GENTLE READER,

As you well know the Winter and Spring 1997 issues of Disability Studies Quarterly are quite late in being published. In part it was due to funding problems (now largely solved) and in part due to the move from Boston to Honolulu. So many little things failed to go right that it took too long to bring the two issues to the point of publication. However, the process is now in place and should work well. The only casualty is the format which was used for the Fall 1996 issue. For 1997 the Quarterly will be published in the old size. It is hoped that in 1998 we can use the new format, but no promises.

Thank you for your patience. The Summer and Fall 1997 issues should be published shortly and sent to you.
