WHEN you compare the cost of printing, do you compare the cheap to the cheap, the good to the good, the finest to the finest?

If not, you are falling into an error all too common in a day when even the “hard-headed businessman” seems to have forgotten that you get what you pay for.

Quality for quality, from the cheapest to the finest, your Printing Dollar can buy no greater value than Monotype Printed by Letterpress.

Are you receiving your copy of our bulletin on new items for the laboratory?

A card giving your name and title will insure your receiving it.
NEW BOOKS READY FOR EXAMINATION

2nd EDITION
WHITMORE'S ORGANIC CHEMISTRY
By FRANK C. WHITMORE. A thoroughly revised edition. Revisions include: Bringing up to date thousands of compounds contained in the first edition and adding hundreds of new compounds—special attention to the development of new commercial processes for chemical synthesis—an enlarged and comprehensive index after the CHEMICAL ABSTRACTS style—complete references included in the body of the text. 961 pp., 6 x 9, cloth, College Edition, $9.00.

VOLUME II.—AGRICULTURAL CHEMISTRY
Edited by DONALD E. H. FREAR and titled APPLICATIONS OF AGRICULTURAL CHEMISTRY. Includes the work of 24 specialists, each an authority in his field. Covers chemical composition, soil chemistry, phytochemistry and all other basic sciences which contribute to the most effective application of chemical methods to agriculture. 900 pp., 6½ x 9½, Cloth, Illustrated, $9.50.

FUNCTIONAL MAMMALIAN ANATOMY
By WILLIAM T. TAYLOR and RICHARD J. WEBER. A dynamic, new work offering premedical and predental students adequate foundation for subsequent professional study. Many splendid illustrations (13 IN FULL COLOR). Designed for courses in mammalian anatomy, anatomy in nursing, physical education, health education, anatomy in veterinary medicine, preparatory courses for graduate work in anatomy. 544 pp., 6 x 9, Cloth, Illustrated, $7.25.

ELEMENTS OF WORLD GEOGRAPHY
By J. RILEY STAATS and GEORGE ELBERON HARDING. Designed to include the fundamental, basic knowledge required by schools with but one course in geography at college level—as well as to provide a basic understanding of geography which is requisite for studies in economic geography, physiography, geology and courses. For freshmen and sophomore classes. 378 pp., Illustrated, Cloth, $4.25.

If You Teach or Direct These Courses, MINISTRATION COPIES ARE AVAILABLE FOR YOU IN THE LIMITS OF THE CONTINENTAL U. S. A.
