NEW YORK, U.S.A.

This company has recently produced a new style of unglazed floor tiling in elegant designs and attractive coloring, which is designated by the name and trade mark of "Alhambra."

The material from which this tile is made is vitreous or melted; therefore it is non-absorbent and will not stain. The Alhambra tile is easily cleaned and will keep their original surface and freshness of color forever. Our new and beautiful designs for wainscoting and art tiles excite admiration wherever shown, and in standard line of wall and floor tiling, we are constantly getting out new colors, so as not only to be up to, but ahead of the times. The floor on the Ohio Pavilion in the Mining Building at the World's Columbian Exposition was laid with Alhambra Tiles. An award for excellence and superiority was granted on these tiles.
