TWO CENTS *from* *the Editor*

Hello . . .

to our new President, Mr. Bevis. We take this opportunity to welcome him on behalf of the Engineering College in general and the staff of the Ohio State Engineer in particular. We wish him success.

Having nothing more to say, the editor is going to inaugurate an entirely new principle by not saying any more. He feels duty bound, however, to remind readers of the gradual approach of Engineers' Day, and submits these suggestions, from the 1936 fracas, of what can be done.
