In this Issue
Geometry between the Folds
The Mathematics of the Monarchs: Enriching the Butterfly Projects
Building Scale Models of D.C. Memorials
Using Mathematics to Design Costumes: Hat Making
And More…

A Publication of the Ohio Council of Teachers of Mathematics
www.ohioctm.org
25 years of Experience Embedding Mathematical Thinking in Course Materials

Preview the Core Connections curriculum:

- View tables of contents and sample chapters at the website.
- Register to preview eBook versions of the courses at the website.
- Request a DVD with PDF copies of all of the course teacher editions. Send a mailing address to samples@cpm.org.

www.cpm.org

CPM offers:

- CCSS-aligned courses and mentoring for 6th grade through Algebra 2/Integrated III (two high school pathways)
- Student-centered lessons engage students in structured explorations and mathematical dialogues while they work in student study teams
- Research and standards-based:
  -- Problem-based lessons that develop conceptual understanding
  -- Student study teams that use cooperative problem-solving strategies
  -- Mixed, spaced practice that supports long-term retention of skills, concepts, understanding and mathematical thinking
- Professional development (part of each adoption) conducted by CPM mentor teachers that supports local teachers through the transition period
- Join Ohio schools as well as teachers in 40 other states that use CPM
Ohio Journal of School Mathematics Call for Manuscripts

The Ohio Journal of School Mathematics is the journal of the Ohio Council of Teachers of Mathematics. It is intended to be a medium for teachers from elementary to college level to present their ideas and beliefs about the teaching and learning of mathematics. Mathematics educators at all levels are encouraged to submit manuscripts for upcoming issues of the Journal. Although research studies are not emphasized in the Journal, practical application of research implications is appropriate.

GUIDELINES FOR MANUSCRIPTS and ACTIVITIES
Manuscripts should be double-spaced with one-inch margins, 11-point Times New Roman font, and a maximum of 8 pages. References should be listed at the end of the manuscript in APA style. Please include appropriate information such as author, journal or book title, publisher, date, and pages.

Original figures, tables, and graphs should appear embedded in the document. Please do not use text boxes, footnotes, or head-notes.

Only an electronic copy is required. The electronic copy may be in Word. The electronic copy should be submitted via an email attachment to elaughba@math.ohio-state.edu. Author name, work address, telephone number, fax, and email address must appear on the cover sheet. No author identification should appear on manuscripts after the cover sheet. (The editors of the Ohio Journal of School Mathematics use a blind review process for manuscripts. Classroom activities are not peer reviewed, but undergo a rigorous revision process in consultation with the editors.)

Submit manuscripts to Ohio Journal of School Mathematics, Journal Editor.

The article content of the Ohio Journal of School Mathematics does not necessarily represent the views of the Ohio Council, and all opinions expressed therein are those of the authors.

Join us in Cleveland for the 64th Annual Conference of the Ohio Council of Teachers of Mathematics

OCTM 2014
PARCC IT IN CLEVELAND
PRACTICES / ASSESSMENT / RESEARCH / COMMON CORE

NOV 5–7

FEATURING:
More than 150 sessions and workshops
Two full days of exhibits in the Exhibit Hall
Keynote Speaker Phil Daro Wednesday night
And more... Don't miss out!
More information will be available in the coming months.

Cleveland Convention Center
& Hyatt Regency Cleveland at the Arcade
Cleveland, Ohio
