Book Notice

The Ohio Journal of Science. v54 n3 (May, 1954), 174
http://hdl.handle.net/1811/4157

Downloaded from the Knowledge Bank, The Ohio State University's institutional repository

The book is meant as a text book for first year graduate students in mathematics or others at that level of mathematical facility. Its aim, as stated by the author: "...is to provide a connected introduction to the subjects of mathematical logic and recursive functions in particular, and to the newer foundational investigations in general." This book is also being published in Holland as a volume in Bibliotheca Mathematica.
