

OHIO JOURNAL OF SCHOOL MATHEMATICS

Guidelines for manuscripts

1. Typewritten, double-spaced, 8.5 x 11 with one-inch margins, sources should be cited with footnotes.
2. Name, school, and preferred mailing address typed in right side of top margin on first page. Please include a home phone number, too.
3. Type "Regular editing" or "Double-blind" in left side of top margin. The former if you want Editors and Publication Committee members to referee your articles; the latter if you want the article (your name omitted) to be refereed by unnamed school and college colleagues.
4. Drawings in black ink.
5. Preference will be given to short (1-5 pages), well-written articles. Material should be directly useful to teachers. Standard research format is not appropriate - implications of research might be. Good time-fillers are always welcome. Interesting letters to the Editors may be used, perhaps with editing. Puzzles, games, recreations, and oddments will be fitted in when possible.
6. We are looking primarily for articles directed to teachers in grades K-12; secondarily, for material useful to math ed profs and math supervisors.

THE OHIO COUNCIL OF TEACHERS OF MATHEMATICS
