Residence : 446 Piedmont Rd.—LA-1423

TEACHING STAFF

1933-1934

GEORGE W. RIGHTMIRE, M.A., LL.D.	<i>President of the University</i>
CLARENCE R. ELLIS, B.Sc. in App. Optics, D.Opt.Sc.	
<i>Director of Eye Clinic, Assistant Professor of Applied Optics, and Chairman of the Department</i>	
GEORGE FREDERICK ARFS, A.M., Ph.D.	<i>Professor of Psychology</i>
WILLIAM M. BARROWS, S.M., S.D.	<i>Professor of Zoology and Entomology</i>
ROLLO C. BAKER, M.A., Ph.D.	<i>Professor of Anatomy</i>
EDWIN L. BECK, B.A.	<i>Professor of English</i>
JESSE ERWIN DAY, M.A., Ph.D.	<i>Professor of Chemistry</i>
FLOYD C. DOCKERAY, M.A., Ph.D.	<i>Professor of Psychology</i>
M. BLAKEMORE EVANS, B.A., Ph.D.	<i>Professor of German</i>
WILLIAM LLOYD EVANS, M.Sc., Ph.D.	<i>Professor of Chemistry</i>
WILLIAM S. HENDRIX, M.A., Ph.D.	<i>Professor of Romance Languages</i>
HARRY WALDO KÜHN, Ph.D.	<i>Professor of Mathematics</i>
ROBERT E. MONROE, A.B., M.A.	<i>Professor of Romance Languages</i>
CHARLES BRADFIELD MORREY, B.A., M.D.	<i>Professor of Bacteriology</i>
LEONARD B. NICE, Ph.D.	<i>Professor of Physiology</i>
RAYMOND C. OSBURN, M.Sc., Ph.D.	<i>Professor of Zoology and Entomology</i>
SAMUEL EUGENE RASOR, M.A., S.M.	<i>Professor of Mathematics</i>
SAMUEL RENSHAW, M.A., Ph.D.	<i>Professor of Experimental Psychology</i>
ERNEST SCOTT, B.Sc. in Agr., M.D.	<i>Professor of Pathology</i>
RAYMOND JESSE SEYMOUR, M.S., M.D.	<i>Professor of Physiology</i>
ALPHEUS W. SMITH, A.M., Ph.D.	<i>Professor of Physics</i>
DAVID F. MILLER, M.A., Ph.D.,	<i>Associate Professor of Zoology and Entomology</i>
JOHN W. PRICE, M.Sc., Ph.D.	<i>Associate Professor of Zoology and Entomology</i>
ALVA W. SMITH, M.A., Ph.D.	<i>Associate Professor of Physics</i>
G. BRYANT BACHMAN, A.B., Ph.D.	<i>Assistant Professor of Chemistry</i>
LINDEN F. EDWARDS, M.Sc., Ph.D.	<i>Assistant Professor of Anatomy</i>
W. CONARD FERNELIUS, A.M., Ph.D.	<i>Assistant Professor of Chemistry</i>
JAMES F. FULLINGTON, M.A., Ph.D.	<i>Assistant Professor of English</i>
JEROME B. GREEN, M.S., Ph.D.	<i>Assistant Professor of Physics</i>
HOWARD E. HAMLIN, B.S., A.M.	<i>Assistant Professor of Physiology</i>
FRED A. HITCHCOCK, M.Sc., Ph.D.	<i>Assistant Professor of Physiology</i>
HAROLD P. KNAUSS, M.S., Ph.D.	<i>Assistant Professor of Physics</i>
JOHN A. MILLER, M.Sc., Ph.D.,	<i>Assistant Professor of Zoology and Entomology</i>
MARION L. POOL, Ph.D.	<i>Assistant Professor of Physics</i>
HUGH E. SETTERFIELD, M.Sc.	<i>Assistant Professor of Anatomy</i>
MARY K. HELZ, B.A., M.Sc.	<i>Instructor in Pathology</i>
PAUL B. YATES, A.B.	<i>Instructor in Anatomy</i>
WILLIAM A. SHERARD	<i>Assistant in Applied Optics</i>

CLINICAL ASSISTANTS

HOWARD F. HAINES, B.Sc. in Bus. Adm., B.Sc. in App. Optics

ELLSWORTH E. REESE, B.Sc. in App. Optics

SUPERINTENDENT OF OPTICAL DISPENSARY

S. M. STEELE

THE OHIO STATE UNIVERSITY

LOCATION

The Ohio State University is situated within the corporate limits of the city of Columbus. It is supported by appropriations from the State and Federal governments. The University has almost 1,400 acres of land with nearly 400 acres in the campus. The total value of land, buildings, and equipment is \$22,254,798.00.

The offices of the President of the University, the University Examiner, the Registrar, and the Bursar are located in the Administration Building.

ORGANIZATION

For convenience of administration the departments of the University are grouped into organizations called Colleges. The Ohio State University comprises ten Colleges and a Graduate School, each under the administration of a Dean and College Faculty, as follows:

Graduate School, College of Agriculture (including the School of Home Economics), College of Arts and Sciences, College of Commerce and Administration (including the Schools of Journalism and Social Administration), College of Dentistry, College of Education, College of Engineering (including the School of Mineral Industries), College of Law, College of Medicine (including the School of Nursing), College of Pharmacy, College of Veterinary Medicine.

APPLIED OPTICS

The work in Applied Optics is under the administration of the Dean of the College of Engineering.

The office of the Professor of Applied Optics is located in Mendenhall Laboratory on the University Campus, near the Fifteenth Avenue and High Street entrance.

This *Bulletin* is devoted exclusively to the work offered in Applied Optics for the academic year, 1934-1935.

NOTE: Bulletins describing the work of the several Colleges may be obtained by addressing the University Examiner, The Ohio State University, Columbus, and stating the College in which the writer is interested. (For list of bulletins, see the last page.)

APPLIED OPTICS

GENERAL INFORMATION

The Department of Applied Optics offers courses designed to prepare students to enter the field of optics. This field includes visual optics; a study of mirrors, lenses, lens design, lens calculation, and design of optical instruments; spectroscopy.

The courses in visual optics are outlined from the standpoint that the visual properties of the eye are intimately related to all branches of applied optics and also with the view of preparing students to detect and correct the errors of the eye by the use of lenses.

Provision is made for clinical practice in both the refractive and the pathological fields and for practice in the mechanical laboratory.

The courses in general science and mathematics form a basis for the study of theoretical optics and the application of optical principles.

EQUIPMENT

The courses are thoroughly equipped with the modern and best forms of optical apparatus. The clinic is provided with schematic eyes with pathological slides, C. & I. ophthalmometer, Universal ophthalmometer, Hardy ophthalmometer with corneal microscope, several DeZeng photometers, a Wolff skiometer with batteries of spheres and cylinders, various pieces of muscle-testing apparatus, several self-luminous retinoscopes and ophthalmoscopes, a Geneva combined retinoscope and ophthalmoscope, a perimeter, a Rogers dioptrimeter, interpupillary gauge, vertex dioptrimeter, trial cases, Hertel keratometer, Stevens tropometer, Stevens cliniscope, a complete Genophthalmis Unit; a complete American Optical Company Unit; Gullstrand Ophthalmoscope; Keratometer; Campimeter; Campograph; Myologic Unit; Wells head and charts; Stereoscopes; Streak retinoscopes; Cameron Diagnostic set; and all the best forms of modern ophthalmic apparatus suitable for refractive and ophthalmic lens purposes. The mechanical laboratory is fully equipped to grind, surface, edge, and mount lenses.

CLINICAL FACILITIES

The clinical laboratory has been enlarged and new equipment added. Clinics are open to the students and members of the instructional force in particular and to outsiders upon application. They are conducted every afternoon during the week. These clinics furnish an endless variety of ocular conditions for the inspection and investigation of the students in these courses. Students make the examinations under the supervision of the director of the clinic. These clinics have served between two and three thousand persons each year during the period of their existence. Difficult cases form the basis for a subsequent discussion of methods of examination employed and the interpretation of the data obtained.

STUDENT MEDICAL SERVICE

Medical Staff: Dr. M. F. Osburn, Acting Director; Dr. John W. Wilce, Dr. J. M. Foley, Dr. James A. Beer, Dr. Shirley Armstrong, Dr. Charlotte Winnemore.

Office Hours: When the University is in session, daily 8:30 to 12:00 and 1:00 to 4:30; Saturday, 8:30 to 12:00. Phone: Campus 461.

The object of the Student Medical Service is to render first aid and casual treatment to students on the campus. When in the judgment of the Student Medical Service physicians, hospitalization for observation and diagnosis is necessary, such is provided without charge. Seniors are given a complete physical examination on their request. Application for this should be made at the beginning of their last Quarter.

STUDENT AUTOMOBILES

The University does not bar the use of automobiles by students. However, students can be given only very limited parking space on the campus, and the use of autos is discouraged. Unless the student drives a long distance to and from his home each day or is physically incapacitated, he does not need a car while attending the University. The cooperation of parents in this matter is earnestly desired.

ADMISSION

METHOD OF ADMISSION

The admission of students is in charge of the University Entrance Board, which determines the credits that shall be issued on all entrance examinations and certificates. Correspondence relative to admission should be addressed to the University Examiner, The Ohio State University, Columbus.

REQUIREMENTS FOR ADMISSION

A graduate of a high school of the first grade in the State of Ohio will be admitted to the Department of Applied Optics upon presentation of his certified course of study to the University Examiner. Blank forms will be furnished on application. Graduates of high schools in states other than Ohio will be considered for admission if their certificates are accepted by the leading colleges of their own state. Graduates of approved preparatory schools and normal schools will be considered for admission by certificate. Any candidate may be admitted upon examination covering 15 units of college entrance subjects. Detailed information may be secured by addressing the University Examiner.

DISTRIBUTION OF UNITS

The following distribution of high school units is strongly recommended to those entering the Department of Applied Optics: English, three units; American history and civics, one unit; algebra, one unit; geometry, one unit; foreign language, four units; physics or chemistry, one unit; botany, zoology, or physiology, one unit; elective, three units.

ENTRANCE BY EXAMINATION

Deficiencies in requirements for entrance may be removed by examinations given by the University during the months of September and June. The Entrance Board should be notified of the student's intention of taking the examination at least one week before examination dates.

SPECIAL STUDENTS OF MATURE YEARS

A person of mature years who is unable to meet the entrance requirements in all respects, under certain circumstances may be permitted to matriculate for specified courses for which he can demonstrate adequate qualifications. An applicant under twenty-one years of age will not be considered. Inquiry concerning such admission should be addressed to the University Examiner. A personal interview with an applicant for admission as a special student is desired.

REGISTRATION

FRESHMAN WEEK

All Freshmen are required to be present at the University for a special Freshman Program which precedes the opening of the University. This program will begin on Wednesday, September 26, at 3:30 P. M. and will continue through the following Monday, October 1. This session is known as Freshman Week.

During this period Freshmen will become familiar with the Campus. They will be given needed information on the history and traditions of the University, as well as definite information on student activities and eligibility requirements. There will be lectures and discussions of vital importance to any student beginning his college career. Faculty advisers will conduct personal interviews with students to discuss their plans for a university education.

Intelligence tests, physical examinations, and placement tests are also a part of the Freshman Week Program.

The program of Freshman Week is planned to give students, new to the Campus, an opportunity to adjust themselves to new conditions before the regular routine of class-room work begins.

In connection with the Freshman Week program, a conference for parents will be held on the opening day, Wednesday, September 26. Opportunity will be presented for parents to meet the President and other university officers. A formal presentation will be made of the university's personnel program with freshman students.

Freshmen must be present on the opening date, September 26, for the first meeting, scheduled at 3:30 p. m. A penalty of \$5.00 for each day of absence will be imposed. This is the usual penalty for late registration. The exercises of Freshman Week will be of the greatest benefit to the Freshmen and attendance upon them is required. All cases of failure to appear on this day or to be present at any of the exercises of Freshman Week will be reported to the President for action.

All Freshmen are urged to complete their registration and pay their fees before September 26, in order that they may be free to participate in the program of Freshman Week.

REGISTRATION

Under the Quarter plan each student will present his program of studies for only one Quarter at a time. Election cards for registration are obtained from the Registrar and are ready for distribution approximately two months prior to the opening of the Quarter. The exact date will be published in the Official Daily Bulletin and definite days will be announced during which every student in residence will be required to file his program of studies for the following Quarter. Persons who are not in residence may register in person or by mail at any time after the election cards are available for the following Quarter. Fees may be paid as soon as fee cards have been received by the student from the Registrar. *Students are expected to pay their fees before the day designated in the University Calendar for classes to begin and to report promptly to their classes on the first day that classes are scheduled.* Students who have registered sufficiently early usually receive fee cards approximately three weeks prior to the opening of the Quarter. *It is to the advantage of all students to register as early as possible.*

Applicants presenting themselves after the opening of the Quarter can be admitted only for exceptional reasons and by action of the Executive Committee. In general, a student who is permitted to enter after the close of the first week of a Quarter will be given a schedule diminished by one full course below the normal requirement for that student.

FEES AND EXPENSES

Registration is not complete until all fees have been paid. No student will have any privileges in the classes or laboratories until all fees and deposits are paid.

Since all fees are due and payable as a part of the student's registration, before the day designated in the University Calendar for classes to begin, no person should come to the University for registration without money sufficient to cover all of his fees and deposits.

A penalty of \$5.00 for each succeeding day or fraction thereof will be assessed for failure to comply with this rule except in the case of a new student granted permission by the Dean of his College to register after the opening of the University.

1. Matriculation fee (non-returnable)
 - Required of every student on first admission to the University \$10.00
2. Incidental fees
 - Incidental fees do not vary with the number of courses taken
 - First and Second Years
 - Quarter fee for a resident of Ohio..... 20.00
 - *Quarter fee for a non-resident of Ohio..... 70.00
 - Third and Fourth Years
 - Quarter fee for a resident of Ohio..... 35.00
 - *Quarter fee for a non-resident of Ohio..... 85.00
 - Special Students or others who take the courses of the third and fourth years, or any portion thereof
 - Quarter fee for a resident of Ohio..... 35.00
 - *Quarter fee for a non-resident of Ohio..... 85.00
3. Special fees
 - (a) Ohio Union (Men) (Each Quarter)..... 1.00
 - Women's Union (Women) (Each Quarter)..... 1.00
 - The Union fees entitle the students to all the privileges of the Unions
 - (b) Student Activities and Medical Service Laboratory fee.. 2.00
 - Required of all students each Quarter; to be used in support of Student Government Activities and the Student Medical Service
 - (c) Laboratory Breakage deposit—Amount varies with course.....from 1.00 to 20.00
 - Students are required to pay for all materials consumed in laboratory work. The laboratory deposit must be made at the time of registration before the student may enter the laboratory. All laboratory supplies are sold to students at the Laboratory Supply Store, Chemistry Building, and charged against the deposits (See page 14). Instructors shall not permit students to engage in laboratory work unless the student has shown a receipt from the Bursar for deposit paid

* Non-resident fee. See page 13.

(d) Graduation fee

A graduation fee is required of each person receiving a diploma. The fee must be paid one week before the close of the Quarter in which the candidate expects to receive his degree

NOTICE

At a meeting of the Board of Trustees held on April 6, 1934, the following changes in fees were approved:

Matriculation fee, \$15.00. Effective September 1, 1934.

Library Laboratory fee, \$1.00 to be paid by each student each Quarter. Effective at the opening of the Summer Quarter, 1934.

MINORS: The residence of minors shall follow that of the legal guardian, regardless of emancipation; but in case a resident of Ohio is appointed guardian of a non-resident minor, the legal residence of such minor for the purpose of this rule shall not be considered to be established in the State of Ohio until the expiration of twelve months after such appointment.

WIVES: The residence of wives shall follow that of husbands.

ALIENS: Aliens who have taken out their first citizenship papers and who have been residents of Ohio for twelve months next preceding the date of their original enrollment in the University, shall be regarded as eligible for registration as residents of Ohio.

TEXTBOOKS

Textbooks. Students should not purchase textbooks until they are advised by the instructors of their respective classes.

ROOM AND BOARD

Room and Board. (See Living Arrangements, page 15.)

RETURN OF FEES ON WITHDRAWAL

Fees are returnable in case a student withdraws on account of sickness or for other causes entirely beyond his control, if such withdrawal is made during

(d) Graduation fee

A graduation fee is required of each person receiving a diploma. The fee must be paid one week before the close of the Quarter in which the candidate expects to receive his degree

Bachelor's degree	5.00
Master's degree.....	10.00
Doctor's degree (Ph.D.).....	10.00

NON-RESIDENT FEE

Every student who is not a legal resident of the State of Ohio is required to pay a non-resident fee of \$50.00 each Quarter (or \$25.00 each term of the Summer Quarter) of his residence in the University in addition to other University fees. The burden of registering under proper residence is placed upon the student. If there is any possible question of his right to legal residence the matter should be brought to the attention of the Registrar and passed upon, previous to registration or the payment of fees. Any student who registers improperly under this rule shall be required to pay not only the non-resident fee but shall be assessed a penalty of \$10.00. Students who do not pay this fee within thirty days after they have been notified that the non-resident fee has been assessed against them, will have their registration in the University cancelled.

No person shall be considered eligible to register in the University as a resident of the State of Ohio unless he has been a *bona fide* resident in the State twelve consecutive months next preceding the date of his original enrollment, and no person shall be considered to have gained or lost a residence in this State for the purpose of registering in the University by any conduct of his own, while he is a student in the University, unless after attendance at the University for one year it can be clearly established by the student that his previous legal residence has been abandoned and a new one established in Ohio for purposes other than merely attending the University; but persons whose legal residence follows that of other persons as hereinafter provided, shall be considered to have gained or lost legal residence in this State for such purpose while students in the University according to changes of legal residence of such other persons, except that such legal residence shall not be considered to be so gained until twelve months after such other person becomes a legal resident of this State.

MINORS: The residence of minors shall follow that of the legal guardian, regardless of emancipation; but in case a resident of Ohio is appointed guardian of a non-resident minor, the legal residence of such minor for the purpose of this rule shall not be considered to be established in the State of Ohio until the expiration of twelve months after such appointment.

WIVES: The residence of wives shall follow that of husbands.

ALIENS: Aliens who have taken out their first citizenship papers and who have been residents of Ohio for twelve months next preceding the date of their original enrollment in the University, shall be regarded as eligible for registration as residents of Ohio.

TEXTBOOKS

Textbooks. Students should not purchase textbooks until they are advised by the instructors of their respective classes.

ROOM AND BOARD

Room and Board. (See Living Arrangements, page 15.)

RETURN OF FEES ON WITHDRAWAL

Fees are returnable in case a student withdraws on account of sickness or for other causes entirely beyond his control, if such withdrawal is made during

the first thirty days of the Quarter. Students withdrawing under request from the University are not entitled to any return of fees. Permission to withdraw, given in writing by the Dean of the College, must be presented to the Bursar within this thirty-day period. Ordinarily no more than one-half of the fees paid will be refunded; if the case has exceptional circumstances it should be referred to the President for his judgment.

No fees will be returned in case of withdrawal of students until thirty days have elapsed from the date of withdrawal.

If fees are paid under mistake of law or fact they are returnable in full. Fees are not returnable except as provided in this rule.

On Laboratory Deposits. If a student is forced to withdraw from a laboratory course during a Quarter, he must first secure permission from his Dean.

No portion of a laboratory deposit of \$5.00 or less shall be returned, unless the course is officially dropped by the student and request for refund presented within thirty days after the payment of deposit.

On a laboratory deposit of \$6.00 or more the unexpended part of the deposit is returnable if called for on or before the close of the Spring Quarter of the fiscal year in which the deposit has been made.

An order for refund for the unexpended portion of the deposit may be obtained by applying at the Laboratory Supply Store, Chemistry Building. The unexpended part of the deposit will be paid at the Bursar's Office on presentation of the order for refund.

SPECIAL FEES—PENALTIES

PENALTY FOR ABSENCE DURING FRESHMAN WEEK

Freshmen must be present on the opening date, September 26, for the first meeting, scheduled at 3:30 p. m. A penalty of \$5.00 for each day of absence will be imposed. This is the usual penalty for late registration. The exercises of Freshman Week will be of the greatest benefit to the Freshmen and attendance upon them is required. All cases of failure to appear on this day or to be present at any of the exercises of Freshman Week will be reported to the President for action.

PENALTY FOR FAILURE TO REGISTER WITH THE DEAN OF WOMEN

Every woman student must register with the Dean of Women at her office in Pomerene Hall at the beginning of each Quarter. Registration closes on Thursday following the opening of the Quarter. Students who are residents of Columbus are requested to register on the day preceding the opening of classes. A penalty of \$5.00 will be assessed for failure to comply with this rule.

PENALTY FOR FAILURE TO KEEP APPOINTMENT FOR PHYSICAL EXAMINATION

A penalty of \$1.00 will be assessed for failure to keep appointment for Physical Examination or for change in date of Physical Examination.

PENALTY FOR RE-REGISTRATION

When checks given for payment of fees are not paid on presentation at bank, registration will be cancelled and receipts given considered null and void. A penalty of \$5.00 will be assessed for re-registration.

FEE FOR CHANGES IN APPROVED ELECTION CARDS

Changes in approved election cards will be made only upon the approval of the Dean and the payment of \$1.00 for each change involved unless such payment is waived by the Dean approving the change.

FEE FOR CHANGES IN APPROVED SCHEDULE ASSIGNMENTS

Changes in approved schedule assignments will be made only upon the approval of the Registrar and the payment of \$1.00 for each change involved unless such payment is waived by the Registrar.

COST OF A YEAR'S WORK

One of the most perplexing questions that confronts a prospective student is what the course is going to cost him a year.

In order to furnish information, there is listed below an estimate of the average payments required by the University for the Freshman year and the estimated cost for room and board at a safe price. These two items are sometimes reduced slightly where two students occupy the same room and where boarding clubs are economically managed. Fees to the University are paid at the beginning of each Quarter.

ESTIMATE OF EXPENSES

Matriculation Fee (non-returnable).....	\$ 10.00
Incidental Fee.....	60.00
Ohio Union.....	3.00
Activities and Medical Service Laboratory Fee.....	6.00
Deposits to cover laboratory materials and breakage.....	30.00
Books and Instruments.....	50.00
Board—36 weeks at \$4.50 a week.....	162.00
Room rent at \$10.00 a month.....	90.00
Total.....	\$411.00

NOTE: In order to meet all the necessary expenses of registration, books, and other expenditures incident to securing a room and board, a student should come prepared to spend from \$75 to \$100 during the first ten days of a Quarter. After that period, his board and room rent will constitute the major part of his expenses.

LIVING ARRANGEMENTS

The President of the University has the authority to supervise living arrangements of students not residents of the city of Columbus and to order the immediate withdrawal of any student from any boarding or lodging house in which the surroundings are undesirable.

ROOMS AND BOARD FOR MEN

The University possesses only one dormitory for men, the Tower Club. Furnished rooms can be obtained at prices varying from \$8.00 to \$15.00 a month (single) and \$10.00 to \$20.00 (double). The cost of the table board in the clubs and restaurants near the University is from \$4.00 to \$6.00 a week. Board can be secured at the Ohio Union, as well as at Pomerene Hall, at reasonable prices.

Board with furnished rooms can be obtained in private families within convenient distance from the University at rates varying around \$7.00 a week.

THE TOWER CLUB

The Tower Club was organized in the Autumn of 1933 for men who are in great need of financial assistance.

It is located in the southwest tower of the University Stadium.

Applicants with unusually good records in the high school and advanced students who have made unusually good records in college are eligible for consideration.

The Club is run on a cooperative dormitory plan with very simple accommodations. The Club fee is \$1.00 a Quarter for each man. Board is available at approximately \$2.50 a week.

Applications should be sent to B. L. Stradley, University Examiner.

MEN'S HOUSING BUREAU

The absence of dormitories for men at The Ohio State University, with the exception of the Tower Club, causes the men students to reside in private rooming houses in the University district. In order to assist the students (especially those entering for the first time) in finding desirable rooms at the

greatest saving, the University has created the Men's Housing Bureau, located in the office of the Dean of Men, first floor, Administration Building.

Classified lists of rooms available for every student and for any number of students are always available at this office. Boarding houses are likewise listed.

If the student signs the "Rooming House Agreement" he shall be expected to be responsible for the rental price of the room as specified in the agreement, unless he can present satisfactory reasons to the Men's Housing Bureau for moving out before the expiration of that period, or, unless he can secure a satisfactory substitute. If he moves out before the expiration of the Quarter without presenting a satisfactory excuse he shall forfeit one month's rent. The signing of such agreement is optional.

The University warns students not to rent rooms which have not been placed on the approved list by the Men's Housing Bureau. Any one renting a room which is not on the approved list does so at his own risk.

WOMEN STUDENTS

Every woman student, whether undergraduate or graduate, must register with the Dean of Women at her office in Pomerene Hall during the first four days of each Quarter. The exact dates of registration will be fully announced each Quarter.

NOTE: A penalty of \$5.00 will be assessed for failure to comply with this rule.

LIVING ARRANGEMENTS FOR WOMEN

All living arrangements for women are under the supervision of the Dean of Women, and must be submitted to her before completion.

Applications for residence in halls or private houses should be made directly to the Dean of Women, who will send information and regulations governing the housing of women students.

RULES AND REGULATIONS

For rules and regulations concerning student responsibility and procedure, see the *University Rules and Regulations for Students*, a copy of which may be obtained from the Registrar.

THE MARKING SYSTEM AND POINT SYSTEM

The grade marks given in the several Colleges of the University are: A—Excellent; B—Good; C—Average; D—Poor; E—Failed.

K (Credit) shall be used for work credited from other institutions and by the University Examiner only.

Em (Examination) credit shall be used to indicate that the credit given is for work not done in residence.

A value in "Points" is assigned to each of these grades as follows:

For each hour of A grade, 4 credit points shall be allowed.

For each hour of B grade, 3 credit points shall be allowed.

For each hour of C grade, 2 credit points shall be allowed.

For each hour of D grade, 1 credit point shall be allowed.

For each hour of K credit, no credit points shall be allowed.

For each hour of Em credit, no credit points shall be allowed.

The grade of E receives no credit either in hours or points.

The mark of E cannot be removed by re-examination. (For removal of failures see page 17.)

POINTS REQUIRED FOR GRADUATION

(See page 17)

LOW STANDING

DISMISSAL AND PROBATION FOR LOW STANDING

At the end of each Quarter, any student who has failed to earn a point-hour ratio of at least .65 on the number of credit hours for which he was

scheduled shall be dismissed from the University. Any student, not dismissed under the above rule, who has failed to earn a point-hour ratio of at least 1.30 on the number of credit hours for which he was scheduled that Quarter shall be placed on probation.

The period of probation shall extend through one Quarter of residence. If a student has been twice placed on probation, he shall not be placed on probation again but instead shall be dismissed from the University.

The Dean or the Executive Committee of a College shall have power to place a student on probation at any time for a definite period when in their judgment his scholastic standing is unsatisfactory. In every case of probation the Dean of the College shall notify both the student and his parents or guardian.

These rules do not apply to students registered in the Colleges of Dentistry, Law, and Medicine. The faculties of these colleges are empowered to enact appropriate rules regulating this matter.

DISMISSAL OF STUDENTS ON PROBATION

At the end of any Quarter, any student who is on probation shall be dismissed from the University if he has failed to earn a point hour ratio of at least 1.30 on the number of credit hours for which he was scheduled. Notice of such dismissal shall be sent by the Dean both to the student and to his parents or guardian.

DISMISSAL FOR DEFICIENCY IN POINTS

Any student who has been registered in this University for six Quarters and has not earned a cumulative point hour ratio of at least 1.7 on the number of credit hours for which he has been scheduled shall be dismissed from the University. Moreover, a cumulative ratio of at least 1.7 shall be maintained throughout subsequent Quarters unless there is a transfer to another college. These rules shall not apply to students registered in the Colleges of Dentistry, Law, and Medicine. The faculties of these colleges are empowered to enact appropriate rules regulating this matter.

A student entering this University from another institution, as far as the applicability of this rule is concerned, will be considered as if his entire residence had been at this University, but his point hour ratio will be computed upon the work done at this University.

DISMISSAL BY SPECIAL ACTION

In cases not covered by the foregoing rules, if at any time the preparation, progress, or success of a student in his assigned work is deemed unsatisfactory, the Executive Committee of the College shall have power to dismiss him from the University.

REMOVAL OF FAILURES

FAILURE IN A REQUIRED COURSE

At his first opportunity a student must repeat in class a required course in which he has failed, unless the Executive Committee of the College authorizes a substitute course.

GRADUATION

POINTS REQUIRED FOR GRADUATION

The number of credit points required for graduation shall amount to not less than 1.8 times the number of credit hours undertaken at this institution. (For Point System see page 16.)

GRADUATION FEE

A special graduation fee is required of each person receiving a diploma from the University. This fee is \$5.00 for baccalaureate degrees and \$10.00 for graduate degrees.

COMMENCEMENT—CONVOCATION

A special Convocation or Commencement shall be scheduled at the close of each Quarter for the conferring of degrees upon candidates who have fulfilled all the requirements of their respective courses.

ATTENDANCE AT CONVOCATION EXERCISES

All candidates for degrees are required to be present at their graduation convocation unless excused by the President.

INFORMATION

For further information as to entrance requirements, etc., address the University Examiner. Correspondence is also invited by Clarence R. Ellis, Chairman of the Department of Applied Optics, who will be in his office (Mendenhall Laboratory, Room 203) from 1 to 4 P. M. daily.

DEGREE

Upon the satisfactory completion of the curriculum as outlined above, or what is deemed to be its equivalent, the student will be recommended for the degree of Bachelor of Science in Applied Optics.

DEPARTMENTS OF INSTRUCTION

ANATOMY

Office, 410 Hamilton Hall

PROFESSOR BAKER, ASSISTANT PROFESSOR EDWARDS, MR. YATES

414. **Comparative Anatomy of the Vertebrates.** Five credit hours. Winter Quarter. Two lectures and six laboratory hours each week. Applied Optics, third year. Prerequisite, Zoology 401. Mr. Edwards.

The anatomy of one or more of the higher vertebrates.

Not open to students who have credit for Anatomy 402.

437. **The Eye.** Five credit hours. Spring Quarter. Two recitations and six laboratory hours each week. Applied Optics, third year. Prerequisite, Zoology 401-402, and Anatomy 414 or equivalent. Mr. Yates.

The gross anatomy of the orbit and eye in the shark, sheep, and man and general human histology with the embryology and special histology of the organ of vision.

APPLIED OPTICS

Office, 203 Mendenhall Laboratory

DR. ELLIS AND ASSISTANTS

411. **Vision Optics.** Four credit hours. Autumn Quarter. Lectures and quiz. Applied Optics, third year. Prerequisite, Zoology 401-402, Physics 411-412-413, and Mathematics 421-422. Dr. Ellis.

Recitations, lectures, and demonstrations dealing with the principles of refraction in the human eye based on the laws of conjugate foci; hyperopia, myopia, and astigmatism; ophthalmoscopy and the fundamentals of vision.

412. **Vision Optics.** Four credit hours. Winter Quarter. Lectures and quiz. Applied Optics, third year. Prerequisite, Applied Optics 411. Dr. Ellis.

Lectures and demonstrations of clinical methods of refraction, their theory and practical application. The conjugate foci theory of minor fundus reflexes. Keratometry and other methods of objective and subjective eye examination.

413. **Vision Optics.** Four credit hours. Spring Quarter. Lectures and quiz. Applied Optics, third year. Prerequisite, Applied Optics 412. Dr. Ellis.

Lectures and demonstrations on accommodations, convergence, coordination of the visual functions, retinal images and ocular calculations. Visual field work, ocular calisthenics, heterophoria and squint. Differential determination of ocular abnormalities.

421. **Theoretical Applied Optics.** Three credit hours. Autumn Quarter. Lectures and quiz. Applied Optics, fourth year. Prerequisite, Applied Optics 411-412-413. Dr. Ellis and assistants.

The etiology, symptoms, and treatment of squint of all varieties. Both concomitant and paralytic squints will be discussed, together with a summary of extra-ocular imbalances.

422. **Theoretical Applied Optics.** Three credit hours. Winter Quarter. Lectures and quiz. Applied Optics, fourth year. Prerequisite, Applied Optics 421. Mr. Sherard.

Functions of the retina, theories of color vision, stereoscopic vision, optical illusions.

423. Theoretical Applied Optics. Three credit hours. Spring Quarter. Lectures and quiz. Applied Optics, fourth year. Prerequisite, Applied Optics 422. Mr. Sherard.

The eye as an optical instrument. Theories of vision, field studies, and abnormalities of vision.

In courses 422-423 the fundamental principles of physiological optics will be thoroughly covered.

431. Mechanical Optics. Two credit hours. Autumn Quarter. One lecture and two laboratory hours each week. Applied Optics, fourth year. Prerequisite, Applied Optics 411-412-413 and Physics 501-502-503. Dr. Ellis and assistants.

Lens centering, axis marking, use of lens measure. Surface grinding and polishing. Marking rough and semifinished bifocals.

432. Mechanical Optics. Two credit hours. Winter Quarter. One lecture and two laboratory hours each week. Applied Optics, fourth year. Prerequisite, Applied Optics 431. Dr. Ellis and assistants.

Lens sizing, cutting, edging, both hand and automatic. A study of systems of spectacle and eye glass mountings. Soldering.

433. Mechanical Optics. Two credit hours. Spring Quarter. One lecture and two laboratory hours each week. Applied Optics, fourth year. Prerequisite, Applied Optics 432. Dr. Ellis and assistants.

Face measurements, mounting and adjusting frames. Truing, bridge bending. Prescription writing and reading. Fitting of bifocal lenses.

441. Clinical Laboratory Practice. Five credit hours. Autumn Quarter. One conference and four two-hour laboratory periods each week. Applied Optics, fourth year. Prerequisite, Physics 501-502-503 and Applied Optics 411-412-413. Dr. Ellis and assistants.

The conference hour will be given to a discussion and study of cases coming up in the practice. Four laboratory periods will be given to making examinations in the clinic laboratory, and one laboratory period to work in the hospital.

442. Clinical Laboratory Practice. Five credit hours. Winter Quarter. One conference and four two-hour laboratory periods each week. Applied Optics, fourth year. Prerequisite, Applied Optics 441. Dr. Ellis and assistants. A continuation of Applied Optics 441.

443. Clinical Laboratory Practice. Five credit hours. Spring Quarter. One conference and four two-hour laboratory periods each week. Applied Optics, fourth year. Prerequisite, Applied Optics 442. Dr. Ellis and assistants. A continuation of Applied Optics 442.

BACTERIOLOGY

Office, Pharmacy and Bacteriology Building

PROFESSOR MORREY AND ASSISTANT

450. Bacteriology. Five credit hours. Spring Quarter. Two class periods and three three-hour laboratory periods each week. Applied Optics, second year. Mr. Holtman.

The study of bacteria with reference to morphology, staining growth on culture media, effect of physical and chemical environment, action on their food material. Principles of disinfection and sterilization. Some of the pathogenic organisms of the mouth cavity and of the eye are studied.

CHEMISTRY

Office, 115 Chemistry Building
General Chemistry Office, 112 Chemistry Building

PROFESSORS EVANS AND DAY, ASSISTANT PROFESSORS FERNELIUS AND BACHMAN,
AND ASSISTANTS

401. Elementary Chemistry. Five credit hours. One Quarter. Autumn and Winter. One lecture, two recitations, and two two-hour laboratory periods each week. This course or 411 required in Applied Optics, first year. Mr. Evans, Mr. Day, Mr. Fernelius, Mr. Bachman, and assistants.

A general course in the chemistry of the non-metals. To be followed by Chemistry 402.

Not open to students who have entrance credit for chemistry.

402. Elementary Chemistry. Five credit hours. One Quarter. Winter and Spring. One lecture, two recitations, and two two-hour laboratory periods each week. This course or 412 required in Applied Optics, first year. Prerequisite, Chemistry 401. Mr. Evans, Mr. Day, Mr. Fernelius, Mr. Bachman, and assistants.

A continuation of the study of the non-metals and a survey of the chemistry of the metals. To be followed by Chemistry 403.

Not open to students who have entrance credit for chemistry.

403. Qualitative Analysis. Five credit hours. Spring Quarter. One lecture, one recitation, and six laboratory hours each week. This course or 413 required in Applied Optics, first year. Prerequisite, Chemistry 402. Mr. Evans, Mr. Day, Mr. Fernelius, Mr. Bachman, and assistants.

A brief course in the systematic separation and identification of the cations and anions.

Not open to students who have entrance credit for chemistry.

411. General Chemistry. Five credit hours. One Quarter. Autumn and Winter. One lecture, two recitations, and two two-hour laboratory periods each week. This course or 401 required in Applied Optics, first year. Prerequisite, an acceptable course in high-school chemistry. Mr. Evans, Mr. Day, Mr. Fernelius, Mr. Bachman, and assistants.

A general course in the chemistry of the non-metals, more advanced than Chemistry 401. To be followed by Chemistry 412.

412. General Chemistry. Five credit hours. One Quarter. Autumn, Winter, Spring. One lecture, two recitations, and two two-hour laboratory periods each week. This course or 402 required in Applied Optics, first year. Prerequisite, Chemistry 411. Mr. Evans, Mr. Day, Mr. Fernelius, Mr. Bachman, and assistants.

A continuation of Chemistry 411, including the chemistry of the metals. To be followed by Chemistry 413.

413. Qualitative Analysis. Five credit hours. One Quarter. Winter and Spring. One lecture, one recitation, and six laboratory hours each week. This course or 403 required in Applied Optics, first year. Prerequisite, Chemistry 412. Mr. Evans, Mr. Day, Mr. Fernelius, Mr. Bachman, and assistants.

A general course in qualitative analysis, dealing with the systematic separation and identification of the cations and anions. It also includes the application of the ionization theory, mass action law, and the principles of chemical equilibrium to qualitative analysis.

ENGLISH

Office, 121 Derby Hall

PROFESSOR BECK, ASSISTANT PROFESSOR FULLINGTON, INSTRUCTORS
AND ASSISTANTS**REVIEW COURSE IN ENGLISH COMPOSITION**

During the first two class sessions in English 401, writing tests will be given to determine the ability of students to use the English language effectively. Students found with less than expected ability will be dropped from the regular classes and assigned to review sections in English fundamentals, without credit, for one Quarter. A fee of \$5.00 will be charged to cover the cost of tutorial instruction.

PROFICIENCY TEST IN ENGLISH COMPOSITION

Students for whom English 401 is a required subject are eligible to take a proficiency test in English composition, provided they are sure that their skill in writing is above the average of that of high school graduates. Passing the test allows full credit for English 401; failure to pass the test carries no penalty.

Students who expect to take the test should be guided by the following instructions:

(1) A signed application, printed in the Freshman Elective Bulletin (or obtainable from the English Department), must be submitted to the English office before the time of the examination.

(2) The application must be countersigned by the principal or some other responsible officer of the applicant's high school.

(3) The examination must be taken in the first Quarter of residence: English 401 must not be elected for that Quarter if the examination is to be taken.

(4) The examination will be given on the second Saturday of the Quarter (except the Summer Quarter) at 9:00 A. M., in Derby Hall, Room 100.

(5) Further public notice of the time of the examination will be given only in the Ohio State Lantern, the campus daily newspaper. Applicants will not be notified personally.

(6) For further information or for adjustments, the student should consult James F. Fullington, Derby Hall, Room 116.

401. Composition and Reading. Five credit hours. One Quarter. Autumn, Winter, Spring. Applied Optics, first year. Director, Mr. Fullington.

A course in the effective reading and writing of the types of expository prose generally required in college courses. Discussion and practice.

GERMAN

Office, 210 Derby Hall

PROFESSOR M. B. EVANS, INSTRUCTORS AND ASSISTANTS

401. Elementary German. Five credit hours. One Quarter. Autumn, Winter, Spring. Five recitations each week. Elective. All instructors.

The elements of German grammar; reading of easy prose; oral practice.

402. Elementary German. Five credit hours. One Quarter. Autumn, Winter, Spring. Five recitations each week. Elective. Prerequisite, German 401 or equivalent. All instructors.

The elements of German grammar; reading of easy prose; oral practice.

MATHEMATICS

Office, 307 University Hall

PROFESSORS KUHN AND RASOR, INSTRUCTORS AND ASSISTANTS

421. College Algebra. Five credit hours. One Quarter. Autumn, Winter, Spring. Applied Optics, first year. Prerequisite, one unit of entrance algebra and one unit of entrance geometry. All instructors.

Fundamental ideas and topics of college algebra. Designed, along with the allied courses, Mathematics 422, 429, 435, to give students in the arts and sciences a conception of the character and possibilities of modern mathematics, especially in relation to its uses in other subjects.

422. Plane Trigonometry. Five credit hours. One Quarter. Autumn, Winter, Spring. Applied Optics, first year. Prerequisite, one unit of entrance algebra and one unit of entrance geometry. All instructors.

Solution of right and oblique triangles, theory and use of logarithms, solution of trigonometric equations and identities, various applications to the arts and sciences.

423. Analytic Geometry. Five credit hours. Spring Quarter. Elective. Prerequisite, Mathematics 421 and 422. All instructors.

NOTE: Students who have one and one-half units of mathematics for entrance to the University may elect Mathematics 431-432-433 in place of 421-422-423.

PATHOLOGY

PROFESSOR SCOTT, MRS. HELZ

650. Pathology. Three credit hours. Autumn Quarter. Three lectures each week. Applied Optics, fourth year. Prerequisite, Zoology 401-402, Anatomy 413 or 414, 437, and 440 or 640. Mrs. Helz.

General pathology, including the etiology of diseases, disturbances of nutrition, inflammation, and tumors, with special reference to their influence upon ophthalmology.

Not open to students who have credit for Pathology 450.

651. Pathology. Three credit hours. Winter Quarter. Three lectures each week. Applied Optics, fourth year. Prerequisite, Pathology 650. Mrs. Helz.

A continuation of Pathology 650.

Not open to students who have credit for Pathology 451.

PHYSICS AND ASTRONOMY

PHYSICS

Office, 107 Mendenhall Laboratory

PROFESSOR ALPHEUS W. SMITH, ASSOCIATE PROFESSOR ALVA W. SMITH, ASSISTANT PROFESSORS KNAUSS, POOL, AND GREEN, AND ASSISTANTS

411. General Physics: Mechanics, Wave Motion, and Sound. Five credit hours. One Quarter. Autumn and Winter. Four lectures and recitations and one two-hour laboratory period each week. Applied Optics, second year. Prerequisite, two entrance units in mathematics. Mr. Alpheus Smith, Mr. Alva Smith, Mr. Knauss, Mr. Green.

Not open to students who have credit for Physics 401 or 403.

412. General Physics: Heat, Light, Spectroscopy. Five credit hours. Winter Quarter. Four lectures and recitations and one two-hour laboratory period each week. Applied Optics, second year. Prerequisite, Physics 411. Mr. Alpheus Smith, Mr. Alva Smith, Mr. Knauss, Mr. Green.

Not open to students who have credit for Physics 402 or 404.

413. General Physics: Magnetism, Electricity, and Electronics. Five credit hours. Spring Quarter. Four lectures and recitations and one two-hour laboratory period each week. Applied Optics, second year. Prerequisite, Physics 411. Mr. Alpheus Smith, Mr. Alva Smith, Mr. Knauss, Mr. Green.

501. Geometrical and Physical Optics. Five credit hours. Autumn Quarter. Three lectures and recitations and two two-hour laboratory periods each week. Applied Optics, third year. Prerequisite, Physics 411-412-413 and Mathematics 421-422. Mr. Pool.

This course treats of the fundamental principles and methods of geometrical optics, with special reference to refractive indices, prisms, thin lenses, cylindrical lenses, combinations of thin lenses and thin lens systems, etc.

502. Geometrical and Physical Optics. Five credit hours. Winter Quarter. Three lectures and recitations and two two-hour laboratory periods each week. Applied Optics, third year. Prerequisite, Physics 501. Mr. Pool.

A continuation of Physics 501. It treats of thick lenses, combinations of lenses and mirrors, optical instruments used in conjunction with the eye, magnifying power, chromatic and spherical aberration, diffraction, interference, etc.

503. Geometrical and Physical Optics. Five credit hours. Spring Quarter. Three lectures and recitations and two two-hour laboratory periods each week. Applied Optics, third year. Prerequisite, Physics 502. Mr. Pool.

A continuation of Physics 502. It treats of optical instruments, spectroscopy, photometry and illumination, double refraction polarization, absorption of light, color vision, etc.

PHYSIOLOGY

Office, 209 Hamilton Hall

PROFESSORS SEYMOUR AND NICE, ASSISTANT PROFESSORS HITCHCOCK AND
HAMLIN, INSTRUCTORS AND ASSISTANTS

407. Elementary Physiology. Five credit hours. One Quarter. Autumn, Winter, Spring. Three hours of lectures or recitations and four hours of laboratory each week. Applied Optics, second year. Prerequisite, one Quarter of chemistry or one unit of high-school chemistry. Not open to Freshmen. Mr. Seymour, Mr. Hamlin, Mr. Ashcraft, and assistants.

A foundation course in the fundamental principles of animal physiology, including the chemical and physical structure of animal matter; the reactions involved in animals, including the human body in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Not open to students who have credit for any course in physiology.

408. Elementary Physiology. Five credit hours. One Quarter. Autumn, Winter, Spring. Three hours of lectures or recitations and four hours of laboratory each week. Prerequisite, Physiology 407. Not open to Freshmen. Mr. Seymour, Mr. Hamlin, Mr. R. R. Durant, Mr. Ashcraft, and assistants.

Either this course or Physiology 409 may be chosen by the student as a continuation of Physiology 407, or this course may follow Physiology 409 if the student so elects. This course presents the elementary study of respiration, foods, digestion, metabolism, and excretion, with brief reference to circulation and internal secretions.

Not open to students who have credit for Physiology 404.

409. Elementary Physiology. Five credit hours. One Quarter. Winter and Spring. Three hours of lectures or recitations and four hours of laboratory each week. Prerequisite, Physiology 407. Not open to Freshmen. Mr. Seymour, Mr. Nice, Mr. Hitchcock, Mr. Hamlin, Mr. R. R. Durant, Mr. Ashcraft, and assistants.

Either this course or Physiology 408 may be chosen as the continuation of Physiology 407. This course may precede or follow Physiology 408. An elementary study of circulation, the organs of internal secretion, the central nervous system, and the special senses. A summary of respiration and metabolism is presented.

Not open to students who have credit for Physiology 404.

PSYCHOLOGY

Office, 325 Education Building

PROFESSORS ARPS, DOCKERAY, AND RENSHAW, INSTRUCTORS, AND ASSISTANTS

401. Elementary Psychology. Five credit hours. One Quarter. Autumn, Winter, Spring. Five lecture hours or three lecture hours and two two-hour laboratory periods each week. Applied Optics, first year. All instructors.

An introductory course and fundamental to all subsequent courses in the department. This course, together with Psychology 402, undertakes to present a survey of the whole field of human psychology. This includes a study of the experimental findings in infant behavior and the subsequent development of adult modes of response, such as emotion, attention, habit, thinking and the nature and development of personality.

Students desiring the laboratory should indicate that preference and arrange their schedule so that two consecutive hours are available. (See Time Schedule.) In the laboratory sections the student will be given the opportunity to perform experiments directly related to the material presented in the lecture sections.

402. Elementary Psychology. Five credit hours. One Quarter. Autumn, Winter, Spring. Five lecture hours or three lecture hours and two two-hour laboratory periods each week. Applied Optics, second year. Prerequisite, Psychology 401. All instructors.

A continuation of Psychology 401. Students desiring the laboratory should indicate that preference and arrange their schedule so that two consecutive hours are available. (See Time Schedule). In the laboratory sections the student will be given the opportunity to perform experiments directly related to the material presented in the lecture sections.

601. Experimental Psychology. Three credit hours. Autumn Quarter. One lecture and two laboratory periods each week. Elective. Prerequisite, Psychology 402. Mr. Renshaw.

The laboratory course in experimental psychology for advanced undergraduate and graduate students. The experiments are selected both for general cultural values and for preparation for technical research in experimental psychology.

602. Experimental Psychology. Three credit hours. Winter Quarter. One lecture and two laboratory periods each week. Elective. Mr. Renshaw.

A continuation of Psychology 601.

ROMANCE LANGUAGES AND LITERATURES

Office, 111 Derby Hall

PROFESSORS HENDRIX AND MONROE, INSTRUCTORS AND ASSISTANTS

FRENCH

401. Elementary French. Five credit hours. One Quarter. Autumn, Winter, Spring. Five recitations each week. Elective. Sections in this course are limited to twenty-five students. All instructors.

No student is allowed to take this course simultaneously with Spanish 401-402 or Italian 401-402.

402. Elementary French (Continued). Five credit hours. One Quarter. Autumn, Winter, Spring. Five recitations each week. Elective. Prerequisite, French 401. Sections in this course are limited to twenty-five students. All instructors.

No student is allowed to take this course simultaneously with Spanish 401-402 or Italian 401-402.

ZOOLOGY AND ENTOMOLOGY
Office, 101 Botany and Zoology Building

PROFESSORS OSBURN AND BARROWS, ASSOCIATE PROFESSORS D. F. MILLER AND PRICE, ASSISTANT PROFESSOR J. A. MILLER, INSTRUCTORS AND ASSISTANTS

401-402. **General Zoology.** Five credit hours. Two Quarters. Both 401 and 402 are given Autumn, Winter, Spring. Five lecture-laboratory periods each week. Applied Optics, first year. Mr. Barrows, Mr. D. F. Miller, Mr. Price, Mr. J. A. Miller, instructors and assistants.

A course intended to give the student a general view of the nature of animal life and to point out its relation to man's economic and social activities. The chief topics considered are as follows: nature and structure of living substance, food and its energy transformations, the essentials of reproduction; a review of the animal groups with special stress on useful and harmful qualities; animal distribution and relation to environment; heredity and evolution with particular stress upon their relation to human affairs.
