The *Ohio Journal of School Mathematics* is the journal of the Ohio Council of Teachers of Mathematics. It is intended to be a medium for teachers from elementary to college level to present their ideas and beliefs about the teaching and learning of mathematics. Mathematics educators at all levels are encouraged to submit manuscripts for upcoming issues of the Journal.

Although research studies are not emphasized in the Journal, practical application of research implications is appropriate.

**GUIDELINES FOR MANUSCRIPTS and ACTIVITIES**

Manuscripts should be double-spaced with one-inch margins, 11 point Times New Roman font, and a maximum of 8 pages. References should be listed at the end of the manuscript in APA style. Please include appropriate information such as author, journal or book title, publisher, date, and pages.

Original figures, tables, and graphs should appear embedded in the document – both in the electronic and hard copy forms. Please do not use text boxes, footnotes, or head-notes.

One hard copy and an electronic copy are required. The electronic copy may be in Word. The electronic copy should be submitted via an email attachment to elaughba@math.ohio-state.edu. Author name, work address, telephone number, fax, and email address must appear on the cover sheet. No author identification should appear on manuscripts after the cover sheet. (The editors of the *Ohio Journal of School Mathematics* use a blind review process for manuscripts. Classroom activities are not peer-reviewed but undergo a rigorous revision process in consultation with the editors).

Submit manuscripts to *Ohio Journal of School Mathematics*, Journal Editors.

The article content of the *Ohio Journal of School Mathematics* does not necessarily represent the views of the Ohio Council, and all opinions expressed therein are those of the authors.

About the Cover:
Image of algebra tiles used courtesy of Steve Phelps. Image of Voronoi Regions generated with GeoGebra, courtesy of Michael Todd Edwards. The “Tree of Mathematics” is used courtesy of Cassady Rhyan Edwards. Individuals interested in contributing cover art for future issues of the Journal are encouraged to submit graphics (.png or .tiff formats are preferrable) to Michael Todd Edwards at m.todd.edwards@muohio.edu.
2009-2010 BOARD OFFICERS

President, Kim Yoak

Fall 2010

5  If Mathematics Were a Color . . .
   S. Aslı Özgün-Koca, Wayne State University

11 Eratosthenes Meets the GPS
   Linda Cooper, Towson University

17 Maximizing the Area of a Sector With Fixed Perimeter
   James K. Adabor, Wright State University and Gregory D. Foley, Ohio University

24 Writing Mathematical Nursery Rhymes
   Terri Hrina-Treharn, Rootstown Elementary School

27 The Book as a Hook: Literature and Exponential Functions
   Gail Kaplan and Lynn Anne Rice, Towson University

32 The Middle Path
   Joseph Gerhardinger, Notre Dame Academy

40 Exploring Exponential Functions
   Gail Kaplan, Towson University

44 The Name Game: An Integer Activity
   R. Michael Krach, Towson University

45 Circular Table Seating: An Application of the Fundamental Principle of Counting
   David R. Duncan and Bonnie H. Litwiller, University of Northern Iowa

48 Those Darn Exponents: Fifty Challenging TrueFalse Questions
   Tim Tilton, Winton Woods City Schools

49 Graphing the Grand Canyon
   Taik H. Kim, Ohio State University - Marion

54 Contest Corner: Common Core Standards Emphasize Problem Solving
   Michael Flick and Debbie Kuchey, Xavier University
