

OCTM Individual Membership Form

Name:
Address:*
<i>*College students: Please provide your permanent address.</i>
City:
State: _____ Zip: _____
SS#: XXX-XX-____ (last four digits)
Home Phone: _____ Work Phone: _____
E-mail: _____
OCTM will soon begin to offer the quarterly newsletter by e-mail to members. Please check the method by which you prefer to receive the newsletter at that time: [] E-mail [] Regular mail
Employed by: _____
Position: _____
Grade Level(s): _____
Please Check:
[] Male [] Female
[] New Membership [] Renewal
[] \$25 Regular 1-year [] \$60 Regular 3-year (Make check payable to OCTM) [] \$10 First-year teacher 1-year *Note: The latter three options are not [] \$5 Full-time student 1-year available to those joining through OEA.
[] Life- Available without payment of dues to persons who were OCTM members for 20 consecutive years prior to retirement.
[] From time to time OCTM will be making our members' mailing information available to other reputable organizations or companies for mathematics-related products or services that might be of interest to our members. We are confident that many of our members will find this a valuable and time-saving service. If however, you prefer to be excluded from these mailings, check this box.
I am interested in the following involvement opportunities with OCTM: Name _____ E-mail _____
[] Planning regional professional learning opportunities [] Serving on planning committees for the state conference [] Helping to plan the OCTM Tournament (mathematics contest for students) [] Serving on the Membership committee (keeping in touch with members) [] Writing newsletter/website articles OR locating information for these [] Soliciting or writing manuscripts for journal articles [] Writing position statements [] Communicating OCTM information to my local colleagues (by e-mail) [] Other: _____
Mail completed form to: Sister Mary Theresa Sharp, S.N.D. OCTM Membership Secretary 13000 Auburn Road Chardon, OH 44024-9330

Ohio Council of Teachers of Mathematics

Announcing OCTM Special Interest Groups (SIG)

As part of OCTM's strategic vision for promoting positive, collaborative growth in mathematics education, we are pleased to announce the formation of Special Interest Groups. The goal of these Special Interest Groups is to **develop strong networks** of OCTM members who are interested in specific issues in mathematics education. Networking can be a catalyst to growth and development of our professional practice, and we would like to facilitate this process throughout the state of Ohio.

In the table below, check out the SIGs that are all ready to get started. You are most welcome to sign up for one or more of these or start one of your own. To sign up, just email your topic facilitator and then each facilitator will contact each person in her or his SIG and arrange with their respective group members how to operate as a team. Groups may use such means as email, blogs, discussion boards, local, regional, and state conferences, or any other way to get together for professional dialogue or important topics. **What is YOUR passion?**

If you would like to start a SIG of your own, please contact one of OCTM's VPs: Caroline Borrow, cborrow@hb.edu; Anne Hambrick, hambricka@olv-school.org; or Patti Brosnan, pbrosnan@ehc.osu.edu who will get you started. We are so excited to have so many good choices to offer our membership so early in the process.

In anticipation of the wealth of knowledge shared and generated by your group, we would love to have as many SIGs as interested to **submit a proposal** to hold a session at the next OCTM conference in Akron (Caroline Borrow, cborrow@hb.edu or Joanne Caniglia, jcanigl1@kent.edu). You will be able to discuss your topic, gain additional perspectives, and you may even attract more members to your group. Let's get this party started.

Join a SIG now!

Let your *voice* be heard.

Create a SIG of your own.

Take *action*.

Have *fun*.

Talk with *colleagues*.

OCTM Special Interest Groups

Topic	Facilitator	Email
Assessment	Carl Jones	Carl_Jones@darke.k12.oh.us
Data Analysis and Probability	Jerry Moreno	Moreno@jcu.edu
Early Childhood	Debbie Kuchey	kuchey@xavier.edu
