A Publication of the Ohio Council of Teachers of Mathematics

## *Ohio Journal of School Mathematics* Call for Manuscripts

---

---

The *Ohio Journal of School Mathematics* is the journal of the Ohio Council of Teachers of Mathematics. It is intended to be a medium for teachers from elementary to college level to present their ideas and beliefs about the teaching and learning of mathematics. Mathematics educators at all levels are encouraged to submit manuscripts for upcoming issues of the Journal.

Although research studies are not emphasized in the *Journal*, practical application of research implications is appropriate.

### GUIDELINES FOR MANUSCRIPTS and ACTIVITIES

Manuscripts should be double-spaced with one-inch margins, 11 point Times New Roman font, and a maximum of 8 pages. References should be listed at the end of the manuscript in APA style. Please include appropriate information such as author, journal or book title, publisher, date, and pages.

Original figures, tables, and graphs should appear embedded in the document – both in the electronic and hard copy forms. Please do not use text boxes, footnotes, or head-notes.

One hard copy and an electronic copy are required. The electronic copy may be in Word. The electronic copy should be submitted via an email attachment to [elaughba@math.ohio-state.edu](mailto:elaughba@math.ohio-state.edu). Author name, work address, telephone number, fax, and email address must appear on the cover sheet. No author identification should appear on manuscripts after the cover sheet. (The editors of the *Ohio Journal of School Mathematics* use a blind review process for manuscripts. Classroom activities are not peer-reviewed but undergo a rigorous revision process in consultation with the editors).

Submit manuscripts to *Ohio Journal of School Mathematics*, Journal Editors.
