

Session	Session 7 Paper B
Name	Katharine Wright
Organisation	Nuffield Council on Bioethics
Country	United Kingdom
Title of presentation	The Nuffield Council on Bioethics: Contributing to debate on the ethical conduct of research in global health emergencies
Abstract	This presentation describes the Nuffield Council on Bioethics and its remit. It works on specific projects to analyse topics in bioethics and produce recommendations. A current project was triggered by the Ebola outbreak of 2014-2016 and is focused on the ethical issues with Research in Global Health Emergencies. Its progress to date will be discussed, including the four emerging themes identified to date.
