Permission to copy is granted to teachers for instructional use when the material is to be distributed free of charge or at cost only, to librarians who wish to place a limited number of copies on reserve, and to other professional journals. In all such instances, due credit must be given to the author(s) and to the *Ohio Journal of School Mathematics*. A copy of the document using Journal
3 Editorial: Neural Associations through Mathematical and Contextual Connections
   Ed Laughbaum, The Ohio State University

8 Using Algebra Fact Families to Solve Equations
   Martin V. Bonsangue, Gerald E. Gannon, Kathy Lewis, California State University, Fullerton

15 Ohio Automobile License Plate Mathematics
   Vincent Fiordalis II, University School
   William Fiordalis, Lake Highland Preparatory School

21 Left and Right with a Graphing Calculator
   Alfinio Flores, Emily Gustafson, University of Delaware

25 Mathematics Curriculum for Students in Rural Areas
   Rick Anderson, Patti Jo Davis, Eastern Illinois University

31 Breaking the Curve
   Amanda Dahlman, Jesse DePinto, Kyle Kremer, & Joe Plattenburg, Kettering Fairmont High School

36 How “Smart” is the Interactive Whiteboard for Ohio Mathematics Teachers?
   Alyssa M. Hoslar, Strongsville High School
   Daniel J. Brahier, Bowling Green State University

43 Analyzing Dollar Cost Averaging
   David R. Duncan & Bonnie H. Litwiller, University of Northern Iowa

46 From Guess and Check to Strategic Problem Solving (Mathematics Contest Corner)
   T. Michael Flick & Debora Kuchey, Xavier University

49 Get Ready, Get Set, Tessellate! (Activity)
   Michael Krach, Towson University

52 Function Transformation Primer (Activity)
   Ed Laughbaum, The Ohio State University
OHIO JOURNAL OF SCHOOL MATHEMATICS  
CALL FOR MANUSCRIPTS & ACTIVITIES

The Ohio Journal of School Mathematics is the journal of the Ohio Council of Teachers of Mathematics. It is intended to be a medium for teachers from elementary to college level to present their ideas and beliefs about the teaching and learning of mathematics. Mathematics educators at all levels are encouraged to submit manuscripts for upcoming issues of the Journal.

Although research studies are not emphasized in the Journal, practical application of research implications is appropriate.

GUIDELINES FOR MANUSCRIPTS

• Manuscripts should be double-spaced with one-inch margins, 11 point Times New Roman font, and a maximum of 8 pages. References should be listed at the end of the manuscript in APA style. Please include appropriate information such as author, journal or book title, publisher, date, and pages.

• Original figures, tables, and graphs should appear embedded in the document – both in the electronic and hard copy forms. Please do not use text boxes, footnotes, or head-notes.

• One hard copy and an electronic copy are required. The electronic copy may be in Word. The electronic copy should be submitted via an email attachment to elaughba@math.ohio-state.edu. Author name, work address, telephone number, fax, and email address must appear on the cover sheet. No author identification should appear on the manuscript after the cover sheet. (The editors of the Ohio Journal of School Mathematics use a blind review process.)

GUIDELINES FOR ACTIVITIES

We are accepting activities that help students understand mathematics, or activities that are designed to teach mathematics. This may imply conceptual or procedural understanding. The activities should be original to the author. Activities can be at any grade level, and should be in final form. Use one-inch margins, Times New Roman font, and a maximum of 4 pages.

Submit manuscripts or activities to Ohio Journal of School Mathematics, Journal Editor
