LETTERS TO THE HOT FLASH MAN

Hot Flash Man,

Doesn't anyone have pride enough to put our flag up, or don't we have one,

A.Veteran

A.Veteran:

I have been wondering about that myself. Only the other day one of my friends was looking at the flagpole to see who made it while I was commenting where is the flag at. I suspect one could put a flag up there and nobody would notice that it was there. In any case, I am sure one could take the liberty of putting an American flag on the pole.

Hot Flash Man

P.S.: I UNDERSTAND THE FLAGPOLE IS BROKEN!

DEAR HFM:

Why does the Camp-Com no longer attempt to "blacken the leaves" (Such as they are) of this educational institution's grounds?

Anon.

Dear Anon:

If somebody really wants to put the Camp-Com to good use, he should see about running the thing. Nothing is ever done, unless people stop sitting around, doing nothing. For this reason the HFM announces that he will read the Hot Flash over the air for the benefit of those people who want to do something with the Camp-Com. Maybe we should change the name of Camp-Com to WHFM? or maybe KHFM?

Hot Flash Man
