Introduction

Most of the contributions of this volume fall into the area of syntax and semantics. The papers "English Time and Place Adverbials" and "Two Theories of Action Sentences" by Michael L. Geis were presented during the 1973 winter and 1974 summer LSA meetings. The contribution by Sheila Geoghegan is a revision of her M.A. thesis. Jeanette K. Gundel's paper was extracted from her Ph.D. thesis done at the University of Texas. Ronald Neeld's contribution was drawn from his OSU Ph.D. thesis.

This volume also contains a paper by Arnold M. Zwicky and G. K. Pullum on phonology.
