URI: <http://hdl.handle.net/1811/34092>

Appears in Collections: [Ohio State Engineer: Volume 4, no. 2 \(January, 1921\)](#)

EDITORIAL

The reader of this column, if such there be, now sees the accomplishment of a hitherto unheard-of feat, namely, an editor refraining from editorials. It is a characteristic of the species to run rather profusely to the expression of thot and sentiment, but even this little paragraph we intend to make an announcement rather than an editorial.

With this issue of the "Ohio State Engineer" the present Staff will retire in favor of the newly-elected members. The following compose the new Staff:

- O. B. Stout—Managing Editor.
- E. G. Gardner—Business Manager.
- T. N. Finical—Advertising Manager.
- J. H. Jefferson—College Editor.
- Marion K. Hindman—Alumni Editor.
- C. A. Ritchie—Circulation Manager.

The Department Editor's and Department Manager's positions have not been filled in order that the Advisory Board might cooperate with the new Staff in their selection.

We wish to express our congratulations to the "Engineer" on the members of the Staff, and to the Advisory Board on the excellence of its selection. To the new Staff, we wish you success in

putting out a magazine that shall be a credit to the Engineering College and the University, and, coupled with this, the hearty support of the student body and Alumni.

We of the old Staff, as we look back, doubtless can recall times when we have wished that we did not have this job on our hands. It has meant work and worry, time and effort, to carry on. But withal, as we look back, we believe we are justified in a feeling of pride. We have picked up the work of the men who preceded us, and "carried on," and now at its close we believe that we have pushed the "Engineer" along just a little bit. And that is what we want to see the new Staff do in greater degree—pick up the work and shove the "Engineer" farther along toward its goal of an ideal student engineering publication. Toward this we are sure each member of the old Staff will lend his fullest cooperation.

I cannot refrain from expressing my warm personal appreciation of the manner in which each member of the present Staff has carried out his duties and the cooperation we have enjoyed. It has been a splendid example of team work, and has been one of the things that has made the work a pleasure.
