WHAT DID YOU LEARN
I learned what it was like to work a typical 9-5 type of work day and how to get into a full-time working type of rhythm. Additionally, I learned how to navigate a new city and new country on my own. Of course I also learned what a job in marketing could potentially look like.

HOW DID YOUR EXPERIENCE IMPACT YOU PERSONALLY?
Through this internship experience, I have gained great working skills and confidence along with a more global outlook on business to bring into any future career. Additionally, I have found more independence and fearlessness in my life. This transformational experience will help me to find success in anything I decide to do in the future.

HOW DID YOU LEARN
I learned what it was like to work a typical 9-5 type of work day and how to get into a full-time working type of rhythm. Additionally, I learned how to navigate a new city and new country on my own. Of course I also learned what a job in marketing could potentially look like.

HOW DID YOUR EXPERIENCE IMPACT YOUR ACADEMIC, PERSONAL, AND LIFE GOALS MOVING FORWARD?
My internship helped me to take what I had learned in my classes at Fisher and apply it in real life. I was able to personally gain confidence in my capabilities in a business environment. As a result of working in Australia, I have expanded my view of the world, I am now well equipped to move forward in my career with a global business perspective.

FAVORITE PART OF YOUR EXPERIENCE
My favorite part was exploring a new country and seeing all that Australia had to offer. I hiked numerous national parks and rainforests, cliff jumped, bungee jumped in Queensland, and saw sharks and sea turtles while snorkeling and scuba diving in the Great Barrier Reef. Australia is an incredible country, and Sydney is amazing. This journey made me itch to travel even more than before.
