Scientific contributions and achievements of these individuals are often recorded in these sketches or obituaries. Beginning with the obituary of Edward S. Orton (9th Ann. Rep. 15-16. 1900), 135 biographical sketches and 345 obituaries have appeared in Academy publications. In order that the information in these sketches and obituaries may be more readily accessible to Academy members, scholars, and historians, the accompanying index has been prepared.

The biographical sketches and obituaries are listed alphabetically by the name of the scientist, with his or her life dates (if deceased) as given in the article or determined from it. The volume, page number(s), and date that follow are understood to be for those biographical sketches or obituaries published in the journal of the Academy, *The Ohio Naturalist* (vols. 1-15) and *The Ohio Journal of Science* (vols. 16-70). Those references to sketches and obituaries published in the *Proceedings*, the *Annual Reports*, and *The Ohio Academy of Science News* are so designated. Each reference to a non-academy member or other noted scientist is marked with an asterisk. Biographical data or references to biographical information may also be found in the following three papers, whose contents have not been analyzed nor indexed.

Mendenhall, T. C. 1915. Some pioneers of science in Ohio. *Proceedings* 6: 174-203.

Wells, John R. 1947. A list of books on the personalities of Geology. *Ohio J. Sci.* 47: 192-200.

Wells, John R., and George W. White. 1958. Biographies of Geologists. *Ohio J. Sci.* 58: 285-298.
