AIMS AND EQUIPMENT

The purposes of the College of Law are to impart an accurate knowledge of the principles of the law, to illustrate the application of these principles to the practical affairs of life and to furnish such legal training as will fit students for practise in any part of the country—in a word, to teach students both to know and to apply the law.

The college occupies a building upon the campus, which was completed in 1902 and is named Page Hall for Henry Folsom Page who was an attorney-at-law and lived at Circleville, Ohio. He bequeathed a large estate valued at nearly a quarter of a million dollars to the Ohio State University.

On the first floor are three large lecture rooms and two other classrooms, the offices of the Dean and of the Secretary, and room of the Law Literary Society. On the second floor of the building, the law library is shelved in a fire-proof stack room capable of housing fifty thousand volumes. At each end of the building is a well-lighted reading room communicating with the stack room. Large reading tables are provided for the accommodation of the students. There is also a consulting room for the accommodation of students.

LIBRARIES

The Library of the College of Law contains the reports of the Federal Courts, the reports of all the states and territories, including also the Philippines, Hawaii, Porto Rico and Alaska, the full reprint of the English Reports and English Reports in the original as well as in the reprint, since the period covered by the reprints, Canadian Reports, Australian Commonwealth Reports, the National Reporter System, American Reports, American Decisions, American State Reports, Lawyers' Reports Annotated, American and English Annotated Cases, American Bankruptcy Reports, Interstate Commerce Reports, the Statutes and Digests of all the States, of Canada and England, the standard Legal Encyclopedias and General Digest, standard Legal Periodicals, and about one thousand well selected treatises. The Noble Law Library and the Emerson McMillin Library are included in the above enumeration. At present the library contains about 15,000 volumes, and large additions are being made annually.
The following libraries are also accessible to the student:

The University Library contains about 120,000 volumes of carefully selected books upon all subjects. This is quite complete in the most recent standard works upon history and political science, philosophy, etc. A good collection of the leading scientific, technical, and literary magazines and journals is to be found here.

The State Law Library of over 45,000 volumes is the largest and most complete law library in the State, and ranks among the best in the United States. It contains all the American Reports (Federal and State), Decisions, Digests, and Statute Laws, and keeps abreast of the publication of current text-books, books of reference, and leading law periodicals. The department of English, Scotch, Irish, and British Colonial Decisions is well cared for and growing yearly more comprehensive. About 800 volumes have been added to the Library annually for the last few years, among the recent additions being about 100 volumes of Australian and Canadian Law Reports formerly missing from the catalogue. This library is located in the new State Judiciary Building in the grounds of the State Capital, and many students avail themselves of its privileges. It is open every week-day, except Saturday, from 8:30 to 5 o'clock; on Saturday it closes to the public at noon.

The State Library, in the State House, is a library of general literature, history, science, biography, political and social science, philosophy, etc., comprising over 180,000 volumes. The leading magazines, journals and other periodicals are also to be found here.

The City Library with 80,000 volumes and large reading rooms, located on Grant avenue, at the head of State street, may be used by students, under reasonable restrictions.

The Public School Library with over 85,000 volumes, is open to students of the University.
ADMISSION

General Requirement

Applicants for admission must be at least eighteen years of age.

University Entrance Board

The admission of students is in charge of the University Entrance Board, which determines the credits which shall be issued on all entrance examinations and certificates, and furnishes all desired information* to applicants. Correspondence relating to admission should be addressed to the Entrance Board, Ohio State University, Columbus.

Admission to the Course Leading to a Degree

There are two modes of admission to the course leading to a degree (a) by examination, (b) by certificate.

Admission by Examination

The Entrance Board will conduct entrance examinations June 3 to 7 and September 9 to 13, 1913. A part of the examinations may be taken in June and the remainder in September. All applicants for admission who do not possess certificates covering entrance requirements must take examination for admission.

**Admission by Certificate**

Applicants may be admitted without examination on presentation of properly indorsed certificate from a first grade high school in Ohio, or a school of equivalent rank, or approved normal school, provided that the work covered by said certificate meets the requirements in the section entitled "Requirements by Units." The certificate must show that the applicant is a graduate in good standing of the school issuing it; and also must state in detail the studies pursued, the text-books used, the amount of work done in each study, the amount of time devoted to it, and the fact that the applicant has passed in the work.

Any entrance requirement not covered by a certificate must be met by examination.

Blank certificate may be obtained by addressing the Secretary of the Entrance Board. Certificates should be filled out and returned to the University as early as possible after the close of the schools in June. Since errors are frequently made in transcribing the record upon the blank form, the candidate should verify his certificate and see that it gives him credit for all his school work.

**Requirements by Units**

A unit is a course of study covering a school year during which not less than one hundred and twenty clock-hours are devoted to class room work on the study.

Applicants, to be admitted to full standing, must obtain credit by examination or certificate for fifteen* units, chosen from the following subjects, and must also satisfy the requirements of paragraph entitled "College Work."

No applicant will be accepted who is deficient or conditioned in required entrance work representing in the aggregate more than two units. This rule does not apply to the college work indicated as requisite for a degree. Work of collegiate grade may be made up at any time before the Friday preceding Commencement Day.

Removal of Entrance Conditions

The removal of entrance conditions is administered by the Entrance Board. Conditions may be removed (1) by examination or (2)
by the substitution of excess work in other approved subjects, or (3) by the substitution of other equivalent work to be done at the University. All entrance conditions must be removed within two years after admission. If, at the end of the first year, a student still has entrance conditions outstanding, the Secretary of the College will assign such college courses as may be deemed a fair equivalent for the work in which the student has entrance conditions.

**College Work**

In addition to the foregoing requirements, each candidate for a degree must submit satisfactory evidence that he has successfully pursued a course of study equivalent to the first two years of the course leading to a degree in the College of Arts, Philosophy and Science of this University.

The candidate will be subject to examination in such work. If this work has been done in a college or university of approved standing, the certificate of such college or university will be accepted as a substitute for such examination.

**Admission with Advanced Standing**

(a) Applicants for admission with advanced standing must first satisfy the foregoing entrance requirements in the methods described above. This should be done through the Entrance Board.

(b) By presentation of satisfactory certificates issued by a college of law having a course of not less than three years, and requiring at least four years of high school work for entrance, or by examination, such applicants may then obtain any advanced credits in law to which they are entitled. Applicants for admission to the second year must present satisfactory evidence of having completed the work of the first year of the course of law or its equivalent; an applicant for admission to the third year must present satisfactory evidence of having completed the work of the first and second years of the course of law or its equivalent. All law credits must be submitted to the Secretary of the College of Law for adjustment.

In order to obtain the full benefit of the arrangement and detail of the course of study, a student should enter at the beginning of the First Year and attend regularly until the completion of the Third Year.

Those who are unable to do this are earnestly requested to enter promptly at the beginning of the year, or if special work is desired in the second semester, at the beginning of such semester.
Admission to the Course Leading to a Certificate

Requirements for admission of students who are not candidates for a degree are the same as the requirements for admission of candidates for a degree, except that the student need not offer the work equivalent to the first two years of the College of Arts, Philosophy and Science. These requirements do not necessarily meet the requirements of the Ohio Supreme Court for admission to the State Bar Examination.

Admission to Special Courses

A person twenty-one years of age, or over, who desires to pursue a special line of work and does not desire to become a candidate for a degree, may be admitted by vote of the Executive Committee to such classes as he is qualified to enter; provided, that if he afterward becomes a candidate for a degree or certificate in law, he must pass the requirements for admission at least one year before the degree or certificate is conferred.

GENERAL INFORMATION

DEGREES

The Degree of Bachelor of Laws (LL. B.) will be conferred on all who, being at least twenty-one years of age and having met the requirements necessary for entrance for a degree, pass satisfactorily the examinations at the close of the third year, after having done at least that year's work in the College of Law at the University.

The Degree of Juris Doctor (J.D.) will be conferred on all who, being at least twenty-one years of age and having the degree of Bachelor of Arts or an equivalent degree from an approved college or university, have completed the course in Law with merit in at least one-half of the hours required for the completion of the course, and have been in attendance at this College of Law during the entire course.

CERTIFICATES

Those who have completed the studies in this College, but have not complied with the requirements for a degree, will be given an official certificate showing the work done, signed by the Chairman and Secretary of the Board of Trustees and the President of the University.

No distinction is made between the candidates for a degree and other regular students while in attendance at this College. The two classes of students do the same work, recite together, take the same examinations, are held to the same standard of work and stand on the same footing for admission to the bar.

The distinction between the two classes of students consists entirely in the two following respects:

First—The standard of admission for candidates for a degree is higher than that for those who are not candidates for a degree.

Second—Candidates for a degree who have fulfilled all entrance requirements and have completed the course of study in a satisfactory manner receive a diploma conferring the degree. Regular students, who are not candidates for a degree, receive under similar circumstances a formal certificate of the completion of the course.
ADMISSION TO THE BAR

The regular Supreme Court examinations for admission to the Bar are held on the third Tuesday in June and first Tuesday in December of each year. Students who have not regularly attended the full course of three years at this College, or who have not been examined here in all the subjects required in the undergraduate course, or who have not presented acceptable certificates from some recognized school or college of law covering the subjects not pursued here by them, are required to pass this examination before they receive the degree of Bachelor of Laws or the certificate mentioned above.

UNIVERSITY COURSES SUITABLE FOR COLLATERAL STUDY

For such as cannot obtain the benefits of a college education before studying law, we suggest the advantage of attending a law school which, like this, is in close and vital connection with a great University. Strong courses in history, political science, and economics are offered at this University, which are open without extra charge to students in the College of Law, as they may elect, subject to the requirements for admission to such departments.

The following courses offered in the department of American History and Political Science will be found especially helpful to students in the College of Law: Political History of the United States; the Revolutionary and Critical Period, 1763-1789.

In the department of European History the course in Political and Constitutional History of England is of especial value.

The connection of the College of Law with the University affords the means of liberal, practical, and technical education. Students who are disposed to work faithfully and who desire to fit themselves for any special line of work may, at the same time that they are acquiring a technical knowledge of law, supplement their general education by joining the University classes, in departments which they may elect, subject to the requirements for admission to such departments, without extra charge except for laboratory work.

FEES AND EXPENSES

All fees must be paid at the opening of each semester as a condition of admission to classes.

Registration Fee. The fee for students who are residents of Ohio is thirty dollars a semester. For non-residents, the fee is thirty-five dol-
lars a semester. Non-resident students must reside in Ohio one year before they are eligible under the residence rule. Children of non-resident Alumni pay the same fee as residents of Ohio.

Former students, who do not pay this fee until the third day of the first semester and the second day of the second semester, must pay one dollar additional. For each day of delinquency thereafter fifty cents is added.

**Locker Fee.** The gymnasium is free to all students, but those desiring to use a locker are charged a fee of two dollars a semester, which includes the rental of towels.

**The Ohio Union.** A fee of one dollar a semester is paid by all male students at registration. This entitles the student to all privileges of the Union, consistent with the Constitution and House Rules governing it.

**Graduation Fee.** A fee of five dollars to cover expenses of graduation and diploma is required of each person receiving one of the ordinary degrees from the University, and this fee must be paid on or before the last Friday preceding Commencement.

There is no charge for the formal certificate of completion of the course.

**Rooms and Board.** Furnished rooms, accommodating two students, in private homes, can be rented at one dollar and a half per week for each student. Board at the restaurants and boarding clubs near the University costs from three dollars to three dollars and fifty cents per week. Board with furnished rooms can be obtained in private families at rates varying from five to six dollars per week.

The Ohio Union Commons offers board to young men at reasonable rates.

**Text-Books.** Students should not purchase text-books until they are advised by instructors of their respective classes.

### EXPENSES PER YEAR

One of the most perplexing questions that confronts a prospective student is what the course is going to cost him a year.

In order to furnish information we have listed below payments required by the University for the Freshman year and have estimated the cost for room and boarding at a safe price. These two items are sometimes reduced slightly where two students occupy the same room and where boarding clubs are economically managed. Fees to the University are paid one-half at the beginning of each semester.
COLLEGE OF LAW

Incidentals ........................................ $ 60 00
Ohio Union ........................................... 2 00
Books .................................................. 40 00
Board—36 weeks at $3.50 per week .................. 126 00
Room Rent, at $8.00 per month ....................... 72 00
General Expenses ................................... 75 00

$375 00

The item of general expenses is always subject to the personal habits of the individual, and varies according to the degree of economy exercised.

Y. M. C. A.

The Young Men's Christian Association has come to occupy a prominent place in university life. It has a membership of about six hundred men, and is affiliated with the World's Student Christian Federation.

Religious meetings are held for men on Wednesday evening; there are also frequent meetings for the promotion of social intercourse and good fellowship. Courses in systematic Bible study and in missions are offered. A most helpful feature of the work is that conducted in the interest of new students at the opening of the school year. Desirable rooms and boarding places are found and posted for reference at the Association Office. Representatives of the Association meet the trains, assist students in finding satisfactory locations, and endeavor in every way to make them feel at home. The Employment Bureau helps to find work.

SELF SUPPORT

There is a large amount of work upon the University farm which is assigned to students, preference being given to those who are studying Agriculture. But the University cannot promise work to all applicants.

Many students find work in private families, in offices, and in various occupations, by means of which they defray at least a portion of their expenses. A person of ability and energy, who is a master of a trade, or who can do good work of any kind, can generally find remunerative employment. It has seldom been known that any student of ordinary energy and industry was obliged to leave the University because of a lack of money for necessary expenses, after having been sixty days on the ground—or long enough to inform himself as to the opportunities for securing employment.

Students should report to the Executive Office from time to time as to their needs and their work. This will enable the authorities to be more helpful than otherwise would be possible.

For further information not contained in this bulletin, address the the Dean of the College of Law, Ohio State University, Columbus.
GRADUATES

The University is anxious to keep on record the correct address of every graduate of the college. It will be considered a favor if any graduate who changes his residence, will notify the University Editor of his new address and his official designation, if any.
