

REPORT OF THE NECROLOGY COMMITTEE, 1992

The Necrology Committee of The Ohio Academy of Science is in the process of reorganizing according to the revised constitution of the Academy. Ronald L. Stuckey, Historian-Archivist, is also chairperson of the committee. Members are Richard H. Mahard, Denison University, and Relda Niederhofer, Firelands College of Bowling Green State University. The committee is seeking additional members and individuals to prepare obituaries. Emanuel D. Rudolph, who chaired the Necrology Committee since 1984, wrote several obituaries during that time. Because of his death, his valuable contributions to the necrology reports will be greatly missed.

Following is a list of recently deceased members of the Academy with their section affiliation and years they became members.
