ENGINEERS' COUNCIL

Editor's Note—Read the article "The Engineer Goes to a Prom" in this issue to get the complete detail of the activities of this group in sponsoring the Prom.

Flush from the stimulating as well as exhausting victory in the successful staging of the annual Engineers' Prom, the Engineers' Council began to plan for the Engineers' Day tentatively dated as either May 10 and 11 or May 17 and 18. The Council advises the departments and engineering societies to begin preparations for this event. A parade of floats and the departments' exhibits and demonstrations will constitute a major portion of the activities. The Council will present cups and awards to the organizations which produce the best floats.

A letter of gratitude and offer of service to the Council during Engineers' Day was received from Texnikoi Fraternity.
