ALUMNI NEWS

MECHANICAL ENGINEERING

Charles H. Robinson, '26, is a designer with the C. & G. Cooper Co. of Mount Vernon, Ohio.

Joseph L. Goodill, '27, is in the Railway Control drafting room of the General Electric Company at Erie, Pa. His home address is 124 East Fourth St., Erie, Pa.

Lyman A. Markel, '21, is in the Structural Steel Eng. Dept. of the Ralston Steel Car Co., Columbus, and is living at 1279 Elmwood Avenue.

Clarence M. Wilkinson, '06, is district engineer for the Haslett Chute & Conveyor Co., 1311 Union Mortgage Building, Cleveland. He is living at 420 Morning View Avenue, Akron, Ohio.

J. B. Nordholt, '08, is president of the Logangear Products Co., Toledo, Ohio.

R. M. Batch, '21, is with H. P. Jones and Co., 1601 Second National Bank Bldg., Toledo, Ohio.

Clarence F. Wolf, '16, is with the Jacob Wolf Co., General Contractors, Bowers Building, Mansfield, Ohio.

Walter A. Dorsey, '04, is Works Manager of the Alloy Cast Steel Co., Marion, Ohio.

Edward F. Biggert, '11, is Division Plant superintendent of Cleveland-West Division of the Ohio Bell Telephone Co., room 636, 750 Huron Road, Cleveland, Ohio, and is living at 2875 Meadowbrook Blvd., Cleveland Heights, Ohio.

Irwin G. Boehm, '28, has resigned his position with the National Cash Register Co., Dayton, Ohio, and is senior aeronautical draftsman at Wright Field, Dayton, Ohio.

ELECTRICAL ENGINEERING

A copy of the paper "On the Variation of Generated Frequency of a Triode Oscillator," by Keith B. Eller, '27, was recently received by the department of electrical engineering. This was reprinted from Proceedings of the Institute of Radio Engineers of December, 1928, and constitutes a valuable addition to the theory of this complicated subject.

R. M. Carter, '23, who is connected with the Patent Department, General Electric Company, has recently sailed for Europe.

T. W. Hoddy, '26, is connected with the Robbins & Myers Co. He is organizing a division of that company to manufacture a radio amplifier which he has recently developed.

H. L. Hope, '05, superintendent of Equipment Engineering of the Western Electric Company gave a lecture to the senior electrical engineers recently. His subject was the "Relation of Engineering to Production."

In the January issue of the Ohio State Engineer the name of J. J. Linebaugh, '09, was incorrectly given as Limbaugh. Mr. Linebaugh is with the engineering firm of Jackson & Moreland of New York City.

CIVIL ENGINEERING

Lester P. Slade, '11, may be addressed at 263 Berkeley Street, Rochester, N. Y.

F. C. Wardwell, '11, is with the New England Power Company and as Construction Engineer at St. Johnsbury, Vt.

Dean L. Barr, '12, was a caller on the campus during the summer. He is a Civil Engineer at Gary, W. Va.

Harvey F. Brown, '12, is resident engineer for the State Highway Department at Steubenville, O.

John E. Hammond, '12, is now located at 441 Fifth Street, Toledo, O. He is working for the New York Central Lines.

F. J. Kahle, '14, is stationed at Chillicothe, O., in the Transportation Department of the B. & O. Railroad.

H. B. Kennedy, '14, is with the Jennings Lawrence Company, Hartman Building, Columbus.

R. H. Smith, '14, is with the Ohio State Highway Department in the main office at Columbus.

W. W. Wildeson, '14, is chief draftsman of the Nickle Plate Railroad at Cleveland, O.

D. E. Adams, '15, is owner of the Riverside Lumber Company at Morgantown, W. Va., which he purchased in 1921. He would like to see any of his old classmates who get down in that direction.

Reid C. Beem, '15, is construction engineer for the R. H. Evans Company with offices at 395 E. Broad Street, Columbus.

Wm. L. Beeson, '15, lives at 773 Roosevelt Avenue, Columbus. He is in engineering work for a Columbus development company.

L. H. Bell, '15, is on the Engineering Staff of the New York Central Lines at Columbus.

E. R. Conner, '15, is with the State Highway Department at Columbus.

George T. Donahue, '15, lives at 49 Monica Street, New York. He is assistant division engineer on the New York Central Lines there.

Frank R. Zethmayr, '15, is an engineer at Chardon, Ohio.

C. A. Geiger, '16, is supervisor in the M. of W. Department of the New York Central Lines, Toledo. His address is 511 Nevada St.

James L. Heath, '16, is an engineer for the S. H. L. & B. V. Traction Company. His address is R. F. D. No. 1, East Liverpool, Ohio.

Sid E. Mix, '16, is head geologist for the Gulf Refining Company of Shreveport, La. He resides at 261 Dalzell Street, Shreveport.

Earl I. Roberts, '16, is now at 1601 Second National Bank Building, Toledo, Ohio, with H. P. Jones & Company.

G. R. Leidigh, '17, is in the engineering and constructing business at Bellefontaine, Ohio. His address is 316 East Brown Avenue.

J. B. McTomany, '17, is district sales manager for the Tarvia Company, Louisville, Ky.

G. C. Seeger, '17, is with Boyajohn and Barr, Contractors, of Columbus.

J. W. Bulger, '18, is a professor at the University of Akron. He lives at 368 Sherman Street, Akron.

Waldo Hartline, '18, was a recent caller on the campus. He is doing engineering work at New Philadelphia, O.

Q. A. Campbell, '20, is secretary of the National Paving Brick Manufacturers Association, Washington, D. C.

Harold R. Wheeler, '20, was a recent caller on

Let us tell you more about it
It has many new features and advantages

THE LUFKIN RULE CO.

Windsor, Ont. SAGINAW, MICH. New York

*"How can I best inspect
precision tools?"*

A manufacturer said to us: "I must measure a number of templets frequently. Great accuracy is imperative. An optical method may speed up the process . . ." The B. & L. Toolmakers' Microscope—used in many other industries—was the simple solution to this problem.

In every phase of industry special optical instruments are solving problems of inspection and production control better and more economically. Bausch & Lomb scientists have studied many industrial fields. Their experience may be invaluable to you. Call on them.

the General Refractories Company, has been made chairman of the refractories division of the American Ceramics Society.

Charles F. Rudman, Ph.D., Chemical Engineering Department, is with the National Carbon Company, in sales work of medical carbon used in various lamps for generating ultra-violet light.

A number of alumni and others visited the laboratories of the Chemical Engineering Department on the day of the Michigan football game. Among these were:

William Strobach, '27, Chemical Engineer with the Ohio Inspection Bureau, located at Dayton, Ohio.

Willard B. Mitchener, '27, Chemical Engineer in the finishing and packing department of Parke-Davis Company, Detroit, Mich.

James L. Collins, '27, Chemical Engineer with the Ohio Inspection Bureau, located at Cincinnati, Ohio.

Earl W. Walke, Chemical Engineer in the tablet department of the Parke-Davis Company, Detroit, Mich.

H. T. Mersereau, '16, Chemical Engineer with the Standard Oil Company, Toledo, Ohio.
