Oil and Gas Pipe Lines in Ohio. *State of Ohio Department of Natural Resources. Division of Geological Survey, 1207 Grandview Avenue, Columbus, Ohio 43212. 1968. Map in eight colors. scale 1:500,000. $2.28.*

The map, a revision of the 1955 edition, shows in color, on a large base map of Ohio, locations of gas pipe lines of 43 companies, with compressor stations, points of distribution, and the locations of 22 underground gas-storage areas. The lines of 21 oil companies, with pumping stations and refineries, are also shown. This revised and updated map will be welcomed by planners and developers, as well as by those in the oil and gas industry who are concerned with product transmission facilities.
