## Training Opportunities & Tips

*Presented by the OSUL Training Advisory Council*

**Passwords** -- There are seven activities at the Libraries that require the use of a password--Novell accounts, which govern the use of your office computer; University accounts that are used for e-mail and other authentication needs; the Corporate Time Calendar; personal accounts to perform circulation or maintenance functions on OSCAR/Felix; staff logins to see staff information in OSCAR/Felix; OSUL staff information; and OhioLINK staff information. For the first four that are listed, you have control over the passwords and can change them yourself at any time.

Novell Accounts -- Once you are logged into your computer:

1. Press Ctrl+Alt+Delete at the same time.
2. Click on the Change Password button in the lower left corner of the dialog box.
3. Supply the Old Password, New Password, and Confirm New Password.
4. Click on OK.

University Accounts -- Connect to the following Web site: <http://www.oit.ohio-state.edu/userpass.html> (Note: this is a new address)

1. Click on How to Change Your Password.
2. Click on the "change the password" link in the last paragraph.
3. Supply your University Username, Current Password, New Password, and confirm the New Password, as requested.
4. Press Enter to conclude the session.

Corporate Time Calendar -- Once you are logged into the Calendar:

1. Select Sign-In Preferences from the Options pulldown menu.
2. Supply the Old Password and New Password.
3. Click on OK.

## OSCAR/Felix Maintenance -- From the VT-100 Main Menu:

1. Select M> MANAGEMENT Information .
2. Select I> INFORMATION about the system from the next menu.
3. Supply your initials (login) and password, as requested. (Note: Students are not authorized for this function, and must be assisted by a supervisor.)
4. Select P> Change your PASSWORD from the next menu.
5. Supply your initials (login), password (current), NEW password, and reenter the new password, as requested.
6. Hit the spacebar to exit.

To maintain the integrity of the campus network, it is recommended that you change your University password periodically. For convenience's sake, you may wish to change the Novell and Corporate time passwords at the same time so that you only need to remember a single password for those three activities.

The remaining passwords are not under your control. The OSCAR/Felix staff logins are assigned to you by Nancy Helmick. The passwords for OSUL and OhioLINK staff information are the same for all users; if not known, the one for OSUL is available from Betty Sawyers or Penny Pearson, and the one for OhioLINK is available from Nancy Helmick, Laura Tull, or Penny Pearson.

**Training Calendars** - Calendars for the current and two future months, showing training opportunities available from the Libraries, the Office of Human Resources, OhioLINK, OHIONET, and the Computer Workshop. **Alphabetic** and **Subject Indexes** are also provided.

### Diedrichs and Murphy Present Faculty Lectures

Carol Pitts Diedrichs and James L. Murphy, both of whom received promotions to professor during Summer 2002, recently presented professorial lectures.

Carol Diedrichs lecturing on "Fostering Innovation in Technical Services and Collections."

Carol Diedrichs, Assistant Director, Technical Services and Collections, is a leader in her field and she may even be the most decorated member of our library staff. Carol is active in the American Library Association and the Committee on Institutional Cooperation, and she's an essential player in OhioLINK. She came to Ohio State in 1987 as Assistant Professor and Head of

Acquisitions. She has also served as Associate Professor and Assistant Director for Technical Services and Liaison to Ohio State's regional campus libraries. She has extensive experience in research and publishing in technical services, collection management and journal usage in libraries, has been published in the premier journals in library and information science, and she has served as editor-in-chief of a refereed journal. In addition, she spent part of Summer 2001 as a fellow at UCLA. In preparation for the Main Library Renovation, she is developing a framework for dealing with collection management decisions. Carol's lecture topic was "Fostering Innovation in Technical Services and Collections."

Jim Murphy giving his "Art Pottery Archaeology in Ohio" lecture.

Jim Murphy serves as Cataloging Coordinator for Monographs, Theses, and Non-book Materials at University Libraries. A prolific researcher and writer with numerous published articles and books to his credit, Jim has actively studied a variety of scientific disciplines, chiefly archaeology and geology. His expertise in historic archaeology includes 19th and 20th century U.S. ceramics and historic clay tobacco pipes. More recently he has been instrumental in cataloging of the Baggs Memorial Library, which includes an extensive collection of ceramics, ceramics-related materials,

and ceramic art objects, many created by former OSU teachers and students. His current research, which includes completion of a thorough bibliography of Ohio archaeology and a study of Zanesville area novelty potteries, contributes to the study of archeology and Ohio state history. Jim Murphy's lecture topic was, "Art Pottery Archaeology in Ohio--Potential and Constraints."
