## ANNOUNCEMENTS.

With this issue the OHIO NATURALIST begins its second volume. With brighter prospects before us we shall endeavor to make improvements over the first volume and to give our subscribers as good a publication as we possibly can. The subscription price remains the same as last year and we send out a large number of sample copies of this issue, with the desire that when you receive your copy, if you are not already a subscriber, you will conclude to become one and send us fifty cents and order the current volume sent to your address. A number of complete sets of Volume I., or any single number of that volume, are for sale at the regular subscription price. Address the OHIO NATURALIST, Ohio State University, Columbus, Ohio.

It is suggested that we introduce a correspondence department into our journal. To that end we announce that hereafter we shall be pleased to publish letters, or parts of letters, from our correspondents, whenever we consider such of sufficient general interest to our subscribers. Also, whenever desired, questions of importance sent in by correspondents will be answered in these columns. Members of the Advisory Board have promised to take charge of this department of the work.
