PLAN TO ATTEND—

The Sixtieth Annual Meeting of the Ohio Academy of Science

MIAMI UNIVERSITY,
OXFORD, OHIO
April 5, 6, 7, 1951

VISIT THE COMMERCIAL EXHIBITS

AMERICAN OPTICAL CO.
BAUSCH & LOMB OPTICAL CO.
GAMMA SCIENTIFIC CO.
GARDEN CITY INSTRUMENTS, INC.
GENERAL BIOLOGICAL SUPPLY HOUSE
D. C. HEATH & CO.
The KAUFFMAN-LATTIMER CO.

These companies will have their representatives at the Academy meetings to display and discuss their products.

They will welcome this opportunity to help you find the right materials for your individual needs in the classroom and laboratory.

Microscope Repairing . . . ALL TYPES
Authorized by American Optical Company

Binocular Repairing . . . ALL MAKES
Authorized by Leading Manufacturers

Binoculars For Sale
Authorized Bausch & Lomb Dealers

Pick-up and Delivery Service

R. H. Burton Company
2504 Sullivant Ave.
COLUMBUS, OHIO

# GOOD PRINTING

The Refuge of All the Arts against the Ravages of Time

HERE, in this shop for 93 years, our craftsmen have been preserving on the printed page, the works and discoveries of the educator and scientist. No job is too small, no job too difficult. Accents for all languages. Every word, every accent verified by proof.

**THE SPAHR & GLENN CO.**

Monotype Composition Exclusively

FIFTY EAST BROAD STREET, COLUMBUS 15, OHIO
FINE MICROSCOPE SLIDES
FOR CRITICAL BOTANISTS

Do your students actually see the structures they are studying under the microscope? TRIARCH slides are prepared with the student's needs in mind. Whole structures are sectioned as far as possible so as to avoid artifacts for the instructor to explain, even though this adds to our technical difficulties. Also, our quadruple stain makes it easier for the student to locate special structures.

You have no doubt furnished your students with the best microscopes available; do you also give them the best slides available? A poor slide nullifies the value of a good microscope.

Consider also the following TRIARCH specials:
1. Large selection of items.
2. One price to all patrons.
3. Accuracy, service and dependability.
4. All shipments on approval.
5. Over 500,000 slides sold since 1938.

For catalogs and special announcements write: GEO. H. CONANT, Ripon, Wise.

TRIARCH BOTANICAL PRODUCTS

SERVICE TO NATURAL SCIENCE EDUCATION

Ward's has never lost sight of its essential role as the "servant" of those engaged in that most exacting and idealistic of professions . . . teaching. For this reason, Ward's workers extend themselves to the utmost in tending the needs and purposes of each individual they serve. Hence the term, "Ward Quality" . . . exemplified in the informative bimonthly, Ward's Natural Science Bulletin. (Free to high school and college teachers of the natural sciences at their school address).

WARD'S NATURAL SCIENCE ESTABLISHMENT, Inc.
ROCHESTER 9, NEW YORK

NEW DEPENDABLE HEVI DUTY
ELECTRIC LABORATORY FURNACES
with many outstanding FEATURES

- Less Heat Loss
- More Uniform Temperature
- Multi-Step Control
- Pyrometer, Tap Switches and Transformer in One Pyramidal base
- Controls Operate at Practically Room Temperature

TYPE 0771A
TEMPERING FURNACE
FOR TEMPERATURES TO 1250° F.

COMPLETE WITH MOTOR DRIVEN FAN.
REMOVABLE ALLOY BAFFLE AND SHELVING.

Write for Bulletin LAB. 1049

MILWAUKEE 1, WISCONSIN
A New Text on PHYSICS Which Features
An Unusual MODERN Approach

ELEMENTS OF MODERN PHYSICS

By WALTER C. MICHELS, Bryn Mawr College, and
A. L. PATTERSON, Institute for Cancer Research and
Lankenau Hospital Research Institute, Philadelphia.

LEVEL AND DURATION OF THE COURSE—Designed for the freshman and sophomore years. Only prerequisite is three years of high school mathematics. DURATION—One year course, three hours per week (exclusive of laboratory).

MKS Units are used throughout to give a simplicity of treatment not possible with other systems.

Special relativity and wave-particle duality are successfully treated at the introductory level.

The basic ideas of atomic and nuclear structure are shown to be consequences of general physical reasoning.

A large number of exercises are included most of which are designed to require physical thinking on the part of the students rather than substitution in formulae.

659 pp. 6 x 9—Cloth—Illustrated, $6.50.

NEW...2nd EDITION WHITMORE'S ORGANIC CHEMISTRY

By The Late FRANK C. WHITMORE, Ph.D., Sc.D.
With the Assistance of Members of the Chemistry Department of The Pennsylvania State College, and Consultants from Industry

THIS REVISION represents a thorough reworking of the original book plus the addition of much new material. Revisions include:

• Bringing up to date thousands of compounds contained in the first edition and adding hundreds of new compounds.
• Special attention to the development of new, commercial processes for chemical synthesis such as Fischer, Tropsch and Ozo reactions—and to recent developments in the fields of polymerization, isomerization, terpenes, dyes, plastics, alkylation, resins, insecticides, antibiotics and other drugs.
• An enlarged and comprehensive index has been included patterned after the CHEMICAL ABSTRACTS style.
• Complete references are now included in the body of the text, and references are numbered consecutively within each major division of subject matter.

964 pp. 6 x 9—Cloth—Enlarged, Comprehensive Index. $9.00
