

AUSTRALASIAN ANTARCTIC EXPEDITION.

METEOROLOGICAL RECORDS OF THE CAPE DENISON STATION, ADELIE LAND.

BY

C. T. MADIGAN, M.A. (OXON.), B.Sc., DIP. M.E. (ADEL.), F.G.S.,

WITH TWENTY-FOUR TEXT ILLUSTRATIONS, TWENTY PLATES AND SIXTEEN TABLES

AND

AN APPENDIX BY W. E. BASSETT, M.E.E.

CONTENTS.

PART I.—THE METHODS AND RESULTS OF THE VARIOUS OBSERVATIONS, AND EXPLANATION OF THE TABLES.

CHAPTER I.—INTRODUCTORY REMARKS.

	PAGE
1. Introduction	11
2. Staff	11
3. Instruments	12
4. Period covered	12
5. Geographical Position and Time	12
6. Positions of Screens and Instruments	15
7. Nature and Period of Observations	15
8. Acknowledgments	16

CHAPTER II.—THE WIND.

1. The Anemometer	17
2. Table I. The Wind Records	18
3. The Anemograph	21
4. Table II	22
5. Table III	22
6. Tables IV and V, Wind Analysis	23
7. Table VI	24
8. The "Puffometer"	24

CHAPTER III.

Atmospheric Pressure. Table VII	32
--	----

CHAPTER IV.—TEMPERATURE.										PAGE.
1. The Thermometers and Thermographs	36
2. Föhn Effect	37
3. Table VIII, Temperatures at Cape Denison	38
4. Table IX, Temperatures at Aladdin's Cave	38
CHAPTER V.—RELATIVE HUMIDITY.										
1. The Hair Hygograph. Table X	44
2. Comparison of Hair Hygrometers with Wet and Dry Bulb Readings, for Humidity at Low Temperatures. Table XI	44
CHAPTER VI.—CLOUD AND SUNSHINE.										
1. Cloud. Table XII	47
2. Sunshine. Table XIII	47
CHAPTER VII.—SNOWFALL AND SNOWDRIFT.										
1. Snowfall. The Snow Gauge. Table XIV	49
2. Drift Snow, The Drift Gauge. Table XV	50
CHAPTER VIII.—THE METEOROLOGICAL JOURNAL AND CONCLUSION.										
1. Table XVI. Cloud Observations. Terms. St. Elmo's Fire	52
2. Conclusion	53

PART II.—TABLES.

SECTION I.—THE WIND. TABLES I-VI.

Table I.—Wind Direction and Velocity, Hourly Values	62
Table II.—Number of Days on which the Wind averaged various Velocities	107
Table III.—Number and Percentage of Days on which the average Wind Velocity was below and above various figures	107
Table IV.—Wind Analysis. Percentage Frequency and Mean Velocity for each Direction	108
Table V.—Wind Analysis. Monthly Summary of Maximum Frequencies	132
Table VI.—Conversion of Anemometer Readings to true Velocities	134

SECTION II.—ATMOSPHERIC PRESSURE. TABLE VII.

Table VII.—Atmospheric Pressure. Hourly Values	136
--	-----	-----	-----	-----	-----

SECTION III.—TEMPERATURE. TABLES VIII AND IX.

Table VIII.—Temperature. Hourly Values, Cape Denison	162
Table IX.—Temperature. Hourly Values, Aladdin's Cave	184

SECTION IV.—HUMIDITY. TABLES X AND XI.		PAGE.
Table X.—Relative Humidity. Hourly Values	189
Table XI.—Comparison of Results from Wet and Dry Bulb Readings with Hair Hygrograph Records.	200

SECTION V.—CLOUD AND SUNSHINE. TABLES XII AND XIII.		PAGE.
Table XII.—Cloud Amount. Six Hourly values	204
Table XIII.—Sunshine. Hourly Values	207

SECTION VI.—PRECIPITATION. TABLES XIV AND XV.		PAGE.
Table XIV.—Snowfall	218
Table XV.—Drift Snow	208

SECTION VII.—METEOROLOGICAL JOURNAL.		PAGE.
Table XVI.—Meteorological Journal, Cape Denison	220

PART III.—PLATES.

DESCRIPTION OF PLATES	283
-----------------------	--------	-----

APPENDIX.

A.—STANDARDIZATION OF THE CUP ANEMOMETER EMPLOYED AT CAPE DENISON STATION, BY W. E. BASSETT, M.E.E.	
B.—TESTS AND REMARKS RELATING TO A GUST-RECORDING DEVICE, BY W. E. BASSETT, M.E.E.	

TEXT ILLUSTRATIONS.

	PAGE.
FIG. 1. The South Polar Regions	12
FIG. 2. Adelie Land and King George V Land	13
FIG. 3. Cape Denison, Commonwealth Bay, Antarctica	14
FIG. 4. Wind Velocity and Wind Direction Charts for May 14, 1912...	26
FIG. 5. " " " " June 21, 1912	26
FIG. 6. " " " " July 15, 1912	27
FIG. 7. " " " " August 20, 1913	28
FIG. 8. " " " " August 11, 1913	29
FIG. 9. Wind Velocity Chart for July 5, 1913	30
FIG. 10. A Chart from the Puff Anemometer	31
FIG. 11. A Diagrammatic Sketch showing the Meteorological Conditions at Cape Denison on days of Northerly Breezes and " Whirlies "	31
FIG. 12. Barograph Chart for week commencing March 4, 1912	33
FIG. 13. " " " " July 7, 1913	34
FIG. 14. " " " " May 12, 1913	35

	PAGE.
FIG. 15. Thermograph Chart for week commencing December 16, 1912	40
FIG. 16. " " " July 8, 1912 	41
F.G. 17. " " " June 30, 1913 	42
FIG. 18. " " " September 2, 1912	43
FIG. 19. Hygrograph Chart for week commencing July 29, 1912... ..	45
FIG. 20. Graphs of the Mean Monthly Values of Wind Velocity, Barometric Pressure, and Temperature, for the whole period, February, 1912, to December, 1913, Cape Denison	55
FIG. 21. Graphs of the Mean Daily Values of Wind Velocity, Barometric Pressure, and Temperature, for the six months commencing February 1, 1912... ..	56
FIG. 22. A Comparison of Wind Velocities and Temperatures at Cape Royds, McMurdo Sound, and at Cape Denison, Adelie Land, during the months of May and June	57
FIG. 23. Curve showing Relation between Speeds Registered by the Anemometer, and Actual Wind Speeds	Appendix A
FIG. 24. Curves showing Relation between Wind Speed and Deflection of Pointer, and Wind Speed and Angle of Cord from Vertical, for Puff-recording Anemometer... ..	Appendix B

PLATES.

PLATE	I. View looking North over Cape Denison.
PLATE	II. View of Winter Quarters, Cape Denison, looking South up the Ice Slopes rising to the Plateau.
PLATE	III. Fig. 1. Westerly View across Cape Denison. Fig. 2. Easterly View, along the Coast, Cape Denison.
PLATE	IV. Fig. 1. Winter Quarters, Cape Denison, from the South. Fig. 2. The East Side of the Hut, Southerly aspect.
PLATE	V. Winter Quarters, Cape Denison, from the North-west.
PLATE	VI. Fig. 1. The Anemometer Hill. Fig. 2. The Hut, from the Anemograph Hill. Fig. 3. The Thermometer Screen and the Nephoscope.
PLATE	VII. Fig. 1. The Thermometer Screen. Fig. 2. Madigan at the Anemometer. Fig. 3. The Anemograph Screen and Snow Gauge, on a fine day. Fig. 4. Madigan approaching the Anemograph in the usual Hurricane.
PLATE	VIII. Fig. 1. Hauling the Puff Anemometer up its Mast. Fig. 2. The Thermograph at Aladdin's Cave. Fig. 3. The Drift Gauge. Fig. 4. At the Entrance to Aladdin's Cave.

- PLATE IX. Fig. 1. C. T. Madigan, Chief Meteorologist, Cape Denison.
Fig. 2. A. J. Hodgeman, Assistant Meteorologist.
- PLATE X. Fig. 1. Madigan with an Ice Mask.
Fig. 2. Return from outside duties, Whetter, Madigan and Ninnis
(L. to R.).
Fig. 3. A good Ice Mask.
Fig. 4. The Meteorologists (Madigan and Hodgeman) at work in the
Hut.
- PLATE XI. Fig. 1. Walking against a High Wind.
Fig. 2. Leaning on the Wind.
- PLATE XII. The Coast, Commonwealth Bay, in average weather.
- PLATE XIII. Where the Hurricane meets the Sea. The Shore, Cape Denison.
- PLATE XIV. Fig. 1. Horizontal Spray. A Hurricane off shore, Cape Denison.
Fig. 2. Sea Smoke, Cape Denison.
- PLATE XV. A Cirrus Radiant from the North.
- PLATE XVI. Surface Drift streaming down the slopes at Winter Quarters.
- PLATE XVII. Fig. 1. Getting Ice for Water Supply, in a Blizzard.
Fig. 2. Winter Quarters, Cape Denison, in Moderate Drift.
- PLATE XVIII. Fig. 1. A Flag erected 2 miles South of Winter Quarters. (Mawson
and Bage.)
Fig. 2. The same Flag six months later. (Madigan and Mertz.)
- PLATE XIX. Fig. 1. Madigan building a Depot Cairn on Mt. Murchison.
Fig. 2. The same scene a year later. Nine feet of snow has accumulated.
- PLATE XX. On the Plateau in a Light Drift.

(For detailed description of Plates see pages 283-286.)
