## Metallurgical Engineering

All graduates of the Metallurgical Engineering Department are now in positions. Alvin C. Hoffman, '21, who was formerly with the Harrop Ceramic Service Co. of Columbus, Ohio, has followed Thurston Shook, also of the class of '21, in accepting a position with the British Ceramic Service Co. at Glasgow, Scotland.

James R. Blanchard, '31, is with the Batelle Memorial Institute in Columbus, Ohio.

Robert A. Blackburn, '33, has won a fellowship in the University of Washington (Seattle, Washington),

Clifford Carlson, '29, is now with the Wheeling Steel Corporation in Wheeling, West Virginia.

E. H. Dick has remained at Ohio State University as graduate assistant in the Department of Mineralogy.

Clarence W. Fabel, '30, is now with the Erie Bolt and Nut Company, of Erie, Pa.

Fred Clinton Hart, '31, is located with the Carnegie Steel Co. at Duquesne, Pa.

Earl Kirk, '31, who had remained here as graduate assistant during the year 1931-32 on the N. W. Lord Fellowship, has accepted a position with the American Rolling Mill Co. at Butler, Pa.

David C. Ladd, '33, has been located with the Republic Steel Corporation at Massillon, Ohio.

Andrew Kazimer, '31, is with the Anaconda Zinc Oxide Co. at Akron, Ohio.

William V. Lashly, '31, is working for the Illinois Steel Co. at Gary, Indiana.

R. H. Myers, '30, has been employed by the American Rolling Mills Co. at Ashland, Ky.

Harold L. Rekart, '33, has been placed with the Detroit Equipment Co. of Circleville, Ohio.

Paul Sammet, '32, has also been employed by the American Rolling Mills Co. at Ashland, Ky.

J. W. Shaw, '32, is employed in the gas and steam department of the National Tube Co. at Lorain, Ohio.

Laurence E. Trishman, '33, who received his master's degree at the Ohio State University this last summer, has remained here as graduate assistant.

Ernest J. Teichert, '31, is working in the Aliquippa Works of the Jones-Laughton Steel Co., located at Aliquippa, Pa.

C. C. Tiffany, '33, has been temporarily employed in Syracuse, N. Y., by the N. Y. Central Railway Company.

L. K. Schultheis, '33, is working on the construction of a dam near Marietta, Ohio.

F. B. Moore, '32, is at Lucien, Oklahoma, working for the Shell Petroleum Company. His company has recently built a \$60,000 dam to store up water for drilling purposes, but up to several weeks ago there had been no rain to make the project worth while.

Raymond Whitzel, '13, who was formerly an assistant here, is now manager of the U. S. Aluminum Co. in New York City. At the present time his plant is engaged in rolling eye beams and other parts from aluminum alloys which are to be used for the Smithfield bridge across the Monongahela River at Pittsburgh.
