ADVISORY BOARD

DEAN E. A. HITCHCOCK

ASST. PROF. SADA HARBARGER

PROF. JOHN YOUNGER

Managing Board and one Representative from Each Departmental Student Society

FINIS

ANOTHER year draws to a close and another staff prepares to take over the work of the OHIO STATE ENGINEER. Their ambitions are high and their aspirations in the clouds, and so they should be. Many chances for improvement exist, and many further opportunities for service to the students and to the college are present. During the past year some changes have been made in the magazine. We hope they have been for the better, as they were intended. Many disappointments have been suffered but much has been learned.

The thought presents itself that, given our chance at the editorship for another year, we should be able to do a much better job than was done in the past year. Then comes the realization that probably every editor before us had the same feeling at the end of his year and that it will more than likely be true of our successors. It is this one factor, present only in school publications, that spurs one on. Only one year is provided to succeed or fail and no second chance is granted.

We close our student editorial career with the sincere hope that the high ambitions of our new staff will be fully realized and that the students of the College of Engineering will support them as loyally as they intend to serve the students.

ENGINEERS' DAY

ENGINEERS' DAY is here again. This event assumes larger proportions when we realize that it comes only once every two years. In an ordinary college career a student has the opportunity to participate in or to view only two Engineers' Days. Hence the ballyhoo.

Feverish activity has characterized the various departments during the past few weeks as exhibits were prepared and plans laid for open house and displays. People who visit the campus because of the Traditions Day celebrations, if they wander to the north side of the grounds,

are going to think that Ohio State is purely an engineering school. Well, we sha'n't mind if they do.

The Engineers' Ball to be held Saturday evening will top off the affair in grand style and at a price within the reason of "even engineers."

The OHIO STATE ENGINEER this month provides a complete "program and score card for today's game." On page — is the program of events and opposite is a detailed list of exhibits.

THE NEW STAFF

WE TAKE great pleasure in announcing here our staff for next year. The following men were elected to their positions at a meeting of the Advisory Board on Monday, May 9.

Editor: Fred H. Trimmer, E.E. 3.

Business Manager: Lewis H. Mussman, M.E. 3.

Associate Editors: John E. Batterson, M.E. 2; Clarence N. Fisher, Ch.E. 2; Thorold Friedley, E.E. 2; H. M. MacFarland, Jr., I.E. 2; John J. Timberlake, E.E. 2.

Associate Business Mgr.: Charles F. Tilton, M.E. 2.

Assistant Editors: Harry Cooper, Ch.E. 2; Lester Woodford, M.E. 2; A. V. Ditty, E. 1; Fred Ehrman, Cer.E. 1; Jack Garmhausen, E. 1; Morgan Jones, E. 1; George Sexten, E. 1.

Assistant Business Managers: Paul Holden, E. 1; Wayne Lee, E. 1; Robert Stanley, E. 1; James Stoltz, E. 1.

SUCCESS?

This week the various honorary societies will initiate new members, men who have gone above and beyond the required classroom work. They have not only made good grades but they have shown an interest in student affairs and activities. And so it is in life. The man who takes an active part in the affairs of state and of his community is the truly successful citizen.
