The Disability Studies Quarterly is published by the Society for Disability Studies. The Quarterly is a multidisciplinary and international journal of interest to social scientists, scholars in the humanities, disability rights advocates, and others concerned with the problems of people with disabilities. The purpose of the Quarterly is to provide a place where people from diverse backgrounds can share ideas and to engage in dialogues that cut across disciplinary backgrounds and substantive concerns. The Quarterly is committed to developing theoretical and practical knowledge about disability and to promoting the full and equal participation of persons with disabilities in society. Disability Studies Quarterly is published four times a year. Each volume is the same as a calendar year. Although the Quarterly is a publication of the Society for Disability Studies, the subscription price for the Quarterly is not included in the dues for the Society. However, members of the Society are entitled to a reduced rate. The cost of a one year subscription can be found at the end of this volume. All subscription correspondence must be sent to the national office of the Society: Society for Disability Studies, c/o Professor Carol Gill, Department of Disability and Human Development, University of Illinois at Chicago (MC 626), 1640 Roosevelt Road #236, Chicago, IL 60608-6904.
