

MEETING OF THE BIOLOGICAL CLUB.

The Biological Club met in Zoological lecture room on the evening of April 1, 1901. Professor Osborn presided.

Professor Schaffner reviewed a paper entitled *Zur Kenntniss der Zelltheilung bei Myriopoden*, published in *Archiv fur Mikroskopische Anatomie*.

Dr. Morrey spoke on the subject, "Two years in Europe as a Student." Most of the time was spent at the University of Vienna, although the University at Zurich and the Pasteur Institute at Paris were each attended for a short term.

The University of Vienna ranks among the first in the advantages offered to medical students. The hospitals of the city are noteworthy on account of the large number of cases and the great variety of diseases treated. The numerous holidays observed in Vienna seriously interrupt college work. Hardly a week passes in which there is not one or more holidays on which work is wholly suspended.

The speaker placed on the exhibition table a fine series of photographs procured during his stay abroad. These furnished a treat for those present after the regular program was completed.

JAS. S. HINE, Secretary.
