PROSPECTIVE  
❖ STUDENTS ❖

1935 · 1936

The Ohio State University Bulletin is issued thirty times during the year; once each month in July, August, September, and October; three times each month in November and December; four times each month in January, February, and March; three times each month in April and May; and twice in the month of June.

---

**PUBLISHED BY THE UNIVERSITY AT COLUMBUS**

Entered as second-class matter November 17, 1905, at the postoffice at Columbus, Ohio, under Act of Congress, July 16, 1894. Acceptance for mailing at special rate of postage provided for in Section 1103, Act of October 3, 1917. Authorized July 10, 1918.

## TO THE PROSPECTIVE STUDENT AND HIS PARENTS:

This little booklet is prepared especially for the graduates of high schools and preparatory schools who desire information about entering the Ohio State University. It contains, in condensed form, information about the requirements for admission to the various colleges of the University, course offerings, fees and expenses, living arrangements, opportunities for self-help, and the like.

Just as the University is something greater than the mere land and buildings of its campus, so the life of the University is something infinitely more interesting and inspiring than these condensed and printed facts can convey. Human values and human experience are the vital things that add the missing meaning.

Think of the University as a very human community and society in which the values of personality and character must grow along with learning. Campus life provides a great variety of activities and experience for the social development of the individual. These activities are sanctioned and supervised by the University in the belief that college is not only "preparation for life," it is life itself.

The extent and effectiveness of the religious program for students will be understood when one learns that the University helps to support two Christian associations on the campus and that there are 21 different churches in the University district, all serving the students. All of the larger, and some of the smaller churches, in addition to the regular minister, have special pastors who give all their time to the religious interests of the students. Some church denominations support social centers where the program of the church among the young men and women of the University is carried on sympathetically and effectively.

In the five colleges with large freshman enrollment, the University provides special administrators, known as Junior Deans, whose main responsibility is to serve as guides, counselors, and friends to the students at the outset of their college careers. Concern for the individual student is a primary principle of the University administration.

The University is the property of the people of Ohio, dedicated to public service and public welfare through education of the youth of the State. Inquiries for additional information from prospective students and their parents are welcomed, and should be addressed to:

# UNIVERSITY CALENDAR

1935

## SUMMER QUARTER

May 31 to June 1	Entrance Examinations.
June 15 to 22	Physical Examinations for all new students.
June 17	Latest day for registration and payment of fees without penalty. (See page 14).
June 18	Classes begin, 7:30 A. M.
June 22	Intelligence Test for all new students (Saturday P. M.).
July 4	Independence Day. No classes.
July 22, 23, 24	Final Examinations, first term (at regular class hours).
July 19, 20	Physical Examinations for all new students.
July 24	First term ends, 5:30 P. M.
July 25	Second term begins, 7:30 A. M.
July 27	Intelligence Test for all new students (Saturday P. M.).
August 28, 29, 30	Final Examinations (at regular class hours).
August 30	Summer Convocation (Commencement), 2 P. M.
August 30	Summer Quarter ends, 6 P. M.

## AUTUMN QUARTER

September 6 to 8	Entrance Examinations.
September 25 to 30	Freshman Week.
September 30	Physical Examinations for students other than Freshman.
September 30	Latest day for registration and payment of fees without penalty. (See page 14).
October 1	Classes begin, 8 A. M.
October 5	Intelligence Test for all new students other than Freshmen (Saturday A. M.).
November 11	Armistice Day. No classes after 12 M.
November 28, 29, 30	Thanksgiving Recess.
December 18, 19, 20, 21	Final Examinations.
December 20	Autumn Convocation (Commencement), 2 P. M.
December 21	Autumn Quarter ends, 6 P. M.

1936

## WINTER QUARTER

January 6 to 9	Physical Examinations for all new students.
January 6	Latest day for registration and payment of fees without penalty. (See page 14).
January 7	Classes begin, 8 A. M.
January 11	Intelligence Test for all new students (Saturday A. M.).
February 22	University Day. No classes.
March 18, 19, 20, 21	Final Examinations.
March 20	Winter Convocation (Commencement), 2 P. M.
March 21	Winter Quarter ends, 6 P. M.

## SPRING QUARTER

March 30	Latest day for registration and payment of fees without penalty. (See page 14).
March 31	Classes begin, 8 A. M.
March 30 to April 1	Physical Examinations for all new students.
April 4	Intelligence Test for all new students (Saturday A. M.).
May 29	R. O. T. C. Review and Presentation of Commissions.
May 30	Memorial Day. No classes.
June 10, 11, 12, 13	Final Examinations.
June 13	Alumni Day.
June 14	Baccalaureate Sermon.
June 15	Class Day.
June 15	Spring Convocation (Commencement).
June 15	Spring Quarter ends.
June 22	Summer Quarter (1936) begins.
September 4	Summer Quarter (1936) ends.
September 29	Autumn Quarter (1936) classes begin.

# THE OHIO STATE UNIVERSITY

---

## LOCATION

The Ohio State University is situated within the corporate limits of the city of Columbus. It is supported by appropriations from the State and Federal governments. The University has almost 1400 acres of land with nearly 400 acres in the campus. The total value of land, buildings, and equipment is \$22,415,383.00.

## ORGANIZATION

For convenience of administration the departments of the University are grouped into organizations called Colleges. The Ohio State University comprises ten Colleges and a Graduate School, each under the administration of a Dean and College Faculty, as follows:

Graduate School, College of Agriculture (including the School of Home Economics), College of Arts and Sciences, College of Commerce and Administration (including the Schools of Journalism and Social Administration), College of Dentistry, College of Education, College of Engineering (including the School of Mineral Industries), College of Law, College of Medicine (including the School of Nursing), College of Pharmacy, College of Veterinary Medicine.

## THE UNIVERSITY YEAR—FOUR QUARTERS

The University year is divided into four Quarters, approximately eleven weeks in length. The Summer Quarter is further divided into two terms of approximately six weeks each. Complete courses that are so announced may be taken for either term or for the entire Quarter.

NOTE: Bulletins describing the work of the several Colleges may be obtained by addressing the University Examiner, The Ohio State University, Columbus, and stating the College in which the writer is interested. (For list of bulletins, see the last page.)

## JUNIOR DEANS

The Junior Deans are the chief advisers of the Freshmen and Sophomores in all University matters. They keep a close supervision over the work of these students and help them to adjust themselves to their new surroundings.

The Junior Council, consisting of the Junior Deans and certain other members of the University Faculty under the leadership of the President of the University, have under consideration constantly the problems of providing more satisfactory methods of instruction for the increasing number of underclassmen, as well as the problem of adjusting the curricula of the various colleges to meet the varying needs of particular groups of students.

## ADMISSION

---

### NEW STUDENTS

New students should arrange for their admission before the University opens. Certificates should be mailed to the University Examiner as early in the summer as possible, or several weeks before the opening of any Quarter. Nearly all registration can be completed by mail, even to the payment of fees. By registering early, a student saves himself the time and inconvenience of standing in line and waiting for an interview with the Registration Committee.

*No student will be admitted until he has presented satisfactory credentials to the University Examiner.*

### CORRESPONDENCE

All requests for bulletins, announcements, reports, and printed matter in general, as well as *all inquiries relating to entrance requirements, examinations, and certificates, should be addressed to the University Examiner. No estimate of the amount of credit toward admission or toward admission with advanced standing can be given unless official certificates are submitted describing completely all the work upon which request for credit is based.* These certificates should be mailed one month before the opening of the Quarter if possible. Bulletins are mailed as second-class matter, and on this account may be delayed after notice of sending is received by the inquirer.

## HIGH SCHOOL GRADUATION A REQUIREMENT

For admission to any course offered in the University, graduation from a first grade high school is a requirement, unless the applicant can pass the entrance examinations to the amount of fifteen units or is accepted for admission as a special student.

## REGISTRATION

---

### FRESHMAN WEEK

All Freshmen are required to be present at the University for a special Freshman Program which precedes the opening of the University. This program will begin on Wednesday, September 25, at 3:00 P. M. and will continue through the following Monday, September 30. This session is known as Freshman Week.

During this period Freshmen will become familiar with the Campus. They will be given needed information on the history and traditions of the University, as well as definite information on student activities and eligibility requirements. There will be lectures and discussions of vital importance to any student beginning his college career. Faculty advisers will conduct personal interviews with students to discuss their plans for a university education.

Intelligence tests, physical examinations, and placement tests are also a part of the Freshman Week Program.

The program of Freshman Week is planned to give students, new to the Campus, an opportunity to adjust themselves to new conditions before the regular routine of class-room work begins.

In connection with the Freshman Week program, a conference for parents will be held on the opening day, Wednesday, September 25. Opportunity will be presented for parents to meet the President and other university officers. A formal presentation will be made of the university's personnel program with freshman students.

*Freshmen must be present on the opening date, September 25, for the first meeting scheduled at 3:00 p. m. A penalty of \$5.00 for each day of absence will be imposed. This is the usual penalty for late registration. The exercises of Freshman Week will be of the greatest benefit to the Freshmen and attendance upon them is required. All cases of failure to appear on this day or to be present at any of the exercises of Freshman Week will be reported to the President for action.*

All Freshmen are urged to complete their registration and pay their fees before September 25, in order that they may be free to participate in the program of Freshman Week.

### REGISTRATION

Under the Quarter plan each student will present his program of studies for only one Quarter at a time. Election cards for registration are obtained from the Registrar and are ready for distribution approximately two months prior to the opening of the Quarter. The exact date will be published in the Official Daily Bulletin and definite days will be announced during which every student in residence will be required to file his program of studies for the following Quarter. Persons who are not in residence may register in person or by mail at any time after the election cards are available for the following Quarter. Fees may be paid as soon as fee cards have been received by the student from the Registrar. *Students are expected to pay their fees before the day designated in the University Calendar for classes to begin and to report promptly to their classes on the first day that classes are scheduled.* Students who have registered sufficiently early usually receive fee cards approximately three weeks prior to the opening of the Quarter. *It is to the advantage of all students to register as early as possible, since the size of many sections is limited and they are completely filled early during the registration period.*

Applicants presenting themselves after the opening of the Quarter can be admitted only for exceptional reasons and by action of the Executive Committee of the College. In general, a student who is permitted to enter after the close of the first week of a Quarter will be given a schedule diminished by one full course below the normal requirement for that student.

### ADMISSION AFTER THE OPENING OF THE COLLEGE YEAR

Registration of new students for any Quarter will close the Monday following the beginning of classroom work. No applicant will be granted admission after that date, without special permission of the Dean of the College concerned.

# GENERAL ADMISSION REQUIREMENTS

## NON-PROFESSIONAL SCHOOLS

An applicant for admission to any college in the Ohio State University must be a graduate of a high school of the first grade or of an accredited secondary school, or must pass entrance examinations in high-school subjects amounting to fifteen units.

Fifteen units of high-school work in acceptable subjects must be offered by every applicant. No fraction of a unit less than one-half will be recognized.

### SUBJECTS ACCEPTABLE FOR ADMISSION

The subjects from which choice should be made, and the number of units which will be accepted in each subject are as follows:

#### GROUP I

(Twelve units should be chosen from this group)

English .....	8 or 4	units
Algebra .....	1 or 1½	units
Geometry, Plane .....	1	unit
Geometry, Solid .....	½	unit
Trigonometry, Plane .....	½	unit
History, Civics, and Social Science.....	1 to 4	units
Latin, Greek, French, German, or Spanish (two units in the same language).....	2 to 4	units
Physics (with laboratory).....	1	unit
Chemistry (with laboratory).....	1	unit
Botany .....	½ or 1	unit
Zoology .....	½ or 1	unit
General Biology .....	½ or 1	unit
Physiology .....	½	unit
Physical Geography .....	½ or 1	unit
General Science (with laboratory).....	½ or 1	unit

#### GROUP II

(Three units may be chosen from this group)

Agriculture	Industrial Arts
Commercial Subjects	Fine Arts
Household Arts	

## THE COLLEGES

### OFFERINGS AND SPECIAL ADMISSION REQUIREMENTS

#### COLLEGE OF AGRICULTURE

The College of Agriculture offers instruction in two major fields: (a) Agriculture (including horticulture) and (b) Home Economics.

**AGRICULTURE**—The curricula and programs of study in agriculture may be classified as follows: (1) Certain curricula which lead toward definite vocational goals at the end of four years of study. These furnish preparation for farming, teaching agriculture in the high school, extension teaching and various commercial positions. (2) Those which lead directly into graduate study. Certain fields of work such as college teaching and research require one or more years of graduate study and these curricula furnish the foundation for such study.

**HOME ECONOMICS**—Four-year curricula are available in Home Economics. This work is designed to prepare for collegiate and secondary teaching for professional and commercial positions in the lines of institutional management, nutrition, dietetics, textiles, home management, household decoration, and many other lines dealing directly or indirectly with the home and its functions.

#### MAJOR SUBJECT MATTER FIELDS OF SPECIALIZATION

Agricultural Education	Rural Economics, comprising
Agricultural Engineering	Farm Management
Agricultural Extension	Marketing
Agronomy	Rural Sociology
Animal Husbandry	Home Economics with majors in:
Dairy Husbandry	General Home Economics
Forestry (first two years only)	Dietetics and Institution Management
Poultry Husbandry	Textiles and Clothing
	Home Economics Education

## SPECIALIZED CURRICULA IN AGRICULTURE

Animal Science  
 Applied Entomology  
 Dairy Technology  
 Plant Science

Horticulture, comprising  
 Floriculture, Pomology,  
 Vegetable Gardening  
 Rural Economics and Rural Sociology

### REQUIREMENTS FOR ADMISSION

Graduates of a first grade high school may pursue any of the curricula offered by the College.

Graduates of a second grade high school who can present two units of farm experience may pursue the curricula in Agriculture and Horticulture.

It is strongly recommended that the following combination of units be presented for admission; except in the case of students who have been enrolled in Vocational Agriculture:

English .....	3 units
American History and Civics.....	1 unit
Algebra .....	1 unit
Plane Geometry .....	1 unit
Foreign Language .....	2 units
Physics .....	1 unit
Biological Science .....	1 unit

The remaining five units may be chosen from Groups I and II. See General Admission Requirements, page 6.

## JUNIOR SCHOOL OF AGRICULTURE

**THE JUNIOR SCHOOL OF AGRICULTURE**—In order to meet the needs of those who cannot spend four years at college, the College of Agriculture has set up a plan whereby students may come for two years or less and take courses in Agriculture or Home Economics. Under efficient and sympathetic guidance students may elect most of their work in the College of Agriculture so that they may get the particular instruction they wish. When 100 hours of credit have been earned a certificate will be awarded.

### PROGRAMS

Agricultural Engineering  
 Agronomy  
 Animal Husbandry  
 Dairy Husbandry  
 Home Economics

Horticulture, comprising  
 Floriculture, Pomology,  
 Vegetable Gardening  
 Poultry Husbandry  
 General Agriculture

Requirements for admission are the same as for the four-year courses in Agriculture. See statement above.

## COLLEGE OF ARTS AND SCIENCES

The four-year course of the College of Arts and Sciences leading to the B.A. degree, is designed for students desiring a general education. The curriculum, which is non-professional in its aim, offers a liberal education in the languages and literatures, the sciences, mathematics, psychology, philosophy, history, politics, economics, sociology, and the fine arts. At least two years' work in this College is required for admission to the Colleges of Law and Dentistry. Three years' work is required for admission to the College of Medicine. Students desiring to secure degrees both from the College of Arts and Sciences, and from certain professional Colleges of the University may lessen the time usually required to secure two degrees by enrolling in combination curricula, such as Arts-Medicine, Arts-Law, or Arts-Education. See Bulletin of the College of Arts and Sciences for additional information.

### REQUIREMENTS FOR ADMISSION

It is strongly recommended that the following combinations of units be presented for admission:

English .....	3 units
American History and Civics.....	1 unit
Algebra .....	1 unit
Plane Geometry .....	1 unit
Foreign Language .....	4 units
Physics or Chemistry.....	1 unit
Biological Science .....	1 unit

Three additional units may be presented from any of the above subjects. See General Admission Requirements, page 6. Students are urged

to take four units in one foreign language if possible. The student's college foreign language requirement can usually be completed most promptly by continuing a foreign language already begun in high school. Summer review or tutoring under such circumstances is often advantageous in preparation for the next higher course. Students whose college course involved mathematics or science will similarly profit by reviewing their high school mathematics before entering college.

A student deficient in algebra or geometry will be entered with conditions, and this deficiency must be made up outside of college before entering upon the second year of residence. Deficiencies in American History, Chemistry or Physics, or biological sciences, will need to be made up by work done in College.

## COLLEGE OF COMMERCE AND ADMINISTRATION

The College of Commerce and Administration and the Schools of Journalism and Social Administration provide professional training in Business Administration, Public Service, Journalism, and Social Service. Students in Business Administration may pursue the General Business course or may follow specialized curricula along the following lines: Accounting, Finance and Banking, Industrial Management, Foreign Commerce, Marketing, Public Utility Management, and Public Administration.

Combined curricula in Commerce are offered with Law, Arts, and Education, providing opportunity for a student to take the two degrees. A combination curriculum, including Engineering and Commerce, may be arranged for those interested.

### REQUIREMENTS FOR ADMISSION

Twelve units should be presented from Group I. See General Admission Requirements, page 6. These units should include the following:

English .....	3 units
American History and Civics.....	1 unit
Algebra .....	1 unit
Plane Geometry .....	1 unit
Science .....	2 units
Foreign Language (both units in the same language)	2 units

Three additional units may be presented from either Group I or Group II.

Entrance conditions will be assessed for all deficiencies in mathematics, science, and foreign language. All deficiencies must be made up before entering upon the fourth Quarter of residence. No more than three entrance conditions will be permitted.

## COLLEGE OF EDUCATION

The College of Education is the teacher-training agency within the University and was established for the professional training of teachers as provided in the School Laws of this State.

It offers practical and theoretical courses for the training of teachers for the following fields of educational work:

(1) Senior high school and junior high school teachers of the "academic" subjects—English, Foreign Language, History and Social Sciences, Mathematics, Science. (2) Teachers and supervisors of "special" subjects—Commercial subjects, Fine Arts, Home Economics, Industrial Arts, Music, Physical Education and Health; teachers in part time and continuation schools and classes; teachers in schools of nursing and school nurses. (3) Teachers, supervisors, and principals of the elementary grades, kindergarten, and pre-schools.

All teacher-training curricula in the College of Education are four years in length and lead to the degree Bachelor of Science in Education.

The College of Education presents the following four-year curricula which are supervised by the Department of Fine Arts, a division of the College of Education:

Curricula in (a) Painting, Sculpture, or Design; (b) Illustration; (c) Ceramic Art; (d) Landscape Architecture; leading to the degree Bachelor of Fine Arts, for the training of professional artists in the field indicated.

## REQUIREMENTS FOR ADMISSION

The following distribution of units is strongly recommended:

English .....	3 units
American History and Civics.....	1 unit
Algebra .....	1 unit
Plane Geometry .....	1 unit
Foreign Language (both units in the same language)	2 units
Physics or Chemistry.....	1 unit
Biological Science .....	1 unit

Five additional units may be presented from either Group I or H. See General Admission Requirements, page 6.

A student deficient in algebra will be entered with a condition.

## COLLEGE OF ENGINEERING

Offerings in the College of Engineering consist of curricula leading to the following degrees: Bachelor Degrees in Architecture, Architectural Engineering, Ceramic Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering, Mechanical Engineering, Metallurgical Engineering, Engineering in Mining and Engineering Physics. The curricula in Architecture and Architectural Engineering require five years for completion.

In addition to the above offerings, curricula can be combined leading to two engineering degrees. Also other combinations can be arranged with the College of Arts and Sciences, which would lead to two degrees in five or more years. Professional Engineering degrees may be awarded to graduates of the University who shall have had a sufficient number of years of approved and appropriate practical experience, who are able to satisfy certain requirements.

### REQUIREMENTS FOR ADMISSION

For complete entrance credit, an applicant for admission must be a graduate of a high school of the first grade and receive credit by certificate for fifteen units; or he must receive credit by examination for fifteen units.

Of these fifteen units, ten are specific requirements known as Group A; of the remaining five units not less than two and one-half units shall come from Group B and not more than two and one-half shall come from Group C.

#### GROUP A

Total—10 units

Algebra (through Quadratics) 1 unit	Physics	1 unit
Plane Geometry 1 unit	English	3 units
Advanced Algebra $\frac{1}{2}$ unit	Foreign Language	2 units
Solid Geometry $\frac{1}{2}$ unit	American History and Civics	1 unit

#### GROUP B

$2\frac{1}{2}$  units or more

Biology 1 unit	Additional Group A Language	1 or 2 units
Botany $\frac{1}{2}$ or 1 unit	Freehand Drawing $\frac{1}{2}$ or 1 unit	
Chemistry 1 unit	History in addition to Group A	$\frac{1}{2}$ to 2 units
English, in addition to Group A 1 unit	Physiography $\frac{1}{2}$ or 1 unit	
Foreign Language	Physiology $\frac{1}{2}$ or 1 unit	
French 2 units	Trigonometry $\frac{1}{2}$ unit	
German 2 units	Zoology $\frac{1}{2}$ or 1 unit	
Greek 2 units	General Science $\frac{1}{2}$ or 1 unit	
Italian 2 units		
Latin 2 units		
Spanish 2 units		

#### GROUP C

Not more than  $2\frac{1}{2}$  units

Agriculture 1, $1\frac{1}{2}$ , or 2 units	Manual Training, or Farm	
Bookkeeping 1 unit	Mechanics $\frac{1}{2}$ or 1 unit	
Business Law $\frac{1}{2}$ unit	Mechanical Drawing $\frac{1}{2}$ or 1 unit	
Commercial Arithmetic, if preceded by one year high school mathematics $\frac{1}{2}$ unit	Music 1, $1\frac{1}{2}$ , or 2 units	
Commercial Geography $\frac{1}{2}$ or 1 unit	Shorthand and Typewriting 1, $1\frac{1}{2}$ , or 2 units	
Drawing, art, and design $\frac{1}{2}$ or 1 unit	Typewriting 1 unit	
	Any other subject accepted for high school graduation $\frac{1}{2}$ or 1 unit	

Applicants under twenty-one years of age may be admitted to the College of Engineering with one unit deficiency. But an applicant may be admitted with two units deficiency in a foreign language provided he has no other deficiency. This deficiency in foreign language may be removed during his first year in residence, and a corresponding reduction made in his regular schedule. Less than two units of any one foreign language will not be accepted for entrance credit unless it is in addition to two units of another foreign language.

An applicant over twenty-one years of age may be admitted with a total deficiency of two units.

An applicant with a deficiency in solid geometry must remove this deficiency before he will be admitted to the class in descriptive geometry in the Spring Quarter of the first year.

An entrance condition in solid geometry cannot be removed by substitution.

All applicants admitted with deficiencies should communicate with the Junior Dean immediately after admission relative to the removal of such deficiencies.

## COLLEGE OF PHARMACY

The College of Pharmacy offers but one course, a four-year course leading to the degree Bachelor of Science in Pharmacy. The work offered is intended to meet the demand for better trained pharmacists as well as to supply the training for pharmaceutical chemists, teachers in pharmacy and related subjects, hospital technicians, and research workers in pharmaceutical fields. In short the work is intended to train the students for all positions where a knowledge of pharmacy is an essential requirement. Realizing this, it is the constant aim to give the students not only the necessary practical and technical training but also the broad general and specialized training necessary to meet the needs of present-day pharmacy.

### REQUIREMENTS FOR ADMISSION

Twelve units should be presented from Group I. See General Admission Requirements, page 6. These units should include the following:

English .....	3 units
American History and Civics.....	1 unit
Algebra .....	1 unit
Plane Geometry .....	1 unit
Foreign Language (preferably Latin).....	2 units
Physics or Chemistry (preferably Chemistry).....	1 unit
Biological Science .....	1 unit

Three additional units may be presented from either Group I or II.

The applicant must present a State Pharmacy Certificate to the Entrance Board.

## COLLEGE OF VETERINARY MEDICINE

The College of Veterinary Medicine gives thorough training in medicine and surgery as applied to animals. The course is five years leading to the degree of Doctor of Veterinary Medicine. A graduate of this course is competent to enter any one of the nine different fields of veterinary work in each of which is a growing demand for modern veterinarians.

### REQUIREMENTS FOR ADMISSION

Twelve units should be presented from Group I. See General Admission Requirements, page 6. These units should include the following:

English .....	3 units
History (including American History and Civics)...	2 units
Algebra .....	1 unit
Plane Geometry .....	1 unit
Foreign Language .....	2 units
Physics or Chemistry.....	1 unit
Biological Science .....	1 unit

Four additional units may be presented from either Group I or II.

# ADMISSION TO PROFESSIONAL SCHOOLS

---

## COLLEGE OF DENTISTRY

The College of Dentistry presents a four-year curriculum in the sciences fundamental to dental surgery. The work is based upon two years of Arts college training, and leads to the degree, Doctor of Dental Surgery. Laboratory and clinical facilities are adequate.

The curriculum prepares fully for examination prescribed by national and state laws.

### REQUIREMENTS FOR ADMISSION

Entrance requirements are the same as those for the College of Arts and Sciences, with the addition of two years of work taken in conformity with the curriculum requirements of any liberal arts college of approved standing.

This college credit must include certain prescribed pre-dental subjects. See Bulletin of the College of Arts and Sciences.

## COLLEGE OF LAW

The College of Law provides a three-year curriculum based upon two years of college work, leading to the degree, Bachelor of Laws or Juris Doctor.

The Law curriculum contains all the recognized courses in substantive and procedural law.

### REQUIREMENTS FOR ADMISSION

Entrance requirements are the same as those for the College of Arts and Sciences, with the addition of two years of work taken in conformity with the curriculum requirements of the College of Arts and Sciences or its equivalent.

Students may prepare for admission to the College of Law in the College of Commerce and Administration.

## COLLEGE OF MEDICINE

The College of Medicine provides a four-year curriculum based upon at least three years of college work, leading to the degree, Doctor of Medicine.

The College is able to utilize the unusual clinical facilities afforded by the numerous hospitals and charitable institutions located in Columbus. In all respects it conforms with the highest standards set by the American Medical Association.

### REQUIREMENTS FOR ADMISSION

Entrance requirements are the same as those for the College of Arts and Sciences, with the addition of three years (ninety semester hours or one hundred and thirty-five Quarter hours) of work in a college of liberal arts.

These college credits must include certain subjects prescribed by the American Medical Association. See Bulletin of the College of Arts and Sciences.

## SCHOOL OF NURSING

The School of Nursing is under the administration of the College of Medicine and many of the instructors are members of the faculty of that College.

The curriculum covers five years and is given in conjunction with the College of Education, leading to the degree of Bachelor of Science in Education and a diploma in Nursing.

### REQUIREMENTS FOR ADMISSION

Entrance requirements are the same as for the College of Education.

## APPLIED OPTICS

The course of study in Applied Optics offers a thorough training in theoretical and practical optics and the application of optical principles to the correction of visual errors, with clinical practice in both

the refractive and pathological fields. The curriculum covers four years and leads to the degree, Bachelor of Science in Applied Optics.

#### REQUIREMENTS FOR ADMISSION

Entrance requirements are the same as for the College of Arts and Sciences.

### THE GRADUATE SCHOOL

The Graduate School administers the graduate work offered in the several departments of the University. The School is under the direction of a Graduate Council consisting of the Dean and twenty-eight members.

The following higher degrees are conferred by the University: Master of Arts, Master of Arts in Social Administration, Master of Science, Master of Science in Public Administration, Master of Business Administration, and Doctor of Philosophy.

To fulfill the requirements for a graduate degree, each student must complete an approved course of study which shall show a reasonable degree of concentration on interrelated subjects and shall be pursued under at least two professors. This course of study is arranged with each student by a representative of the department in which the student elects to specialize but the choice of work must be approved as a whole by the Dean of the Graduate School.

All communications and inquiries from prospective students should be addressed to the University Examiner.

#### REQUIREMENTS FOR ADMISSION

Admission to the Graduate School is open to all graduates of The Ohio State University as well as to the graduates of all other colleges and universities of approved standing, provided their undergraduate records are satisfactory. Before entering upon graduate work in any department, the applicant must present evidence to the effect that he has had the necessary prerequisite training that will enable him to pursue with profit the courses desired. *It must be remembered also that admission to the Graduate School does not imply admission to candidacy for the degree.* No graduate student, not even one who is a graduate of The Ohio State University, is admitted to candidacy for a degree until he has been in residence a sufficient time to enable his instructors to judge of his ability to carry on graduate work.

#### METHOD OF PROCEDURE FOR ADMISSION

An applicant for admission to the Graduate School must send to the University Examiner a statement from the registrar or other officer of the university or college of which he is a graduate, which contains the following information: (1) the date of graduation of the applicant; (2) the degree received; (3) a complete list of courses taken and grades received.

### ADMISSION OF SPECIAL STUDENTS OF MATURE YEARS

A person of mature years who is unable to meet the entrance requirements in all respects, under certain circumstances, may be permitted to matriculate for specified courses for which he can demonstrate adequate qualifications. An applicant under twenty-one years of age will not be considered. Inquiry concerning such admission should be addressed to the Entrance Board, and to receive consideration must reach the Board not less than ten days in advance of the opening of the Quarter. A personal interview with an applicant for admission as a special student is desired.

### ADMISSION WITH ADVANCED STANDING

An applicant who comes from an approved college and submits through his college registrar an official and explicit transcript describing his entrance credits, his courses of study and scholarship, and giving evidence of good standing, will be admitted to the University, provided he has maintained at least an average scholastic record. If the applicant is deficient in high school units the deficit will be made up from his college credits.

If no high school units are presented, one full year of college credits

(forty-five Quarter or thirty semester hours) will be used to satisfy the entrance requirements.

A special application blank for students who desire to enter with advanced standing, will be forwarded upon request addressed to the University Examiner's office.

## ADMISSION OF TRANSIENT STUDENTS

A student in good standing in any recognized college, who desires to take advantage of a limited number of courses at the University, in the Summer Quarter, and who expects to return to his former college upon their completion, will be designated as a *Transient Student*. He will not be required to bring credits for work already completed, but must present:

(1) A statement from the Dean or Registrar that he is in good standing.

(2) A statement that his work here will receive credit in his own college.

(3) A statement of the courses the student proposes to schedule during the Summer Quarter. If these courses require prerequisite training, he must submit a statement from his Dean to the effect that he is eligible to schedule the course.

## REQUIREMENTS FOR ADMISSION TO THE SUMMER QUARTER

The requirements for admission to the Summer Quarter, in any College or the Graduate School, are the same as during the regular college year. (See the requirements for admission under each of the Colleges and the Graduate School.)

## GENERAL REQUIREMENTS

### INTELLIGENCE TEST

Every new student entering the University is required to take an intelligence test under the direction of the Committee on Intelligence Tests, unless he presents an intelligence rating that is satisfactory to the Committee.

The examination for Freshmen entering in the Autumn Quarter will be held during Freshman Week.

The examination for entering students except Freshmen for the Autumn Quarter will be held on Saturday following the opening of the University.

### PHYSICAL EXAMINATION

Every entering student must report for a physical examination upon the dates appointed in the Calendar of the University.

The University reserves the right to require a student to submit to such a physical examination as there is reasonable ground to believe that the protection of the University community requires and it reserves the right to dismiss a student if he refuses to submit to such an examination or if the examination indicates that the protection of the University community requires dismissal.

The examination for Freshmen entering in the Autumn Quarter will be held during Freshman Week.

Entering students other than Freshmen must report for a Physical Examination on dates announced.

Men should report to the Medical Examiner for Men, at the Physical Education Building.

Women should report to the Medical Examiner for Women, at Pomerene Hall.

## MILITARY SCIENCE AND TACTICS

### REQUIREMENTS AND CREDIT IN MILITARY SCIENCE

Under the Act of Congress establishing the land-grant colleges, it is required that instruction in Military Science and Tactics be included. The Board of Trustees has directed that every male student except those registered in the Colleges of Dentistry, Law, and Medicine, unless excused by the Military Department (see University Rules), shall be required to pursue the study of Military Science during the first six Quarters of residence, exclusive of the Summer Quarter, or until the

end of the Quarter in which he reaches the age of twenty-five years and shall be required to obtain one hour of credit for each Quarter in which he is required to pursue the study of Military Science as a prerequisite for an undergraduate degree.

## PHYSICAL EDUCATION

### REQUIREMENTS AND CREDIT IN PHYSICAL EDUCATION FOR MEN AND WOMEN

Physical Education and Hygiene are required of all men during the first year, and of all women during the first and second years, unless excused by the Department of Physical Education (see University Rules).

#### REQUIREMENT FOR MEN

The total requirement in Physical Education and Hygiene for men is four credit hours as follows: physical activities, two hours each week, carrying one credit hour each Quarter, is required during the three Quarters of the first year; Hygiene, one hour each week carrying one credit hour, is required during one Quarter of the first year.

#### REQUIREMENT FOR WOMEN

The total requirement in Physical Education and Hygiene for women is seven credit hours as follows: physical activities, two hours each week, carrying one credit hour for three Quarters, and Hygiene, one hour each week, carrying one credit hour for one Quarter, are required during the first year; physical activities, three hours each week, carrying one credit hour for three Quarters, are required during the second year.

## FEEES

### PAYMENT OF FEES

All bills for the Quarter, laboratory deposits, and fees required from students must be paid to the Bursar each Quarter previous to, and as a condition of registration. Students are not permitted to enter classes unless their fees have been paid. Instructors shall not permit students to engage in laboratory work unless first shown a receipt from the Bursar for deposits paid.

### PENALTY FOR LATE PAYMENT OF FEES

All fees must be paid by the close of the business day preceding the first day of recitations. For failure to comply with this requirement a penalty of \$5.00 for every succeeding day or fraction thereof will be imposed, except where the Dean of the college permits late registration and waives the penalty, but a penalty of \$5.00 for non-payment of fees will be imposed on such students if their fees are not paid by the close of the business day following registration.

A new student granted late registration is required to pay his fees within twenty-four hours of the date of his registration as certified by his Dean or Secretary, or the penalty will be imposed.

Students are cautioned against trying to register without the necessary money for fees.

### COST OF A YEAR'S WORK

One of the most perplexing questions that confronts a prospective student is what the course is going to cost him a year.

The total cost of a year's work—three Quarters, will depend considerably upon the course pursued. In some courses, such as chemistry, considerable material is used by the student, and this must be paid for by him. Engineering students must have a set of drawing instruments, which costs about \$25.00. The cost of books is an item which varies greatly with the course.

In order to furnish information, we have listed below an estimate of the average payments required by the University for the *Freshman year* and have estimated the cost for room and board at a safe price. These two items are sometimes reduced slightly where two students occupy the same room and where boarding clubs are economically managed. Fees to the University are paid at the beginning of each Quarter.

ESTIMATE OF NECESSARY EXPENSES OF THE AVERAGE STUDENT DURING HIS FIRST YEAR

	Agriculture	Arts Commerce Education	Engineering	Pharmacy	Veterinary Medicine	Dentistry	Law	Medicine
Matriculation Fee (paid only once).....	\$15	\$15	\$15	\$15	\$15	\$15	\$15	\$15
Incidental Fee (\$20 each Quarter).....	60	60	60	60	60	...	...	...
Tuition Fee, including laboratory deposit.....	...	...	...	...	...	150	105	219
*Books and Instruments.....	30	30	50	15	30	150	40	195
Ohio Union (men), Women's Union (women) (\$1 each Quarter)....	3	3	3	3	3	3	3	3
Activities and Medical Service Laboratory Fee (\$2 each Quarter)...	6	6	6	6	6	6	6	6
Library Laboratory Fee (\$1 each Quarter).....	3	3	3	3	3	3	3	3
Physical Education Laboratory Fee (\$2 each Quarter).....	6	6	6	6	6	...	...	...
Laboratory Deposits (returnable in part)..... (Deposits vary according to courses carried)	38	30	30	30	40	...	...	...
**Deposit to Cover Uniform (men only) approximately.....	25	25	25	25	...	...	...	...
***Board—Men (\$4.50 a week).....	\$162	\$162	\$162	\$162	\$162	\$162	\$162	\$162
Women (Dormitories) .....	180	180	180	180	180	180	180	180
***Room Rent—Men (\$10.00 a month).....	\$ 90	\$ 90	\$ 90	\$ 90	\$ 90	\$ 90	\$ 90	\$ 90
Women (Dormitories) .....	117	117	117	117	117	117	117	117
Total—(Residents of Ohio) Men.....	\$438	\$430	\$450	\$415	\$415	\$579	\$424	\$693
(Residents of Ohio) Women.....	458	450	470	435	460	624	469	738

*Non-Resident Fee*—Every student who is not a legal resident of the State of Ohio is required to pay in addition to the incidental fee above a non-resident fee of \$50 each Quarter. See Non-Resident Rule, page 16, of this Bulletin.

*\*Books and Instruments*—The books and instruments required in the professional colleges are such as are of practical use in professional practice after graduation.

*\*\*Refund on Uniform Deposit*—The Federal Government repays to the student nine dollars at the end of the Freshman year and nine dollars at the end of the Sophomore year. Hence the net cost of the uniform to the student is approximately seven dollars for two years.

*\*\*\*The cost of Board and Room* as well as some items of general expenses, for example laundry, is always subject to the personal habits of the individual, and varies according to the degree of economy exercised.

Graduate students desiring information on expenses and fees are referred to the Bulletin of the Graduate School.

NOTE: In order to meet all the necessary expenses of registration, deposit for uniform, books, and other expenditures incident to securing a room and board, a student should come prepared to spend from \$75 to \$100 during the first ten days of a Quarter. After that period, his board and room rent will constitute the major part of his expenses.

## NON-RESIDENT FEE

Every student who is not a legal resident of the State of Ohio is required to pay a non-resident fee of \$50.00 each Quarter (or \$25.00 each term of the Summer Quarter) of his residence in the University in addition to other University fees. The burden of registering under proper residence is placed upon the student. If there is any possible question of his right to legal residence the matter should be brought to the attention of the Registrar and passed upon, previous to registration or the payment of fees. Any student who registers improperly under this rule shall be required to pay not only the non-resident fee but shall be assessed a penalty of \$10.00. Students who do not pay this fee within thirty days after they have been notified that the non-resident fee has been assessed against them, will have their registration in the University cancelled.

No person shall be considered eligible to register in the University as a resident of the State of Ohio unless he has been a *bona fide* resident in the State twelve consecutive months next preceding the date of his original enrollment, and no person shall be considered to have gained or lost a residence in this State for the purpose of registering in the University by any conduct of his own while he is a student in the University, unless after attendance at the University for one year it can be clearly established by the student that his previous legal residence has been abandoned and a new one established in Ohio for purposes other than merely attending the University; but persons whose legal residence follows that of other persons, as hereinafter provided, shall be considered to have gained or lost legal residence in this State for such purpose while students in the University according to changes of legal residence of such other persons, except that such legal residence shall not be considered to be so gained until twelve months after such other person becomes a legal resident of this State.

**MINORS:** The residence of minors shall follow that of the legal guardian, regardless of emancipation but in case a resident of Ohio is appointed guardian of a non-resident minor, the legal residence of such minor for the purpose of this rule shall not be considered to be established in the State of Ohio, until the expiration of twelve months after such appointment.

**WIVES:** The residence of wives shall follow that of husbands.

**ALIENS:** Aliens who have taken out first citizenship papers and who have been residents of Ohio for twelve months next preceding the date of their original enrollment in the University, shall be regarded as eligible for registration as residents of Ohio.

## TEXTBOOKS

**Textbooks.** Students should not purchase textbooks until they are advised by the instructors of their respective classes.

## LIVING ARRANGEMENTS

The President of the University has the authority to supervise living arrangements of students not residents of the city of Columbus and to order the immediate withdrawal of any student from any boarding or lodging house in which the surroundings are undesirable.

### ROOMS AND BOARD FOR MEN

The University possesses only two dormitories for men, the Tower Club and the Buckeye Club. Furnished rooms can be obtained at prices varying from \$7.00 to \$15.00 a month (single) and \$10.00 to \$20.00 (double). The cost of the table board in the clubs and restaurants near the University is from \$4.00 to \$6.00 a week. Board can be secured at the Ohio Union at reasonable prices.

Board with furnished rooms can be obtained in private families within convenient distance from the University at rates varying around \$7.00 a week.

### MEN'S DORMITORIES

The Tower Club and the Buckeye Club were organized for men who are in great need of financial assistance.

Applicants with unusually good records in the high school and advanced students who have made unusually good records in college are eligible for consideration.

The Clubs are run on a cooperative dormitory plan with very simple accommodations. The Club fee is \$1.00 a Quarter for each man. Board is available at approximately \$2.90 a week.

Applications should be sent to B. L. Stradley, University Examiner.

## MEN'S HOUSING BUREAU

The absence of dormitories for men at The Ohio State University, with the exception of the Tower Club and the Buckeye Club, causes the men students to reside in private rooming houses in the University district. In order to assist the students (especially those entering for the first time) in finding desirable rooms at the greatest saving, the University has created the Men's Housing Bureau, located in the office of the Dean of Men, first floor, Administration Building.

Classified lists of rooms available for every student and for any number of students are always available at this office. Boarding houses are likewise listed.

If the student signs the "Rooming House Agreement" he shall be expected to be responsible for the rental price of the room as specified in the agreement, unless he can present satisfactory reasons to the Men's Housing Bureau for moving out before the expiration of that period, or unless he can secure a satisfactory substitute. If he moves out before the expiration of the Quarter without presenting a satisfactory excuse he shall forfeit one month's rent. The signing of such agreement is optional.

*The University warns students not to rent rooms which have not been placed on the approved list by the Men's Housing Bureau. Anyone renting a room which is not on the approved list does so at his own risk.*

## WOMEN STUDENTS

Every woman student, whether undergraduate or graduate, must register with the Dean of Women at her office in Pomerene Hall during the first four days of each Quarter. The exact dates of registration will be fully announced each Quarter.

*NOTE: A penalty of \$5.00 will be assessed for failure to comply with this rule.*

## LIVING ARRANGEMENTS FOR WOMEN

All living arrangements for women are under the supervision of the Dean of Women and must be submitted to her before completion. Students wishing to make living arrangements should write to the Dean of Women who will send full information as to the various plans.

*Under the rules of the Faculty, all Freshman women are expected to room and board in the University Residence Halls.*

Students other than Freshmen may live in University operated residence halls, in privately operated residence halls, in University houses, in sorority houses, in private homes working for room and board, or in residences with relatives.

## UNIVERSITY RESIDENCE HALLS FOR WOMEN

The University has three modern Residence Halls under its jurisdiction, Oxley, Mack, and Neil Halls. All three Halls are governed by student government with the advice and supervision of the House Superintendent. Booklets describing these residence halls will be sent upon request to the Superintendent. Students living in these residence halls shall not change to an outside residence at any time during the year without the previous consent of the Dean of Women.

## PRIVATELY OPERATED RESIDENCE HALLS AND UNIVERSITY HOUSES FOR WOMEN

Westminster Hall, 52 Fifteenth Avenue, under the supervision of the Presbyterian Church and St. Hilda's Hall, 169 West Eleventh Avenue, under the supervision of the Episcopal Church are open as places of residence to women students. Booklets describing Westminster Hall and St. Hilda's Hall will be sent upon request to the Superintendents. There are also about twenty-five University Houses, privately owned and operated, under the supervision of the Dean of Women. Full information and prices may be obtained upon request to the Dean of Women.

## PART-TIME EMPLOYMENT

### FOR MEN

*The University cannot promise work to students who expect to work their way through college. Many students find work in private families, in offices, and in various occupations, by means of which they defray a portion of their expenses. A person of ability and energy who is master of a trade, or who can do good work of any kind, can generally find employment, but prospective students are cautioned against depending wholly upon such uncertain sources of income.*

*Students should understand that where they attempt entire or partial self-support they should lengthen the term of study by applying for a part-time schedule. Special arrangement of class hours to accommodate a student's outside work is not possible. All outside work should be arranged with due regard to University obligations and classes which may occupy the Saturday morning hours as well as the late afternoon hours.*

An employment bureau is maintained by the Ohio Union, where the names of those seeking work and of those desiring workers are recorded. Students desiring work should apply to the Employment Secretary, Room 6, Ohio Union.

### FOR WOMEN

Approximately twenty per cent of the women students earn a part of their university expenses either by part-time employment during the college year or by full-time employment during the summers. Counsel and cooperation in seeking such opportunities is heartily rendered by the office of the Dean of Women in Pomerene Hall.

Comparatively few students, however, can successfully carry on a full schedule of courses and at the same time earn any large proportion of their expenses. The schedule should be reduced to fit the student's limited time for study and recreation. New students should on entering come with sufficient funds to meet all expenses until they have had time to become adjusted and to demonstrate their caliber as students. Even then they should not count too confidently on profitable work. As a rule students seeking employment outnumber opportunities for employment. In many cases a student receives her room or room and board for her services and is not given any money compensation.

Students who must plan to earn during the college year should ask the Dean of Women's office for advice well ahead of the time that their schedule of courses must be made out. Otherwise they may find themselves in difficulty.

*Special arrangement of class hours to accommodate a student's outside work is not possible. All outside work should be arranged with due regard to University obligations and classes which may occupy the Saturday morning hours as well as the late afternoon hours.*
