

Author's Instructions for Preparation of Manuscripts

The Ohio Journal of Science considers for publication solicited **Book Reviews** and **Research Reviews**, and unsolicited **Brief Notes** and **Research Reports**. Solicited submissions will be requested by the editor or member of the editorial board. Book reviews will be requested of experts in the subject matter of the book to be reviewed. Research Reviews will be requested to serve as extensive surveys of the literature of an area of science in which Academy members have an interest.

Unsolicited submissions, in the form of presentations of quantitative or qualitative data pertinent to any of the divisions of the Academy listed inside the front cover, will be considered for peer review. Brief notes are manuscripts that are less than 2 printed pages (approximately 6 typed pages) and contain no more than one table, figure or other type of illustration. The editor will identify papers which meet these criteria as Brief Notes if not already categorized as such by the author. Research Reports are those papers which are longer than 2 pages or contain more than one illustration.

All manuscripts will be organized as follows:

Page 1 - Title, Author(s), Running Head, Abstract

Page 2 and remainder -

Introduction,
Materials and Methods,
Results,
Discussion,
Acknowledgments,
Literature Cited,
Tables, Figure Legends,
Figures.

STYLE. *The CBE Manual for Authors, Editors, and Publishers*, 6th ed. is used for editorial decisions with regard to style. Manuscripts should be typewritten using 1 inch margins on 8.5 x 11 inch paper. Text should be left-justified using elite print (twelve characters per inch). One copy should be submitted. Manuscript should be double-spaced throughout, including the title and abstract. Arabic numerals should be used in preference to words when the number designates anything that can be counted or measured (7 samples, 43 species). One exception to this use is that numerals are not used to begin a sentence (Twenty-one species were found in . . .). The 2nd exception is when 2 numeric expressions are adjacent in a sentence. The number easiest to express in words should be spelled out and the other left in numeric form (The sections were divided into eight 4-acre plots).

TITLE, AUTHOR(S), AFFILIATION(S). The first page of the manuscript should contain the title, author(s) name(s), the affiliation of the author(s) at the time the research was carried out, a shortened title (running head), and the abstract. The title must be typed in upper and lower case letters as it will appear when typeset. Name(s) of the author(s) should be typed in capital letters below the title. The address (department, institution, city, state, postal code, country if not USA) should appear below the name of the author(s). If more than one institution is to be credited, they should appear in the order of the authors' affiliation. A running head of not more than 38 letters and spaces should be typed in capital letters between the address and the abstract.

ABSTRACT. The abstract should summarize the main conclusions and any new methods or procedures critical to the results of the study. It should be 250 words or fewer.

INTRODUCTION. The introduction should describe the knowledge that gave rise to the question examined by, or the hypothesis posed for the research.

MATERIALS AND METHODS. This section should describe the research design, the methods and materials used in the research (subjects, their selection, equipment, laboratory or field procedures), and how the findings were analyzed.

RESULTS. The text of the results should be a descriptive narrative of the main findings, of the reported study. This section should not list tabulated data in text form. Reference to tables and figures included in this section should be made parenthetically in the text.

DISCUSSION. This section should compare and contrast the data collected in the presented study with that previously reported in the literature. Unless there are specific reasons to combine the two, as explained by the author in the letter of transmittal, Results and Discussion should be two separate sections.

ACKNOWLEDGMENTS. Colleagues and/or sources of financial support to whom thanks are due for assistance rendered in completion

of the research or preparation of the manuscript should be recognized in this section rather than in the body of the text.

LITERATURE CITED. References to scientific literature should be arranged alphabetically by first author's last name using the Name/Year (N-Y) method as described in the *CBE Manual*.

Journals

Author(s). Year. Article title. *Journal title* volume number (issue number): inclusive pages.

Thomison JB. 1988. Uniform requirements for manuscripts. *South Med J* 81(8):947-52.

Form of citation: (Thomison 1988)

Books

Author(s). Year. Title. Place of publication: publisher name. Number of pages.

Voet D, Voet JG. 1990. Biochemistry. New York: J Wiley. 1223 p.

Form of citation: (Voet and Voet 1990)

Multiple author citation: (Steiner and others 1992)

TABLES. Tables must be typed double-spaced, one table to a page, numbered consecutively, and placed in the manuscript after Literature Cited. Since tables must be individually typeset, consolidation of data into the smallest number of tables is encouraged. A horizontal double underline should be made beneath the title of the table, and single underlines should be made the width of the table below the column headings and at the bottom of the table. Do not use vertical lines, and do not place horizontal lines in the interior of the table. Footnotes should be used to clarify possible questions within the table, and should be noted by asterisks, daggers, or other symbols to avoid confusion with numerical data.

FIGURES. All illustrations are referred to as "Figures" and must be numbered consecutively. Figures may be photographs, hand-drawn or computer generated drawings in black ink. Each figure should be identified along the top edge with the name of the author(s) and figure number, and on the back with name of author(s) and manuscript title. Illustrations other than those generated by the author(s) must bear permission for use and credit to the originator. ORIGINAL ARTWORK WILL NOT BE RETURNED UNLESS SPECIFICALLY REQUESTED AT TIME OF SUBMISSION. Each figure must have a complete legend. The legend should not be placed on the figure, but should be typed in order, double-spaced, on a separate sheet which precedes the figures in the manuscript. Figures should be referred to parenthetically in the text, for example (Fig. 1). The size and proportion of each illustration should be suitable for reduction. Excessive white space should be avoided. Illustrations will be reduced to one column width (3 and 3/8 inches) or two column width (7 inches) at the discretion of the editor. Lettering should be done of a size to ensure that it can be read after reduction. On maps and other illustrations where original size is a concern, a graphic scale should be incorporated into the figure.

FOOTNOTES. Text footnotes **should not be used** with the following exceptions. A footnote to the title will be added editorially to state the dates of manuscript submission and revision. A footnote to name(s) of author(s) may be used to indicate present address different from that at which the research was done, or to indicate the author to whom inquiries should be directed. All other material or comments must be incorporated into the text. Literature Cited should not be inserted as footnotes. Footnotes to tables are permissible, and are encouraged to promote clarity.

Attention to the above instructions will minimize the need for revision and editorial correction, and will shorten the time from submission to publication. Any questions which are not answered by these instructions, or by consulting the *CBE Manual for Authors, Editors, and Publishers*, 6th Edition, should be addressed to the editor.

After consulting the manuscript preparation guidelines at <http://www.ohiosci.org/ojsinstr.htm>, please submit all materials to:

Manuscript Processing
The Ohio Journal of Science
1500 W Third Ave Ste 228
Columbus OH 43212-2817

STONE LABORATORY

The Ohio State University's Island Campus on Lake Erie

EXPLORE SCIENCE

and discover yourself.

Classes Still Available

STONE LAB'S SUMMER 2007 COURSE OFFERINGS

Introductory Courses

Open to college and advanced high school students. To qualify, high school students must have completed their sophomore year, be 15 years of age or older, and have completed one course of high school biology prior to the start of the course.

1-week courses, 3 quarter-credits

- **EEOB 110:** Introduction to Local Flora (July 8-14)
- **EEOB 125:** Introduction to Aquatic Biology (July 1-7, July 22-28, July 29-Aug 4)
- **EEOB 126:** Introduction to the Study of Birds (June 10-16)
- **EDU PAES 140.07:** Lake Erie Sport Fishing (June 10-16)
- **ENTOMOL 126:** Introductory Insect Biology (June 17-23)
- **GEOL SCI 107:** Field-Based Introduction to Oceanography (June 24-30)

Upper-Level Courses

Open to undergraduate and graduate students, and biology and general science teachers.

- **EEOB 513:** Field Ecology, 3 credits (Aug 5-11)
- **EEOB 692:** Ichthyoplankton Identification Workshop, 1 credit (1 day, June 24)
- **EEOB 694:** Field Herpetology, 3 credits (June 10-16)
- **EEOB 694:** Spider Biology, 3 credits (July 8-14)
- **ENR 694:** Experimental Design in Ecology & Natural Resources Management, 5 credits (2 weeks, July 22-Aug 3)
- **ENR 799:** Current Topics in Environment & Engineering, 1 credit, (Thur. evening seminar, June 14-July 12 & July 26-Aug 9)
- **PLNT PTH 685:** Diagnostic Field Plant Pathology, 3 credits, (Aug 12-22)

5-week courses, 5 quarter-credits

- **EEOB 400:** Evolution (June 17-July 18)
- **EEOB 413.03:** Introduction to Ecology (June 17-July 18)
- **EEOB 621:** Ichthyology (June 17-July 18)
- **EEOB 651:** Field Zoology (June 17-July 18)
- **EEOB 652:** Limnology (July 19-Aug 18)
- **EEOB 653:** Fish Ecology (July 19-Aug 18)
- **ENTOMOL 612:** Aquatic Entomology (July 19-Aug 18)

Science Education Courses

For classroom teachers and education majors with a junior rank or above by summer 2007.

1-week courses, 3 quarter-credits

- **EEOB 511:** Local Flora for Teachers (July 29-Aug 4)
- **EEOB 513:** Field Ecology (Aug 5-11)
- **EEOB 522:** Ornithology for Teachers (June 24-30)
- **EEOB 785:** Stream Ecology for Teachers (July 8-14)
- **ENR 611:** Great Lakes Education Workshop (June 10-16)
- **ENR 614:** Marine and Aquatic Education (June 17-23)
- **ENR 690:** Global Change Education (Aug 5-11)
- **ENTOMOL 520:** Insect Biology for Teachers (July 22-28)
- **GEOL SCI 583.03:** Geologic Setting of Lake Erie (July 14-20)
- **GEOL SCI 584:** Principles of Oceanography for Educators (July 1-7)

Non-Credit Workshops

- **Lake Erie Islands Photography Workshop** (digital camera required) (June 8-10)
- **Lake Erie Sport Fishing Workshop** (June 8-10)
